BRUNSWICK, MAINE

Bowdoin College Bulletin

Sessions of 1957-1958

Number 326

This Bulletin is published by Bowdoin College four times during the College Year: September, December, March, and June. Entered as second-class matter at the Post Office at Brunswick, Maine, under Act of Congress of July 16, 1894.

Printed by The Anthoensen Press, Portland, Maine

COLLEGE CALENDAR

1957-1958

1957

September 14, Saturday. Rooms ready for occupancy for the Fall Semester.

September 16, Monday. Fall Semester of the 156th academic year begins at 8:00 A.M. All students required to be in residence. Registration.

September 17, Tuesday. Registration.

September 18, Wednesday. Registration. First chapel exercises at 12:00 noon in the First Parish Church.

September 19, Thursday. First classes.

October 8, Tuesday. Evening major meetings.

October 16, Wednesday. James Bowdoin Day.

October 17, Thursday. Freshman review.

October 22, Tuesday. Evening major meetings.

November 5, Tuesday. Achorn Prize Debate. Smith Auditorium at 8:15 P.M.

November 12, Tuesday. Evening major meetings.

November 18, Monday. Mid-semester review of classes.

November 18, Monday. Fairbanks Prize Speaking (*English 6*). Smith Auditorium at 8:15 P.M.

November 26, Tuesday. Evening major meetings.

November 26, Tuesday. Last day for the payment of the balance of college bills for the Fall Semester.

November 27, Wednesday. Thanksgiving recess begins, 12:00 noon.

December 2, Monday. Thanksgiving recess ends, 8:00 A.M.

December 7, Saturday. Bowdoin Interscholastic Debate Tournament.

December 9, Monday. Evening major meeting.

December 9, Monday. Alexander Prize Declamation Contest. Pickard Theater in Memorial Hall at 8:15 P.M.

December 18, Wednesday. Christmas vacation begins, 12:00 noon.

1958

January 3, Friday. Christmas vacation ends, 8:00 A.M.

January 13, Monday. Evening major meetings.

January 16, Thursday. Fairbanks Prize Speaking (*English 3*) Smith Auditorium at 1:30 P.M.

January 18-January 30, Saturday-Thursday. Review period and examinations of the Fall Semester.

February 1, Saturday. Stated February meeting of the Governing Boards.

February 3, Monday. Spring Semester begins, 8:00 A.M.

February 10, Monday. Meeting of the Phi Beta Kappa, Alpha of Maine.

February 10, Monday. Phi Beta Kappa Address, 8:00 P.M. Moulton Union.

February 20, Thursday. Bradbury Prize Debate. Smith Auditorium at 8:15 P.M.

February 24, Monday. Evening major meetings.

March 3, Monday. Evening major meetings.

March 17, Monday. State of Maine scholarship examinations.

March 17, Monday. Mitchell Prize Debate. Smith Auditorium at 8:15 P.M.

March 18, Tuesday. Evening major meetings.

March 28, Friday. Spring vacation begins, 12:00 noon.

March 31, Monday. Mid-semester review of classes.

April 8, Tuesday. Spring vacation ends, 8:00 A.M.

April 8, Tuesday. Evening major meetings.

April 10, Thursday. Plummer Prize Speaking. Smith Auditorium at 8:15 P.M.

April 15, Tuesday. Last day for the payment of the balance of college bills for the Spring Semester.

April 21, Monday. Class of 1868 Prize Speaking. Smith Auditorium, 8:15 P.M.

April 22, Tuesday. Evening major meetings.

May 6, Tuesday. Evening major meetings.

May 19, Monday. Last day for filing applications for all graduate scholarships.

May 23, Friday. Competition for the Brown Prizes in Extemporaneous Composition.

May 24, Saturday. Last day of classes of the Spring Semester.

May 24, Saturday. Last day for submitting manuscripts for the Bennett and Piper Prizes in Government, the Class of 1875 Prize in American History, the Pray Essay Prize in English, the Rickard Poetry Prize, and the Hawthorne Short-story Prize.

May 28-29, Wednesday and Thursday. Written major examinations for Seniors.

May 30-June 2, Friday-Monday. Oral examinations for Seniors.

May 26-June 10, Monday-Tuesday. Review period and examinations of the Spring Semester.

June 8, Sunday. Baccalaureate Address in the First Parish Church, 5:00 P.M.

June 12, Thursday. Stated meetings of the Governing Boards: Trustees, 2:00 P.M.; Overseers, 2:30 P.M. Massachusetts Hall.

June 13, Friday. Presentation of Shakespearean play by the Masque and Gown. Pickard Theater in Memorial Hall, 9:00 P.M.

June 14, Saturday. The 153rd Commencement Exercises in the First Parish Church, 10:00 A.M.

June 14, Saturday. The Commencement luncheon in the Arena, 1:00 P.M.

The Honorable James Bowdoin (1726-1790), colonial governor of Massachusetts, for whom the College was named. The portrait by Robert Feke is part of a distinguished collection of colonial portraits in the Walker Art Building.

Bowdoin College, 1794-1957: an Historical Sketch

THE history of Bowdoin College, which is nearly coextensive with that of the Republic, has its full share of stirring and picturesque episodes but, with perhaps one exception, is free from those dramatic crises which offer a ready means of division into "periods." Contemplating the development of the tiny seminary of learning which opened its single narrow door to students in 1802 into the vigorous and firmly established college of today, with its multifarious activity, we are impressed by the gradualness of the transformation, the continuity underlying change. One contributing factor has been the relatively long terms of the administrators; in the one hundred and fifty-five years of its active history, Bowdoin has had but nine presidents. The terms of Presidents Hyde and Sills alone span sixty-seven years. It is, then, largely for reasons of convenience that we may mark off four periods: the first from 1794, the year of incorporation, to 1802, covering the founding of the College; the second from 1802, the year the College opened, to 1839, extending through the terms of Presidents McKen, Appleton, and Allen; the third from 1839 to 1885, including the terms of Presidents Woods, Harris, and Chamberlain; the fourth from 1885 to the present time, comprising the terms of Presidents Hyde, Sills, and Coles.

I.

The Founding of the College, 1794-1802

When Bowdoin College was founded, the District of Maine was still a part of the Commonwealth of Massachusetts. Its population was rapidly growing—from fewer than 100,000 in 1790 to 150,000 in 1800—and was made up largely of sturdy, hard-working, middle-class people of English or Scottish ancestry engaged in farming, lumbering, fishing, shipbuilding, and trade. Among them, especially in the larger seaport towns like Portland with its 2,500 inhabitants, some families of accumulated wealth and of a considerable degree of culture had already attained political and social influence. The tradition of Maine, however, was (and has remained) distinct from that of Massachusetts; rank and wealth counted on

← *Massachusetts Hall, the original building of the College, was planned in 1798 and completed in 1802. When the College opened, it housed the President, the single professor, and the eight students of the Class of 1806.*

the whole for less; the hold of Puritanism was not so strong; and popular movements, such as Republicanism in politics and evangelicalism in religion, found here a more fertile field. The ruggedness of the country itself; the distance from the seat of government in Boston; sea-borne commerce, which kept the scattered Maine settlements in touch with one another as well as with "foreign parts"; a fighting spirit evidenced by the proud record of Maine in the French and Indian wars—many such conditions, interests, and memories peculiar to Maine had produced by the end of the eighteenth century a strong sectional feeling. One natural result of this temper of mind was the recurrent demand, in the last two decades of the century, for a Maine college to train Maine youth.

In 1788 petitions were presented to the General Court of Massachusetts by the association of ministers and the justices of the peace in Cumberland County for the foundation and endowment of a college in their county. Various names for the new institution were considered; the choice of "Bowdoin" was influenced both by a desire to honor the late distinguished Governor of the Commonwealth, the Honorable James Bowdoin (1726-1790), and by intimations received from his son, to whom the matter had been broached, of some substantial gift toward endowment. Favorable action by the General Court upon the petitions was delayed by two circumstances: the rivalry among eight towns for the honor of nurturing the infant college, and the political antagonism which had existed between the late governor and his successor in office, John Hancock. Not until the latter had been succeeded by Governor Samuel Adams was a bill "to establish a College in the town of Brunswick and the District of Maine, within this Commonwealth" signed—on June 24, 1794.

By that Act, the government of the College is vested in two corporate bodies: The President and Trustees of Bowdoin College, consisting of thirteen Trustees, who hold title to all property and initiate all legislation; and a supervising body, the Overseers of Bowdoin College, forty-five in number, who may concur or decline to concur in the acts of the Trustees. Vacancies in each Board are filled by the Board itself, the Overseers possessing the right to decline to concur in the choice of Trustees. Since 1870, by vote of the Overseers, one-half of the vacancies occurring in that Board have been filled from nominations made by the alumni body. Much of the important work of the two Boards is done preliminarily through joint committees of Trustees and Overseers.

The Boards met at first in Portland. Naturally their chief pre-

occupation for some years was the raising of the necessary funds for their enterprise. The unimproved lands bestowed upon the College in that same act of the General Court were assets not readily convertible into cash; gifts from individuals came in slowly and were at first almost wholly in books. The single munificent donor was the Honorable James Bowdoin (1752-1811), son of the Governor, who contributed £300 in money, some securities and apparatus, and still more tracts of uncultivated land. At his death—to anticipate what belongs later in this record—the College was to become his residuary legatee, inheriting the valuable library which he had collected during his residence in Europe as Minister to Spain and France and his priceless art collection. The friend of Washington, Jefferson, and Franklin, a princely figure in the democratic New World, a representative of the finest cultivation of his stirring period, this earliest patron of the College is fittingly commemorated every year by the exercises of “James Bowdoin Day” in recognition of scholarly achievement.

But these fair prospects were not discernible by the worthy Trustees and Overseers of 1794-1796 grappling with the immediate question—to build or not to build. Their first meeting in Brunswick, then a town of 1,600 inhabitants, was held on July 19, 1796, at John Dunning’s Inn, from which they walked along “Twelve Rod Road” (now Maine Street) and up the “hill” at one end of the village. Here they inspected a tract of thirty acres which had been offered as a site for the College—the present campus and grounds. Two years later, after prolonged planning and revising of plans, they voted to erect thereon a three-story building, fifty feet by forty, in which to house the new College. In 1800, a fortunate sale at a good price of some of the Boards’ holdings in wild land justified the decision and markedly improved their financial position.

The Boards selected as the first president the Reverend Joseph McKeen, a graduate of Dartmouth, who had taught for several years, studied mathematics and astronomy, and served for sixteen years as minister of a large congregation at Beverly, “a man of great ability and learning and of excellent judgment,” as he was to prove himself in the five years (1802-1807) of his presidency at Bowdoin. In a dignified ceremony on September 2, 1802, the President and the single professor were inducted; the President delivered his inaugural address; on the following day eight candidates presented themselves for admission, were examined and duly enrolled; and the College was finally in operation.

II.

The Early Years, 1802-1839

President McKen was succeeded at his death in 1807 by the Reverend Jesse Appleton, also graduated from Dartmouth, who held office for twelve years. He was a man of intellectual ability and elevated character, perhaps too otherworldly for the most skillful conduct of affairs or the most effective leadership of young men. After Appleton there came to the presidency the Reverend William Allen, a graduate of Harvard, recently President of the ill-starred, short-lived "Dartmouth University," and a storm center in the controversy attending that experiment in state-controlled higher education—a person of abundant energy and excellent intentions with a genius for antagonizing both colleagues and students. His administration (1819-1839) is the most contentious period of Bowdoin's history, but, surprisingly, a period in which were installed some of the greatest teachers the College has known and in which were graduated many of its most eminent alumni. The two earlier regimes, in fact, had seen the first of that long procession of young men marked for future fame: for instance, Nathan Lord, '09, for thirty-five years President of Dartmouth; Seba Smith, '18, who holds a secure place among American humorists; and Jacob Abbott, '20, the creator of "Rollo." Now under Allen appeared William Pitt Fessenden, '23, who risked his political career to vote in the Senate against the impeachment of Andrew Johnson; Franklin Pierce, '24, fourteenth President of the United States; and, in the remarkable class of 1825, Nathaniel Hawthorne and Henry W. Longfellow. John Brown Russwurm, later Governor of Maryland, Liberia, was one of the first two Negroes to be graduated from American colleges—both in 1826. In the next decade came Cyrus Hamlin, '34, the founder of Robert College, Istanbul; Henry Boynton Smith, '34, Biblical scholar; John A. Andrew, '37, war governor of Massachusetts; and the Reverend Elijah Kellogg, '40, author of stories of early American life which delighted two generations of American boys.

President McKen had set the same requirements for admission as were in force at Harvard—namely, a knowledge of Latin and Greek that would today be creditable to an upperclassman concentrating in classics, and an acquaintance with mathematics, "as far as the rule of three." Throughout this early period, the undergraduate curriculum was rigidly prescribed: Latin, Greek, and

mathematics almost continuously for the first three years; geography and logic in freshman and sophomore years respectively; and such authors as Locke, Paley, and Butler in junior and senior years. Exercises in rhetoric and oratory were interspersed throughout the course; as early as 1812 there were required themes, and a chair of rhetoric and oratory was established in 1824. Science was recognized by the establishment of a professorship of "natural and experimental philosophy" in 1805; Parker Cleaveland was lecturing on chemistry and mineralogy from 1808 on; and senior reading included books on "natural law." A charter granted in 1824 by the Yale Society of Phi Beta Kappa for a branch at Bowdoin is evidence of the reputation for sound scholarship which the young college already enjoyed. In the main, a conservative spirit prevailed; in 1824, for instance, a professor was appointed to the chair of philosophy primarily to confute the reasonings of Kant and Coleridge, which were regarded as dangerous to orthodoxy. The only distinctly progressive step taken in the thirty-seven years under review, except for the attention given to mineralogy, was the provision made in 1825 for the introduction into the curriculum of French and Spanish, a brilliant undergraduate, Henry W. Longfellow, being designated for the future teaching of them.

Beginning in 1804 with the appointment of a tutor, there was a gradual increase in the number of instructors, some of them men of uncommon abilities. We hear of sporadic efforts to enliven classroom routine: President McKeen's use of "models" in mathematics, for instance, and Tutor Smyth's introduction of the blackboard. In general, however, instruction was conducted largely by daily recitations from textbooks and must often have been a rather languid proceeding. At all events, the more inquiring minds soon found other means of satisfying their intellectual promptings, and formed the first of the two literary societies, the Peucinian and the Athenæan, which flourished for more than a generation, holding debates and literary exercises and maintaining collections of books, which now enrich the College Library. Similarly, by such devout spirits as found the required daily prayers insufficient, a "Praying Circle" was formed, to meet the members' religious needs and to bring Christian influences to bear upon the unregenerate majority. In short, there was much the same diversity of tastes, interests, and manner of life as is found on the campus today. Prior to the erection of a dormitory in 1808, most of the students lived in the single college building, Massachusetts Hall, where, according to a treasured Bowdoin tradition, the President called them to morn-

ing prayers (at six o'clock) by rapping on the stairs with his cane. For the first twenty-six years, the College took virtually no responsibility for the physical exercise of the students. By Longfellow's time, to counteract "a very sickly term," the Faculty went so far as "to recommend a game of ball now and then," and the boys themselves set up a bowling alley; but lack of funds prevented any regular gymnastic instruction until much later. Supervision over the daily life of students was at first strict; efforts were made, with very incomplete success, to enforce regular study hours and a nine o'clock curfew. Faculty records are concerned to an inordinate extent with infractions of discipline ranging from depredations upon property to "frequenting the chambers of fellow-students in an idle and wanton manner." Ordinances of 1817 and 1824 show some relaxation of the earlier rigor, but, as was noted later in *Tales of Bowdoin*, the grotesque spectacle continued to be presented of grave professors patrolling the campus by day and chasing miscreants through the pines at night. Especially the final term of President Allen's rule was marked by undergraduate turbulence.

The growing sectional sentiment, to which Bowdoin had owed its birth, led in 1820 to separate statehood for Maine, and immediately the College found itself faced with a grave decision, which was, in effect, whether it should continue as a private or become a public institution. The political complexion of the Boards and the Faculty was predominantly Federalist; that of the majority party in the new State, Democratic. Federalists favored private, Democrats public control of educational institutions. An amendment to the Act of Separation had provided that no change should be made in the charter of the College except with the assent of the Boards and of the legislatures of both Maine and Massachusetts. Because the College was in acute need of a continuance of financial aid from public funds, the Boards acquiesced, in 1820, in a vote passed by the two legislatures to give to the Maine legislature alone the power to amend the charter—an enactment which, if it had been upheld, would have converted the College into a state-controlled university. Actually, by further maneuvers, the legislature for two years restrained President Allen from exercising his functions. He brought suit, attacking the constitutionality of the act under which he had been removed. In 1831 Justice Story, in a notable decision in the United States Circuit Court paralleling that in the historic Dartmouth College case, not only replaced Dr. Allen in the presidency but laid down such conditions as to make any future modification of the charter, even with the two legislatures concurring, an ex-

tremely difficult undertaking. The status of the College as a private institution was permanently fixed.

One result of this agitation in its early stage was the establishment, in 1820, of the Medical School of Maine as a part of Bowdoin College. The School, never large but highly respected, sent a majority of its graduates into practice in Maine, and for over a century their record, like that of the minority settled elsewhere, added prestige to the Bowdoin name. From 1899 on, the work of the last two years of the course was done at Portland. In 1921, when the needed clinical facilities and technical equipment had become too complex and expensive for a small institution to supply, it was deemed expedient to discontinue the School. The Garcelon and Merritt Fund, derived from the School's endowment, is still administered by the College to aid graduates and undergraduates in their medical education.

III.

The Middle Years, 1839-1885

Upon Dr. Allen's resignation, the Boards elected to the presidency of Bowdoin, by that time a college of two hundred students, the Reverend Leonard Woods. He was thirty-one years old, a graduate of Union College and Professor of Biblical Literature in the Bangor Theological Seminary; a man of firm convictions, engaging personality, and ripe culture. It was he who suggested to the Boards that they assign to the President a larger share of teaching—a practice ever since maintained. Toward the end of his long term (1839-1866), Dr. Woods's naturally conservative tendencies were accentuated, especially his distrust of the contemporary scientific movement; and his extreme pacifism during the Civil War lessened his influence, for the College was ardent in its support of the Union cause, sending into the service a greater number of men in proportion to its size than any other college in the North. The chief memorial of President Woods on the Bowdoin campus is the Chapel, Romanesque and granite, which was built under his supervision and which in materials and architectural type is expressive of the man.

Previous administrations, as has been noted, had gathered at Bowdoin a number of remarkable teachers. One of these, Samuel Phillips Newman, Professor of Rhetoric and the author of a pioneering textbook on political economy, had resigned in 1839. Oth-

ers of the group continued to serve the College through and even beyond the term of President Woods, establishing a tradition of great teaching which the sons of the College like to regard as Bowdoin's chief distinction. The most eminent, with their dates of tenure, were: the redoubtable Parker Cleaveland (1805-1858), in chemistry and mineralogy; Alpheus Spring Packard (1819-1884), in ancient languages and literature; William Smyth (1823-1868), in mathematics; and Thomas Cogswell Upham (1824-1867), in philosophy. As representative of a group of gifted teachers of briefer tenure, who later rose to prominence elsewhere, may be mentioned Daniel Raynes Goodwin, '32, and Charles Carroll Everett, '50, both in modern languages. Not only in the classroom but in the agreeable, self-contained life of Brunswick as well—at Town meetings, on the school committee, in the churches—the professors from “the hill” took their full part, as their successors do today. Parochial as that village existence may have seemed, it was never really isolated from world affairs. From here, Parker Cleaveland had corresponded with Davy, Cuvier, Berlioz, and, through an intermediary, with one of his greatest admirers, Goethe; from here, President Woods journeyed to Oxford, where he met the leaders of the Tractarian Movement, and to Rome, where he conversed in Latin with the Pope; here, in the home of Professor Smyth, was a station of the “underground railroad” for escaped slaves; and here, in another professorial household, was written the book that was to arouse the conscience of a nation, *Uncle Tom's Cabin*.

Instruction from such teachers bore its rich fruit in the achievement and character of the men they trained. In later years (1896-1898) three graduates of the Bowdoin of this middle period were presiding over branches of the national government: Melville Weston Fuller, '53, the Chief Justice; William Pierce Frye, '50, President *pro tempore* of the Senate; and Thomas Brackett Reed, '60, Speaker of the House of Representatives. A fourth alumnus, General Oliver Otis Howard, '50, was the head of the Freedmen's Bureau and the founder of Howard University. In this period also were graduated General Thomas H. Hubbard, '57, banker and promoter of Arctic exploration, and William J. Curtis, '75, lawyer,—both generous benefactors of the College; Edward Stanwood, '61, historian of the Presidency, and DeAlva S. Alexander, '70, Congressman and chronicler of the political history of New York State; Frederic H. Gerrish, '66, anatomist, and Edwin H. Hall, '75, physicist; and Edwin U. Curtis, '82, the Commissioner whose firm stand in the Boston police strike of 1919 was one in a train of cir-

cumstances that eventually sent to the White House an alumnus of the sister college, Amherst.

Over the curriculum conservatism still held sway. Toward the end of Woods's term, international law, German (in junior year), and some additional rhetoric made minor breaches in the Latin-Greek portion of the fortress, but the mathematics bastion, valiantly defended by "Ferox" Smyth, suffered hardly perceptible damage. This resistance to change was due in part to the tendencies of influential persons, such as Smyth and Cleaveland, on the Faculty, but also to the fact, stated bluntly by L. C. Hatch in his *History of Bowdoin College*, that "the introduction of new subjects might cost money and Bowdoin was poor."

Its financial weakness, acute after the panic of 1837, caused the College embarrassment also in its relations with religious bodies. Although Bowdoin had been established through the efforts of Congregationalists, its charter contains nothing about church affiliation, and both Unitarians and Episcopalians had sat on its Board of Trustees, the majority of whom, like President Woods, were quite free from ecclesiastical narrowness. The temper of the students was pronouncedly liberal. Yet the fear of losing orthodox support and the power of the more conservative Overseers were constant threats hanging over the Trustees' heads and leading again and again to compromise, such as the hedging declaration of 1841 to the effect that Bowdoin was a Congregational college, committed to giving moral and religious instruction in harmony "with its denominational character as herein defined." By such means the College obtained some sizable bequests, concerning the proper use of which, in the later period of prosperity and complete intellectual freedom under Hyde, opinions of the Courts were solicited. Only in 1908, by the surrender of one fund to a residuary legatee, was the last (and purely nominal) sectarian restriction removed.

The twenty years following Woods's retirement in 1866 were the most critical in the history of the College, notwithstanding the fine qualities of the two presidents. Samuel Harris, '33, was the first graduate of Bowdoin to become President. Able and respected, he found the task of administration uncongenial and resigned after only five years (1866-1871). His successor was General Joshua Lawrence Chamberlain, '52, a former member of the Faculty, who had had a distinguished Army career and after the war had served for four terms as Governor of Maine. During these two administrations a needed modernization of the curriculum was partly effected by the introduction of economics and English literature and the

strengthening of history and science; but the establishment in 1871 of a separate department or school of science, with courses in civil and mechanical engineering, was less fortunate; it carried the distinct threat of transforming a liberal arts college into a "people's university." Actually, for ten years, under the excellent Professor Vose, Bowdoin was graduating engineers; but the experiment proved too costly and was abandoned in 1881. Some of the men thus trained were later to occupy important posts; the most famous was Admiral Robert E. Peary, '77, the first to reach the North Pole.

Under the humane and enlightened influence of Leonard Woods, the more exceptionable features of attempted faculty control of undergraduate life were abandoned or modified. The first Bowdoin chapters of intercollegiate fraternities, established early in his administration, supplied a means of channeling off any excessive exuberance of youthful spirits and in time rewove the social fabric of undergraduate life. The students' weekly newspaper, the *Bowdoin Orient*, was first published in 1871. Organized athletics in a mild form had begun a few years before. There was gymnastic instruction in Brunswick (for a year or two in private classes merely), from about 1860 on. From 1870 to 1875, when he took his bachelor's degree, Dudley A. Sargent was Director of the Gymnasium, and worked out the system of exercise which he later employed at Yale and Harvard and which gave him a national reputation. Rowing became popular in the late sixties; and in the early eighties Bowdoin crews competed in regattas as far away as Lake Cayuga; we hear of baseball first in 1860 and of the first intercollegiate game in 1872. The first college track meet was held in 1868, and the first class game of football (English Rugby) was played in the next year. American Rugby came in in 1882; tennis began to be played about the same time.

Neither sports nor presidential edicts, however, availed to put an end to the long-standing custom of hazing, the jovial aspects of which are perpetuated for us in the song "Phi Chi," written by one Edward Page Mitchell, '71, later the distinguished editor of the *New York Sun*. Harris made a determined effort to abolish the practice; under Chamberlain there were continual outbreaks, sometimes involving danger to life and limb. "Town and gown" fracas also were not infrequent. The most serious and widely publicized collision between students and college authorities was the "Drill Rebellion" of 1874. President Chamberlain had instituted required military training two years before. Undergraduate opposition culminated in the refusal of three college classes to attend

drill, whereupon they were suspended *en masse* and threatened with expulsion. Eventually, after negotiations permitting a certain amount of face-saving by the authorities, the students returned to College; drill was resumed on a voluntary basis, and in 1882 was discontinued altogether. The "Rebellion" was an instance of spirited resistance to a requirement which, as administered, was thoroughly objectionable. The action of the students, however injudicious, revealed an independence of mind and a seriousness of purpose which belied the impression frequently given by their rough manners.

But the College was confronted with graver dangers than those arising from a certain uncouthness in undergraduate life. President Chamberlain, for all his great services to College, State, and Nation, was unequal to coping with the difficulties now besetting the institution: inadequate endowment and equipment, a decreasing enrollment, dissension among the Faculty and the Boards. Probably no one else connected with either group could have succeeded in the circumstances. Chamberlain's resignation in 1883 provided an opportunity to secure from outside the College the vigorous leadership imperatively needed.

IV.

The Modern College, 1885-1957

The inauguration in 1885, after a two years' interregnum, of the Reverend William DeWitt Hyde marks the real beginning of another era. Not yet twenty-seven years old and virtually unknown except at Harvard and the Andover Theological Seminary, the new President brought to his task an athletic physique which impressed young men, a remarkable administrative capacity, an acute and sympathetic grasp of modern problems, and above all an energy which swept away accumulated scholastic dust like a fresh breeze from the Atlantic. He exemplified that ideal of "the strenuous life" which in the early days of the new century President Theodore Roosevelt was to hold up to the nation. The College which he took over may be compared to a deeply rooted tree which needed fertilizing and pruning. These life-giving processes Hyde instituted; the present vigorous new growths are due to him or to the successor whose apprenticeship was served under him. By numerous books published during his long term (1885-1917) President Hyde exerted also a nationwide influence toward liberalism in politics, education, and religion.

At the College itself, his first cautious reforms were concerned with the requirements for admission and with the curriculum, which he found too largely a mere continuance of secondary school studies. He persuaded the Boards to adopt (1895) a substitute for the requirement of Greek for admission. Like Eliot of Harvard, whom he greatly admired, he extended the elective system for men in College. He created (1894) a chair of economics and sociology; he brought to the College (1904) instructors in psychology and education; he reintroduced (1901) the teaching of Spanish; he greatly expanded the work in debating; and he established (1912) the departments of art and music. He encouraged the teaching of literature not for philological information or aesthetic delight but for its interpretation of life and its inspiration to action. He advocated full and early participation by college graduates in organized politics and religion. In all his reforms he was guided by that conception of education, embodied in his "Offer of the College," as a many-sided preparation for rich and effective living in the world of the present, proprietorship of the world of the past. Nowhere was his quickening influence more fully experienced than in his own classroom, where year after year he expounded to practically the entire senior class the principles of great thinkers from Plato and Aristotle to Royce and James.

No small part of Hyde's success in the re-orientation of the curriculum and the invigoration of instruction was due to his discernment in the selection of younger men for teaching positions. "Anaemic persons do not get on well at Bowdoin," he once told a candidate, and he gave less weight to formal qualifications such as the possession of degrees than to intellectual breadth, character, and teaching ability. Thus around the nucleus he inherited he built up again a remarkably strong Faculty, remembered today with gratitude by all the older alumni. Only three from a numerous group of long tenure, and perhaps equal distinction, may here be listed—all graduates of the College: the courtly Henry Leland Chapman (1869-1913), in English literature; the stalwart Franklin Clement Robinson (1874-1910), in chemistry; and the scholarly poet Henry Johnson (1877-1918), in modern languages and fine arts. Younger men who taught under Hyde for a brief period before going to larger fields elsewhere included Henry Crosby Emery, '92, in economics, and William MacDonald and Allen Johnson, in history and government.

This betterment of the instruction could not have been accomplished without a very considerable expansion both of the plant

and of the endowment. The President, who had written a book entitled *Practical Idealism*, held office in an era of accumulation of large fortunes; and he succeeded in interesting in the College many affluent men and women. In increasing numbers alumni evidenced their support by sending back sons and subscriptions. The enrollment rose from 119 in 1885 to 400 in 1915; the endowment in the same period, from \$378,273 to \$2,312,868. Erected in the Hyde administration were eight buildings in use today, including Hubbard Hall, the Searles Science Building, and the Walker Art Building. Whittier Field, too, was acquired and developed.

The impact of Hyde's personality upon the social aspects of undergraduate life was no less pronounced. Everywhere in America, student life outside the classroom was becoming richer in opportunities, more urbane in tone, more interesting. Such changes were always sympathetically watched, not seldom prompted, occasionally checked, by the President. In student government, for instance, experiments were made which looked to the Student Council of the present; a literary magazine, the *Quill*, began publication in 1897; a dramatic club was organized in 1903, and in 1912 gave the first of its annual Shakespearean productions; and a young secretary of the Christian Association was brought to the campus. Most spectacular, of course, was the tremendous increase of interest in athletics, indissolubly associated with the name of Dr. Frank N. Whittier, '85. Bowdoin's first game of intercollegiate football was with Tufts in 1889; the first meet of the Maine Intercollegiate Track and Field Association, in 1895; the first golf club, in 1898; the first hockey games, in 1907. Within reasonable limits, President Hyde welcomed all such activities not only as healthful outlets for the abounding energy of youth but as integral parts of the educational process.

The roster of Bowdoin alumni continued to be studded with distinguished names, many of which, being those of persons now active in the affairs of the College, appear on later pages of this catalogue. But President Hyde never overvalued mere prominence; his highest esteem and admiration went often to graduates of no fame or fortune, men whose work was done in the small store or school or office and who walked along quiet streets.

The last public appearance of President Hyde was at the presentation of colors to the student battalion, four weeks after the declaration of war in 1917. "For one hundred and fifteen years," he said on that occasion, "Bowdoin students have enjoyed study and leisure, work and play, under the protection of the nation and the

state. . . . From science and art, from literature and history, from the track and diamond, these young men voluntarily and eagerly, in loyalty and duty are hurrying to the defense and support of their country." Like other colleges in those years, Bowdoin went through the stages, first of improvised military instruction, then of the Reserve Officers' Training Corps, and finally of the Students' Army Training Corps. While, naturally, the numbers shrank, and the attempt to combine academic with military training worked to no one's complete satisfaction, the spirit held up remarkably well, and the response to the country's call of both undergraduates and alumni was all that Bowdoin's President could have desired. At the end of the war the stars on the service flag numbered twelve hundred; the names to be lettered in gold upon the War Memorial, twenty-nine. But Dr. Hyde had died on June 29, 1917, and the leadership of the College in war had devolved upon one who, twenty-five years later, was to be charged again with the same great responsibility.

Kenneth Charles Morton Sills, '01, graduate student and instructor for some years at Harvard and Columbia Universities, Winkley Professor of the Latin Language and Literature since 1907 and Dean of the College since 1910, served for one year as Acting President, and in 1918 was made President. In full sympathy with Hyde's larger aims and with equal devotion to the ideal of the liberal arts college, President Sills carried forward the program which his predecessor initiated, though with certain emphases of his own tempering extreme applications of the Eliot-Hyde educational philosophy. Among the advances made during the Sills administration were: the enlargement of the Faculty from thirty-one to eighty-five members, making possible smaller classes and more frequent conferences; the inauguration (1919) of the system of comprehensive examinations in the major field of study; the foundation (1928) of the Tallman visiting professorship; the conduct (beginning 1923) of Institutes in various branches of learning; the establishment (1935) of Kent Island Scientific Station; the increase of endowment funds from \$2,473,451 to \$12,312,274; the erection of several needed buildings, notably the Moulton Union, Moore Hall, Sills Hall and the Smith Auditorium, Parker Cleaveland Hall, and the development of the Pickard playing field; the bringing of intercollegiate athletics under institutional control (1935) and the recognition as varsity sports of swimming (1929) and basketball (1942); the more effective organization of the alumni through a central office, a Council, an alumni magazine, and a placement bu-

reau. And even in this brief summary there must be grateful mention of that lively and very efficient company, first assembled in 1922 by Mrs. William J. Curtis and Mrs. George C. Riggs (Kate Douglas Wiggin), the Society of Bowdoin Women. Similar in its aim to knit more closely to the College a group with personal though not official connections, the Bowdoin Fathers Association was founded in 1945. Relations between townspeople and college people have grown steadily more cordial; to many a graduate, some of the pleasantest memories of student days are associated with the interesting, varied life of this Maine community.

The College itself, though serving now a wider constituency, has never ceased to be in a very real sense a Maine institution. Until well into the present century, Maine residents constituted nine-tenths of the undergraduate body, and not more than thirty years ago were still a majority. Of late, the proportion has tended to become stabilized at about one-third. Out of a normal prewar enrollment of approximately 600, more than 100 came usually from outside New England; since the war the percentage is larger. The presence in considerable numbers of young men from New York, Pennsylvania, and more distant states is a valuable corrective of provincialism in any community situated north of Boston. Yet in academic and other distinctions the Maine contingent clearly holds its own. Future Rhodes Scholars have entered Bowdoin from Portland, Bangor, Brunswick, Skowhegan, Cumberland Mills, and the small fishing village of Machiasport.

V.

The Present Situation

A full account of the part of the College in World War II has not been compiled, but its more tangible contributions to the war effort and the more obvious ways in which its operation was affected may be briefly reviewed. A pilot training course, including both ground school and flight, was inaugurated in the spring of 1940 and carried on until June, 1942, when the Navy took over the Brunswick airport. In these two years pilot training was given to about one hundred students, a large number of whom served later in the air forces. From June, 1941 (six months before Pearl Harbor), until October, 1945, the College provided classrooms and laboratories for a pre-radar school for Navy officers, under Commander Noel C. Little, U. S. N. R., on leave of absence from the Faculty. About

16 *Bowdoin College, 1794-1957: an Historical Sketch*

2,500 officers completed the four months' course. In February, 1943, a Basic Pre-Meteorological Unit of the Army Air Forces was organized, and until May, 1944, administered by the College; and for several months within the same period an Army Specialized Training Unit also was receiving instruction. Altogether, when at peak strength, the military, naval, and civilian student personnel made up a body of over 850 young men and for a while severely taxed the physical resources of the College.

In 1942 the College instituted for its own students an accelerated program, with summer session, which was maintained until 1948. It suspended the system of comprehensive examinations and made certain curricular adjustments to the changed conditions. Extra-curricular activities on a limited scale continued throughout the war. To ensure the survival of the existing chapters, fraternity property was leased by the College "for the duration," and membership in fraternities was regulated by a quota system. About one-fourth of the Faculty, at one time or another, were away on military or governmental service, and many of those who remained at the College found themselves teaching unaccustomed subjects. Entering students eligible for induction were lucky if they were able to stay through as many as three trimesters.

The completion or cancellation of the Army programs in 1944 and the decreasing civilian enrollment created the new and scarcely less embarrassing problem of reduced numbers, the undergraduate registration falling in 1945 to slightly more than 150. Of course, with the collapse of Japan in August of that year this situation changed, if not overnight, at least within a very few weeks. Augmented by a stream of returning service men, the enrollment in the spring of 1946 rose to 547 and in the next year reached a maximum of 1,083. The abnormally large registration, though attended by some inconveniences, was accepted cheerfully by the College, which recognized therein an obligation plainly in line of duty. It is part of that debt to "the gallant unreturning," as they were called by a Bowdoin poet in 1917 (himself destined to be counted among them), which can be paid only vicariously. Of 3,086 Bowdoin men who served in the armed forces in the Second World War, the unreturning numbered ninety-four.

While academic conditions were growing more stable, by 1950 the international outlook had become again so disquieting that the College accepted an offer of the United States Army to introduce at Bowdoin a Reserve Officers' Training Corps program. The new national emergency also induced the College to reinstitute a summer session in 1951.

A collection of rare books, fine editions, and valuable manuscripts is exhibited → in the Rare Book Room in the Library. An excellent example of Italian Renaissance art, the Room was the gift of an anonymous donor, and is seen by hundreds of visitors each year.

On June 24, 1944, though the war was then in a critical stage, the College observed with simple but impressive exercises the one hundred and fiftieth anniversary of the granting of its charter. It had been intended to mark the occasion by the completion of a fund-raising campaign to supply pressing needs in endowment, buildings, and equipment, but the war forced the postponement of all such projects. Early in 1948, preliminary surveys having been completed, the campaign was inaugurated under a special fund-raising organization. Largely from sources close to the College—Governing Boards, Faculty, undergraduates, alumni, and friends—approximately \$4,040,000 has been collected or pledged towards an ultimate goal of something over six million dollars.

The College passed another historic milestone in September, 1952, on the one hundred and fiftieth anniversary of its actual opening with the successful completion of the first phase of the fund-raising campaign, and the election of the successor to President Sills, who retired on the first of October after an administration of thirty-four years. The nomination of James Stacy Coles, a graduate of Columbia College and University, Associate Professor of Chemistry and Acting Dean of the College in Brown University, was unanimously approved by the Governing Boards at a special meeting on April 5, 1952. Ninth in the notable succession which began with the Reverend Joseph McKeen in 1802, President Coles brings to his high office the vigor of youth, scholarly distinction in his own field, important administrative experience, and a stout faith in the value of a liberal education. In the opinion of the guardians of the College, nothing less than these qualities is compatible with the proud traditions of Bowdoin and the urgent and complex demands of this present age.

← Above: *The Walker Art Building is open to the community as well as the College, and for more than fifty years has occupied a central place on the campus. Its permanent collections and temporary exhibitions are enjoyed annually by hundreds of public school students and their teachers.*

Below: *The magnificent Assyrian reliefs in Sculpture Hall were presented to the College by Henri Haskell, of the Medical Class of 1855.*

Bowdoin: A Liberal College

FROM an outdoor platform built in a cleared space among the College pines, President Joseph McKeen, one hundred and fifty-five years ago, delivered the chief address at the opening of Bowdoin College. Seeking an object for the new institution of which he was the first head, he found an answer in the desire of "the inhabitants of the District" to have their sons educated for "the liberal professions" and instructed "in the principles and practices of our holy religion. . . . It ought always to be remembered," he went on, "that literary institutions are founded and endowed for the common good, and not for the private advantage of those who resort to them. It is not that they may be able to pass through life in an easy or reputable manner, but that their mental powers may be cultivated and improved for the benefit of society." The insight and the breadth of this program were creditable for that day. But no one attending the ceremonies of 1802 could have foreseen that over a century later the College, once founded in a frontier community, would draw the greater share of its students from states other than the "District" and, while still preparing many for law, medicine, teaching, and theology, would be educating an equal or greater number who looked forward to government service or a business career.

Since economic and political changes have brought new occupations and callings to pivotal importance in the modern world, the task of the College has necessarily grown more complicated and diverse. As in President McKeen's time many of its courses, for instance, languages and sciences, give knowledge or skill useful in the practice of various professions and employments. But such training is merely incidental to a larger objective. Whether through its catholic subject matter—sciences, social studies, literature, philosophy, and the arts; whether through its required or elective courses; whether through its major work, with its insistence upon a more intensive study of some selected subject; the College aims always to give its students a knowledge of the culture of the western world. They must understand and appreciate its origins and traditions, the forces essential for its operation and progress, and the values which it seeks to realize. While an individual may remain ignorant of this heritage and still exist, "the common good" and "the benefit of society," which President McKeen asserted as the objectives of the College, are unattainable unless leaders and followers are alike

acquainted with what civilization, in its broadest sense, implies.

The College still insists that the cultivation and improvement of its students' "mental powers" is its primary function. Perhaps in President McKeen's time, when community life was more homogeneous and simple, no other emphasis was required. But today the College cannot avoid a concern with the character as well as the mind of its undergraduates. On this point the whole of the College environment is an educator. The fraternity houses and dormitories, athletic and non-athletic activities, the constant association of students in a close-knit rather than a dispersed college community—all play their part. Such influences, however, can be duplicated outside college walls. The distinctive discipline of the College is that of the laboratory, the library, and the classroom. These are its unique possessions. Through the opportunities they offer comes the achievement of intellectual poise, disinterested opinion, and patient courage to pursue remote ends by choice rather than compulsion. These college-bred habits of mind are moral as well as intellectual qualities.

While the College seeks to develop the individual talent of its students, it rightly insists they must not limit their interests; they must at least sample the variety of opportunities the modern curriculum affords. The dreamer must encounter the stubbornness of facts and the practical man must realize that men are moved by visions; the aesthete must appreciate the hard precision of scientific measurement and the materialist glimpse the insight and delight offered by the fine arts. Each present-minded generation has to learn anew that the experience of the past is in part a substitute for unnecessary and painful experiment and that a narrow focus upon vocational training breeds a dangerous irresponsibility. The liberal college must train whole men. To do otherwise would be to deprive its graduates of satisfactions and the community of profit.

No college can withdraw entirely from the world. Certainly Bowdoin has taken color from its traditional contacts with a vigorous environment and a self-reliant people. These associations, instead of impeding, have helped the College toward its goal. Fortunately, however, it is an independent college, supported in large measure by endowments and the generous annual gifts of its alumni; it is not bound, therefore, to any denominational creed, party platform, or government program. With more strength and freedom than in President McKeen's administration, it still seeks to bring its students to a maturity of mind and character that through them it may serve "the common good."

From the College Charter (1794)

"... And be it further enacted ... that the clear Rents, Issues, and Profits of all the Estate real and personal of which the said Corporation shall be Seized or Possessed, shall be Appropriated to the Endowment of said College in such a Manner as shall most Effectually Promote Virtue and Piety and the Knowledge of such of the Languages and of the Useful and Liberal Arts and Sciences as shall hereafter be Directed from Time to Time by the said Corporation. . . ."

The Offer of the College

To be at home in all lands and all ages; to count Nature a familiar acquaintance, and Art an intimate friend; to gain a standard for the appreciation of other men's work and the criticism of your own; to carry the keys of the world's library in your pocket, and feel its resources behind you in whatever task you undertake; to make hosts of friends among the men of your own age who are to be leaders in all walks of life; to lose yourself in generous enthusiasms and coöperate with others for common ends; to learn manners from students who are gentlemen, and form character under professors who are Christians, —this is the offer of the college for the best four years of your life.

COMMITTEES OF THE BOARDS

JOINT STANDING COMMITTEES

Executive: The President; Messrs. Berry, J. F. Dana, Baxter, C. F. Robinson, Allen, and Thomas.

Visiting: Messrs. Cary, Berry, Baxter, Pike, Shute, and Sawyer.

Examining: Messrs. Copeland, Burpee, Halford, Frost, Walker, Bartlett, Stetson, and Humphrey.

Finance: Messrs. Thompson, Ireland, Pierce, Abbott, Foulke, and Cousins.

Honorary Degrees: The President of the Board of Overseers, *ex officio*; Messrs. Copeland, Thompson, Cary, Pike, Hildreth, and Rounds.

Educational Policy: Messrs. Copeland, J. F. Dana, Baxter, Hale, Burton, Bartlett, Hildreth, and Dole.

Development: Messrs. Thompson, Cary, Hupper, Philoon, Brewster, Cousins, Gray, and McCarthy.

SPECIAL COMMITTEES

Art Interests: Messrs. Halford, Emerson, Frost, Burton, Hupper, MacDonald, Evans, and the Director of the Museum of Fine Arts.

Grounds and Buildings: The Treasurer; Messrs. Brewster, Putnam, Pickard, Garland, Evans, and Gray; the Bursar, and Professor Little and Mr. Walsh from the Faculty.

Infirmity: The President; Doctors C. M. Robinson, Woodcock, Stetson, and Mr. Pickard; the College Physician and Professor Kamerling from the Faculty.

Library: Messrs. Copeland, Clifford, Hupper, Walker, MacDonald, Shute, Woodbury, and the Librarian.

Physical Education: Messrs. Ireland, L. Dana, Niven, Woodcock, Sawyer, Woodbury, Elliott; the Dean, and Professors Abrahamson and Dane from the Faculty.

John Johnston Fund: Messrs. Ireland, Rounds, and the Director of Admissions.

Centralized Dining Service: Messrs. Berry, Halford, Abbott, L. Dana, Farrington, C. M. Robinson, Drake, and McCarthy.

Planning of Buildings: The President; Messrs. Berry, J. F. Dana, Pierce, Allen, Thomas, Garland; Professors Little and Beam from the Faculty.

Arctic Museum: Messrs. Cary, Crowley, Elliott; Professors Little and Gross (Emeritus) from the Faculty.

Sills Memorial Volume: Messrs. Lawrence, Berry, Clifford, C. F. Robinson; Professor Abrahamson from the Faculty.

Infirmery Alterations: Mr. Baxter; Doctors C. M. Robinson and Stetson; the College Physician, and the Superintendent of Grounds and Buildings.

Retirement Benefits: Messrs. Ireland, Pierce, Foulke, Dole, and Humphrey.

Dormitory Building: Messrs. Berry, Pierce, Putnam, Thomas (Chairman), and Pickard; the Superintendent of Grounds and Buildings; Messrs. Lancaster and Ladd from the Faculty.

Officers of Instruction and Government

JAMES STACY COLES, B.S. (*Mansfield*), A.B., A.M., Ph.D. (*Columbia*),
LL.D. (*Brown, Maine*), *President of the College*. 85 Federal Street

NATHANIEL COOPER KENDRICK, A.B. (*Rochester*), A.M., Ph.D. (*Har-*
vard), *Dean of the College, and Professor of History*. 155 Maine Street

WILMOT BROOKINGS MITCHELL, A.B., A.M., L.H.D. (*Bowdoin*),
Litt.D. (*Grinnell, Maine*), *Edward Little Professor of Rhetoric and*
Oratory, Emeritus. 6 College Street

MANTON COPELAND, B.S., M.S., Ph.D. (*Harvard*), *Professor of Biology,*
Emeritus, and Josiah Little Professor of Natural Science, Emeritus.
88 Federal Street

WARREN BENJAMIN CATLIN, A.B. (*Nebraska*), Ph.D. (*Columbia*),
Daniel B. Fayerweather Professor of Economics and Sociology, Emeritus.

COMMITTEES OF THE FACULTY

Administrative: The President, *Chairman*; the Dean (*ex-officio*), the College Physician, and Messrs. Dane, Greason, Morrell, Munn, Whiteside, and Wilder.

Athletics: The Director of Athletics, *Chairman*; the Dean, the College Physician, and Messrs. Abrahamson, Dane, Leahey, Quinby, and Shaw.

Blanket Tax: Mr. P. M. Brown, *Chairman*; Messrs. Batchelder, Corey, Darling, LaCasce, Root, Sabasteanski, van Nort; the President of the Student Council and two other members of the Council.

College Lectures: Mr. Taylor, *Chairman*; Mr. Beam, *Vice-Chairman*; Messrs. Christie, Darling, Huntington, Little, and Wilder.

College Publications: Mr. H. R. Brown, *Chairman*; Messrs. Beam, Bearce, Boyer, Carre, Cox, LaCasce, McCuller, Norton, Pontecorvo, and Riley.

Commencement Parts: Mr. Benjamin, *Chairman*; Messrs. Chittim, Geoghegan, Herbert, and Thayer.

Curriculum and Educational Policy: The President, *Chairman*; the Dean, Mr. Daggett, *Vice-Chairman*; Messrs. H. R. Brown, Dane, Darbelnet, Gustafson, Jeppesen, Munn, Pols, Root, and Storer.

Faculty Research Fund: The President, *Chairman*; Messrs. Bodine, Darbelnet, Hiebert, Riley, and Vose.

Graduate Scholarships: The President, *Chairman*; the Dean, and Messrs. Benjamin, Christie, Hammond, Riley, Vose, and Wilder.

Library: Mr. Daggett, *Chairman*; the Librarian, Mr. Helmreich, *Vice-Chairman*; Messrs. Geoghegan, Hall, Leith, Root, and Vose.

Military Affairs: Mr. Wilder, *Chairman*; the Dean, the Professor of Military Science and Tactics, and Messrs. Hall, Herbert, and Leith.

Moulton Union: Mr. Lancaster, *Chairman*; Messrs. Carre, Corey, Hoff, Ladd, Tillotson, and van Nort.

Music: Mr. Tillotson, *Chairman*; Messrs. Amann, Beckwith, Chittim, Frey, and McKenna.

Preparatory Schools and Admissions: The Director of Admissions, *Chairman*; the President, the Dean, and Messrs. Dane, Hazelton, Moulton, Quinby, and Whiteside.

Public Exercises: Mr. Wilder, *Chairman*; Messrs. Batchelder, Darling, Geoghegan, Herbert, Ivy, Little, and Storer.

Recording: The Dean, *Chairman*; the President, and Messrs. Abrahamson, Carre, Greason, Hammond, Helmreich, Moulton, Russell, and Shaw.

Religious Activities: Mr. Helmreich, *Chairman*; Messrs. Geoghegan, Greason, Lancaster, and Leith.

Rhodes Scholarships: Mr. Chittim, *Chairman*; Messrs. Benjamin, Carre, Coombs, Cox, and Schmalz.

Schedule and Classrooms: Mr. Chittim, *Chairman*; Messrs. P. M. Brown, Colie, Hiebert, Ivy, Johns, Moskowitz, Pontecorvo, Riley, Shipman, Solmitz, and Walker.

Student Aid: The President, *Chairman*; Mr. Wilder, *Secretary*; the Dean, and Messrs. Abrahamson, Bearce, Beckwith, Bodine, Darling, Hiebert, Kamerling, Riley, Russell, Schmalz, Shaw, Taylor, Thayer, and Whiteside.

Tallman Professorship: The President, *Chairman*; Messrs. Bearce, Coxe, Gustafson, Little, and Root.

Prizes and Awards: Mr. Koelln, *Chairman*; Messrs. Beckwith, Hazelton, Herbert, Minot, and Walsh.

Student Life: Mr. Gustafson, *Chairman*; Messrs. Dane, Greason, Hanley, Lancaster, Storer, van Nort, and Whiteside.

BOWDOIN COLLEGE
BRUNSWICK - MAINE
1794 - 1958

College Campus and Buildings

BOWDOIN College is located in the town of Brunswick, Maine, which was first settled in 1628 on the banks of the Androscoggin River, a few miles from the shores of Casco Bay. The travelling time by rail from Boston is three hours, and from New York eight hours. The present campus, which was originally a sandy plain covered with blueberries and pines, is now a spacious tract of one hundred and ten acres containing more than a score of buildings and several playing fields.

By an extensive construction project completed in 1948, a new street has been laid out forming the eastern boundary of the campus (shown on the accompanying map as Sills Drive), and the old playing ground known as "The Delta," previously cut off by Harpswell Street, has been incorporated in the campus proper. Thus an area of several acres has been made available for new buildings, including Sills Hall and the Smith Auditorium completed in 1950, and Parker Cleaveland Hall of Chemistry which was completed in the Spring of 1952.

Of first interest to the incoming freshman is Massachusetts Hall. Here are housed the offices of the President, the Dean, the Director of Admissions, and the Bursar. Here the new student will register for his courses, pay his college bills, sign his name in the century-old register book, and receive the welcome of the President. It is in this building that he will always find the administrative officers ready to answer his questions and to give him friendly counsel about the many problems of college life.

The Chapel, whose spires have come to be a symbol of Alma Mater to thousands of Bowdoin men, is the scene of vesper services on Sundays at 5 o'clock. Each weekday at 10:10 A.M. simple, brief devotional exercises are led by members of the Faculty. For one hundred and fifty-five years, attendance at daily chapel has been a tradition of Bowdoin life, a tradition which has given the sons of the College many of their most cherished memories.

The work of the College has its heart and center in Hubbard Hall, the library building, which contains the accumulations of a century and a half. The nucleus of its 246,000 volumes is the treasured collection of books and pamphlets bequeathed by the Honorable James Bowdoin, the earliest patron of the College. These "Bowdoin Books," rich in French literature, American history, and

mineralogy, were supplemented by the same generous benefactor's gift of his art collection containing many paintings of old and modern masters. Among the paintings are the portraits of Thomas Jefferson and James Madison by Gilbert Stuart, and a notable collection of portraits by the distinguished colonial artist, Robert Feke. These and other treasures are exhibited in the Walker Art Building designed by McKim, Mead, and White. The resources of the Library and Museum are described in more detail elsewhere in this catalogue.

College classes are held in Memorial Hall, Banister Hall, Adams Hall, Hubbard Hall, the Searles Science Building, Sills Hall, Smith Auditorium, and Cleaveland and Gibson Halls, and the Walker Art Building. The first of these, which was built in 1868 in honor of the students and graduates who served in the Civil War, contains the Pickard Theater. In the lobby of this hall are bronze tablets bearing the names of two hundred and ninety Bowdoin men who were in the Union service in 1861-1865.

The Searles Science Building, which stands on the western side of the quadrangle, contains laboratories, museums, recitation rooms, and lecture halls. The Department of Physics occupies mainly the first floor and the southern half of the second floor; the Department of Biology occupies the northern half of the second floor and the entire third floor. Special laboratories and museums of both departments are located in the basement. Astronomical equipment and observing facilities are situated on the fourth floor and roof. The College maintains a scientific station for special laboratory and field investigations on Kent Island, at the entrance to the Bay of Fundy. This island was presented to the College in 1935 by John Sterling Rockefeller. Parker Cleaveland Hall houses the Department of Chemistry.

When students are not engaged in the library, laboratories, and recitation rooms, they have at their disposal many admirably equipped facilities for recreation. These resources include the Moulton Union, the Sargent Gymnasium, the Hyde Athletic Building, the Curtis Pool, and the playing fields of the College. Special provision for intramural sports and informal games was made in 1926 by the gift of a tract of sixty-six acres by Frederick William Pickard, LL.D. (1871-1952), of the Class of 1894. Pickard Field contains facilities for tennis, baseball, soccer, football, and other sports. The Pickard Field House, a gift from Mr. and Mrs. Pickard, stands at the entrance to the field. The Hockey Arena, dedicated in the autumn of 1956, provides artificial ice for recreational skating as

well as intercollegiate contests. Another valuable adjunct for the health of the student body is the Dudley Coe Memorial Infirmary; its facilities and the services of the College Physician are available to the students without charge.

THE COLLEGE BUILDINGS

MASSACHUSETTS HALL, planned in 1798 and completed in 1802, was the first college building erected. The interior was redesigned in 1873 to house the Cleaveland Cabinet of Mineralogy, named in honor of Professor Parker Cleaveland. In 1936 the entire building was remodeled to provide quarters for the administrative officers; in 1942, through a gift of Frank Herbert Swan, LL.D., of the Class of 1898, the third floor was restored and furnished as a Faculty Room.

MAINE HALL (1808), known originally as "the College," and named later to commemorate the admission of Maine to the Union; WINTHROP HALL (1822), named in honor of Governor John Winthrop of the Massachusetts Bay Colony; APPLETON HALL (1843), named in honor of the second President of the College; HYDE HALL (1917), named in honor of the seventh President of the College, and built from contributions from many of the Alumni; and MOORE HALL (1941), named in honor of his father by the donor, Hoyt Augustus Moore, LL.D., of the Class of 1895, are the five campus dormitories.

THE CHAPEL, a Romanesque church of undressed granite, designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. The façade is distinguished by twin towers and spires which rise to the height of one hundred and twenty feet. The interior resembles the plan of English college chapels, with a broad central aisle from either side of which rise the ranges of seats. The lofty walls are decorated with twelve large paintings. The Chapel stands as a monument to President Leonard Woods, fourth President of the College, under whose personal direction it was erected. A bronze plaque bearing a bas-relief of Elijah Kellogg, of the Class of 1840, is placed in a recess to the right of the main doorway. A set of eleven chimes, the gift of William Martin Payson, of the Class of 1874, was installed in the southwest tower in 1924. In the Chapel is an organ given in 1927 by Cyrus H. K. Curtis, LL.D. That portion of the chapel building which formerly housed the reading rooms and stack space

of the college library was named BANISTER HALL in 1850 in recognition of the gifts of the Honorable William Banister. It now contains the offices of the Director of the Placement Bureau, the Director of Student Counseling, and the lecture room and laboratory of the Department of Psychology.

SETH ADAMS HALL was erected in 1860-1861. It was named in honor of Seth Adams, Esq., of Boston, who contributed liberally towards its construction. The building stands west of the Presidents' Gateway. From 1862 until 1921, it housed the classrooms of the Medical School of Maine. The structure is now used for lectures, recitations, and conferences.

MEMORIAL HALL, built in 1868, is a structure of local granite in the Gothic style. It is a memorial to the graduates and students of the College who served in the Civil War whose names and ranks are inscribed on bronze plaques in the lobby. A stained-glass window in the south wall is a memorial to Theodore Herman Jewett, M.D., of the Class of 1834, father of Sarah Orne Jewett, Litt.D. The lower story contains class and conference rooms. The entire structure of the interior was rebuilt in 1954-1955 to house the Pickard Theater, one of the many gifts of Frederick William Pickard, LL.D., of the Class of 1894.

THE OBSERVATORY was erected in 1890-1891 with funds given by John Taylor, Esq., of Fairbury, Illinois. It stands on the southeast corner of Pickard Field, and is reached from the Harpswell Road.

THE WALKER ART BUILDING, designed by McKim, Mead, and White, was erected in 1892-1894. It was given to the College by the Misses Harriet and Sophia Walker, of Waltham, Massachusetts, as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods. A bronze bulletin board in memory of Henry Edwin Andrews, A.M., of the Class of 1894, Director of the Museum, 1920-1939, stands to the left of the entrance to the Sophia Walker Gallery. The building, which is one hundred feet in length and seventy-three feet in depth, is surrounded on three sides by a paved terrace with supporting walls and parapets of granite. Granite and bronze sculptures adorn the front wall.

THE MARY FRANCES SEARLES SCIENCE BUILDING, designed by Henry Vaughan, was built in 1894 and completely renovated and modernized in 1952. It was the gift of Edward F. Searles, Esq., in memory of his wife. With the Walker Art Building and Gibson

Hall, it forms the western side of the quadrangle. The building contains lecture rooms, laboratories, museums, and libraries of the Departments of Biology and Physics. In its basement a museum is being organized with valuable gifts from the family of Rear Admiral Robert E. Peary, of the Class of 1877, Rear Admiral Donald B. MacMillan, of the Class of 1898, and other friends of the College.

HUBBARD HALL, the library building, was also designed by Henry Vaughan, and erected in 1902-1903. It was presented to the College by General Thomas H. Hubbard, LL.D., of the Class of 1857, and his wife, Sibyl Fahnestock Hubbard. The building, of brick and Indiana limestone, is one hundred and seventy feet in length and fifty feet in depth; the stack room occupies a wing eighty feet by forty-six feet. The Library forms the southern end of the quadrangle.

THE HUBBARD GRANDSTAND was given to the College in 1904 by General Thomas H. Hubbard, of the Class of 1857. It is situated on WHITTIER FIELD, a tract of five acres, named in honor of Frank Nathaniel Whittier, M.D., of the Class of 1885, for many years the Director of the Gymnasium, who was largely instrumental in its acquisition for varsity football and track in 1896. An electrically operated score-board, the gift of Harvey Dow Gibson, LL.D., of the Class of 1902, and Adriel Ulmer Bird, A.M., of the Class of 1916, was erected in 1948.

SARGENT GYMNASIUM AND GENERAL THOMAS WORCESTER HYDE ATHLETIC BUILDING were erected in 1912. The Gymnasium was built from contributions from many of the students and alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the Athletic Building was given by John Hyde, Esq., of Bath, in memory of his father, Thomas Worcester Hyde, A.M., of the Class of 1861, whose name it bears.

THE DUDLEY COE MEMORIAL INFIRMARY is a three-story brick building erected in 1916-1917. It was given by Thomas Upham Coe, M.D., of the Class of 1857, in memory of his son, and stands in the pines to the south of the Hyde Athletic Building.

THE CURTIS SWIMMING POOL was given to the College in 1927 by Cyrus H. K. Curtis, LL.D. The Pool is housed in a separate wing attached to the Gymnasium; the Pool itself is of standard size, thirty by seventy-five feet, and is provided with every modern device for ensuring sanitation.

THE MOULTON UNION, designed by McKim, Mead, and White, was built in 1927-1928. It was given by Augustus Freedom Moulton, LL.D., of the Class of 1873, as a social center for the student life of the College. The Union contains a spacious lounge, game room, cafeteria, soda fountain, and dining rooms. Its facilities also include several comfortable guest rooms, and quarters for many of the undergraduate extracurricular activities. The Union stands just outside the quadrangle, between Appleton and Hyde Halls.

THE PICKARD FIELD HOUSE stands at the entrance of Pickard Field. It was given in 1937 by Frederick William Pickard, LL.D., of the Class of 1894, and Mrs. Pickard. The building contains a pleasant lounge as well as lockers and showers. PICKARD FIELD, a tract of sixty-six acres, was presented to the College by Mr. Pickard in 1926. In 1952 nine acres were added to the Field by purchase, making a total area of seventy-five acres, thirty of which are fully developed playing fields. The Field contains the varsity and freshman baseball diamonds, several spacious playing fields for football and soccer, and ten tennis courts.

RHODES HALL, formerly the Bath Street Grammar School, was purchased from the Town of Brunswick by the College in 1946 to provide additional facilities for instruction and administration. The building was named to commemorate the fact that three pupils of the School later achieved distinction as Rhodes Scholars at Oxford University. Here are the offices of the Superintendent of Grounds and Buildings, and the headquarters of the R.O.T.C.

SILLS HALL AND THE SMITH AUDITORIUM, designed by McKim, Mead, and White, were completed in the autumn of 1950. The main structure was made possible by the first appropriations from the Sesquicentennial Fund, and was named after the eighth President of the College, Kenneth Charles Morton Sills (1879-1954), of the Class of 1901; the wing, containing an auditorium seating two hundred and ten people, was built by appropriation of the Francis, George, David, and Benjamin Smith Fund, bequeathed by Dudley F. Wolfe, of Rockland.

PARKER CLEVELAND HALL, designed by McKim, Mead, and White, was dedicated on June 6, 1952. The building was made possible by donors to the Sesquicentennial Fund. It houses the Departments of Chemistry and Geology, and bears the name of Parker Cleveland (1780-1858), who taught mineralogy at Bowdoin from

1828 to 1858, and was a pioneer in geological studies. Among its facilities are the following specially named rooms:

THE KRESGE LABORATORY OF PHYSICAL CHEMISTRY is located at the northwest corner of the second floor. This laboratory with its equipment was made possible by a generous grant from the Kresge Foundation of Detroit, Michigan, founded by Mr. Sebastian S. Kresge.

THE WENTWORTH LABORATORY OF ANALYTICAL CHEMISTRY is located on the second floor and the north side. It was given, with its equipment, by Walter Vinton Wentworth, Sc.D., of the Class of 1886, and his wife, Etta B. Wentworth.

THE 1927 ROOM, one of the private laboratories, is located immediately adjacent to the private office of President Coles on the second floor. With its equipment, it was a gift to the College by the Class of 1927 on the occasion of their twenty-fifth reunion.

THE ADAMS LECTURE ROOM, the largest lecture room in Cleaveland Hall, is directly opposite the main entrance foyer. It is two stories in height and has a seating capacity of one hundred and sixty. It was made possible by the bequest of Charles Everett Adams, M.D., of the Class of 1884, and is dedicated to his memory.

THE BURNETT ROOM, the Seminar room on the ground floor of Cleaveland Hall, was given, with its equipment, by Elizabeth C. Morrow in memory of the life-long friendship between her late husband, Dwight Whitney Morrow (LL.D., 1931), and Charles Theodore Burnett, Ph.D., L.H.D., a member of the Bowdoin Faculty from 1904 to 1946.

THE DANA LABORATORY OF ORGANIC CHEMISTRY is located on the main floor on the north side of Cleaveland Hall. With its equipment, it was a gift to the College by members of the Dana family in memory of Woodbury Kidder Dana and Mary Little Hale Pickard Dana.

SILLS HALL, THE SMITH AUDITORIUM, AND PARKER CLEAVELAND HALL are mainly of brick and designed in a simple modern classical architectural style. Together they bound respectively the north and east sides of a quadrangle on the eastern boundary of the campus.

THE HARVEY DOW GIBSON HALL OF MUSIC, named for Harvey Dow Gibson, LL.D., of the Class of 1902, was dedicated in June 1954. Its construction was made possible by funds donated by Mrs. Harvey Dow Gibson, by Mrs. Gibson's daughter, Mrs. Whitney Bourne Choate, by the Manufacturers Trust Company of New York, and by several friends of Mr. Gibson. Designed by McKim, Mead, and White, the building contains soundproof class, rehearsal, and practice rooms, a recording room, several rooms for listening to records, offices, and the music library. The common room is richly panelled in carved walnut from the music salon designed in 1724 by Jean Lassurance (1695-1755), for the Hôtel de Sens in Paris.

THE PICKARD THEATER IN MEMORIAL HALL, a gift of Frederick William Pickard, LL.D., of the Class of 1894, was dedicated in June, 1955. The theater, with comfortable seats for over six hundred, contains a stage fifty-five feet wide and thirty feet deep; the space from the stage floor to the gridiron is forty-eight feet. The floor of the auditorium slopes to an orchestra pit, and under it are lounge and coat rooms. Over the auditorium is shop space for the construction and storage of scenery and stage properties.

THE GETCHELL HOUSE, located at 5 Bath Street, is diagonally opposite Adams Hall. A three-story frame building, it was given to the College in 1955 by Miss Gertrude Getchell, of Brunswick, and completely refurbished in 1956. It houses the offices of the Vice-President and the Alumni Secretary, and includes a lounge for use by the alumni.

THE HOCKEY ARENA was built in 1956 with contributions from alumni, students, and friends of the College. It contains seats for twenty-five hundred spectators and a regulation ice-hockey rink with a refrigerated surface two hundred feet long and eighty-five feet wide, as well as shower-bath and locker rooms, and a snack bar. The building is located to the east of the Hyde Athletic Building; the entrance faces College Street. The arena serves primarily the College's physical education activities, especially intramural and intercollegiate contests, and recreational skating for undergraduates.

OTHER MEMORIALS

THE THORNDIKE OAK, standing near the center of the campus, is dedicated to the memory of George Thorndike, of the Class of 1806, who planted the tree in 1802 after the first chapel exercises.

THE CLASS OF 1869 TREE, a large white elm dedicated to the memory of the members of the Class of 1869, stands to the west of Winthrop Hall.

THE CLASS OF 1875 GATEWAY, designed by McKim, Mead, and White, was erected in 1901 as a memorial to members of the Class of 1875. The Gateway is composed of white granite columns and pillars and forms the Maine Street entrance of the Class of 1895 Path.

THE CLASS OF 1878 GATEWAY, erected in 1903, is a memorial to members of the Class of 1878. It is one of the northern entrances to the campus and stands on Bath Street between Memorial Hall and the First Parish Church.

THE CLASS OF 1889 TREE, a red oak planted on Arbor Day in 1889, is dedicated to members of the Class of 1889; it stands to the west of Massachusetts Hall.

THE WARREN EASTMAN ROBINSON GATEWAY, erected in 1920 at the southwestern entrance to the campus, is a memorial to Lieutenant Warren Eastman Robinson, of the Class of 1910, who lost his life in the service of his country.

THE FRANKLIN CLEMENT ROBINSON GATEWAY, erected in 1923, is a memorial to Franklin Clement Robinson, LL.D., of the Class of 1873, for thirty-six years a teacher in Bowdoin College, and to his wife Ella Maria Tucker Robinson. The Gateway forms the northwestern entrance to the campus.

THE CLASS OF 1898 BULLETIN BOARD, erected in 1924, is a memorial to the members of the Class of 1898. It is made of bronze, is double-faced and illuminated. It stands just north of the entrance to the Chapel.

THE CLASS OF 1903 GATEWAY, erected in 1928, is a memorial to the members of the Class of 1903. It forms the main entrance to the Whittier Athletic Field and stands at the southwestern corner.

THE MEMORIAL FLAG POLE, designed by McKim, Mead, and White, was erected in 1930 with funds given by the alumni in memory of the twenty-nine Bowdoin men who lost their lives in World War I. The Honor Roll is engraved on the mammoth granite base surmounted by ornamental bronze. The flag pole stands in the southwestern corner of the campus between the Library and the Art Building.

THE PRESIDENTS' GATEWAY, erected in 1932, is a gift of the Class of 1907 in memory of William DeWitt Hyde, D.D., LL.D., President of the College from 1885 to 1917, and "as a mark of the enduring regard of all Bowdoin men for the leadership of their Presidents." The Gateway forms one of the northern entrances to the campus from Bath Street.

THE BOWDOIN POLAR BEAR, placed in 1937, is a memorial to members of the Class of 1912. The base and life-size statue were carved from grey-white Westerly granite by Frederick George Richard Roth. The figure stands in front of the entrance to the Sargent Gymnasium.

THE HARRY HOWARD CLOUDMAN DRINKING FOUNTAIN, erected in 1938, is in memory of Harry Howard Cloudman, M.D., of the Class of 1901, one of the outstanding athletes at the turn of the century. It is carved of marble and stands on the lawn between the Curtis Swimming Pool and the Sargent Gymnasium.

THE ALPHEUS SPRING PACKARD GATE, erected in 1940, is a memorial to Professor Alpheus Spring Packard, A.M., D.D., of the Class of 1816, who was a member of the Bowdoin Faculty for sixty-five years, from 1819 to 1884. The Packard Gate forms one of the southern entrances to the campus.

THE CLASS OF 1910 PATH, a broad walk of composition gravel and asphalt edged with brick, was laid in 1940 as a memorial to members of the Class of 1910 on the occasion of the thirtieth reunion of the Class. The path extends from the northern border of the campus to College Street on the south, running parallel to the four dormitories and in front of the entrance to the Chapel.

THE CLASS OF 1895 PATH, a broad walk of composition gravel and asphalt edged with brick, was laid in 1945 as a memorial to members of the Class of 1895. The path extends from the Chapel to the Class of 1875 Gateway.

THE CLASS OF 1886 PATHWAYS, a network of walks of composition gravel and asphalt edged with brick, were laid in 1945 as a memorial to members of his Class through the generosity of Walter Vinton Wentworth, Sc.D., of the Class of 1886. The pathways traverse an area lying between the Class of 1878 Gateway and Memorial and Massachusetts Halls.

THE CLASS OF 1919 PATH, laid in 1945, is a memorial to members of the Class of 1919. It is a broad walk of composition gravel and asphalt edged with brick and extends from the north entrance of Winthrop Hall, past the entrances to Massachusetts Hall and Memorial Hall, to the Franklin Clement Robinson Gateway.

THE CLASS OF 1916 PATH, a broad walk of composition gravel and asphalt edged with brick, was laid in 1946 as a memorial to members of the Class of 1916. The path extends from Massachusetts Hall to the Alpheus Spring Packard Gate.

THE FRANK EDWARD WOODRUFF ROOM, in Sills Hall, is a memorial to Frank Edward Woodruff, A.M., who was a member of the Bowdoin Faculty for thirty-five years, from 1887 to 1922. The room, provided in 1951 through the generous bequest of Edith Salome Woodruff, is finished in soft grey-green with cabinets and a commemorative plaque.

THE PEUCINIAN ROOM, built in 1951, is in the southwest corner of the basement of Sills Hall. The room is panelled in timber taken from the Bowdoin Pines. The motto of the Peucinian Society, *Pinos loquentes semper habemus*, is carved on a heavy timber surmounting the fireplace. The fireplace and panelling are the gift of the Bowdoin Fathers Association in memory of Suzanne Young (1922-1948).

THE CLASS OF 1924 RADIO STATION is a gift of the members of the Class of 1924 on the occasion of their twenty-fifth reunion. The station, installed in 1951 in the northwest corner of the second floor of the Moulton Union, contains two broadcasting studios and a fully equipped control room which are air-conditioned and protected against sound disturbance by walls of acoustical tiling. The mechanical equipment includes a large console board, transmitter, two record turntables, and three tape recorders.

THE ELIJAH KELLOGG TREE, a large pine dedicated to the memory of Reverend Elijah Kellogg, A.M., of the Class of 1840, stands to the east of Sills Hall and The Smith Auditorium, on the edge of the college woods.

THE CLASS OF 1942 CROSS was placed behind the reading stand in the Chapel in 1952, on the occasion of the tenth reunion of the Class, in memory of those of its members who gave their lives in the Second World War.

THE BOWDOIN COLLEGE FACULTY RESEARCH FUND is of value in making the College a serviceable institution. The interest on the Fund is used to help finance research projects carried on by members of the College Faculty. Founded by the Class of 1928, it is open to additions from other Classes as well as from outside institutions or individuals.

THE GARDNER BENCH, a granite bench placed on the south side of the Class of 1895 Path, is dedicated to the memory of William Alexander Gardner, of the Class of 1881, and was presented to the College by Mrs. Gardner in June, 1954.

THE CHASE MEMORIAL LAMPS, dedicated to the memory of Stanley Perkins Chase, Ph.D., of the Class of 1905, Henry Leland Chapman Professor of English Literature (1925-1951), stand on the Moulton Union terrace. Of colonial design, the lamps were presented to the College by Mrs. Chase in June, 1954.

THE DANE FLAG POLE, in honor of Francis Smith Dane, of the Class of 1896, stands in the northwest corner of Whittier Field. The gift of Mrs. Annie Lawrence E. Dane and a member of her family, the flag pole was placed in 1954 in recognition of Mr. Dane's efforts as an undergraduate to acquire an adequate playing field for the College.

THE SIMPSON MEMORIAL SOUND SYSTEM, the gift of Scott Clement Ward Simpson, of the Class of 1903, and Mrs. Simpson, is dedicated to the memory of their parents. The system, including a high-fidelity record player and other teaching aids in music, was installed in Gibson Hall in 1954. A fund for its maintenance was established by Mr. and Mrs. Simpson in 1955.

THE JAMES FREDERICK DUDLEY CLASS ROOM in Banister Hall was renovated and furnished in 1954 as a memorial to James F. Dudley, of the Class of 1865, by the bequest of Nettie S. Dudley.

THE CATLIN PATH, a walk of composition gravel and asphalt, extending from the Warren Eastman Robinson Gateway to the Library, was laid in 1954 through the generous gift of Warren Benjamin Catlin, Ph.D., Fayerweather Professor of Economics and Sociology, Emeritus.

THE SHUMWAY TREE, a Rocky Mountain fir in memory of Sherman Nelson Shumway, A.M., LL.B., of the Class of 1917, generous

Above: Center of all chemistry study is the new Parker Cleaveland Hall where → future chemists, geologists, and physicians get thorough training.

Below: The Moulton Union provides a gracious place for relaxation and recreation. Its lounges, game rooms, and grill have amply realized its donor's wish to provide an environment where the fires of friendship may be kept burning.

benefactor and an Overseer of the College (1927-1954), was replanted on the campus southwest of Hubbard Hall, and dedicated in June, 1955.

THE TURNER TREE, a maple in memory of Perley Smith Turner, A.M., of the Class of 1919, Professor of Education at Bowdoin (1946-1956), was replanted on the campus east of Smith Auditorium by classmates and friends, and dedicated in June, 1957.

← *All freshmen are required to live in one of the five dormitories. Upperclassmen may live in the dormitories, fraternity houses, or in some cases, in private houses near the campus.*

General Information

TERMS AND VACATIONS: The College holds two sessions each year, beginning in September and February. The dates of the Semesters and the vacation periods are indicated on the College Calendar on pages ix-xi.

REGISTRATION AND ENROLLMENT: All students are required to register at the opening of each Semester in accordance with schedules posted at the College and mailed to students registering for the first time.

OFFICES AND OFFICE HOURS: The administrative offices of the College are in Massachusetts Hall, except those of the Alumni Secretary and the Vice-President which are in the Getchell House, on Bath Street; those of the Superintendent of Grounds and Buildings which are in Rhodes Hall on Bath Street; and that of Alumni Placement which is in Banister Hall (North).

The President will usually be in his office from 2:00 to 4:00 o'clock every weekday except Saturday. The Dean will usually be in his office from 9:00 to 12:00 and from 2:00 to 4:30 every weekday except Saturday. The administrative offices are open from 8:30 to 12:00 and from 1:30 to 5:00 every weekday except Saturday; 8:30 to 12:00 on Saturday.

COLLEGE BILLS AND FEES: A bill for tuition, room rent, board, and fees, payable at the time of registration, will be presented prior to the opening of each Semester. This bill will be sent to the student unless the Assistant Bursar is requested in writing to send it elsewhere. Application to defer payment on not more than one-half of this bill may be made to the Bursar. Any such part of a bill deferred shall be payable on or before the date indicated on the College Calendar. Bills for other charges may be presented at any time and shall be payable immediately.

Any student whose bill is not paid when due may be excluded by the Faculty from the privileges of the College, and from credit for college work. No student shall be admitted to examinations of a Semester if any college charges against him remain unpaid, except in special cases by permission of the Faculty.

No student shall be advanced in class standing until all bills of the previous Semester have been paid, and no degree shall be conferred upon a student who has not paid all his dues to the College,

including charges for room and board at a college dining hall. No student shall be dismissed from college on request unless he shall have paid all his college bills, including that of the current session. During the time that bills which are overdue remain unpaid, a student receives no credit for college work.

TUITION: The tuition fee for each Semester is \$400, payable in full at the time of registration. Any student completing the number of courses required for the degree in less than eight Semesters must pay tuition for eight Semesters. Work taken at other institutions to make up deficiencies in scholarship at Bowdoin shall not relieve the student of the obligation to pay tuition covering eight full Semesters at Bowdoin College. An additional tuition charge of \$90 per Semester shall be assessed for each course taken by a student to make up an academic deficiency, such additional charge to become effective with respect to deficiencies recorded for the first Semester of the academic year 1955-1956 and for subsequent Semesters.

There are opportunities at Bowdoin to receive financial aid in meeting the charge for tuition. The College awards more than \$130,000 each year to students who require financial assistance in meeting the charges on the term bill. More detailed information about these awards may be found on pages 160-182.

COLLEGE ROOMS AND BOARD: Freshmen are assigned rooms by the Director of Admissions but may indicate by letter to him their preference in the matter of roommates. All other students should make applications to the Director of the Placement Bureau. An applicant may indicate with whom he wishes to share a room, and the College will honor this preference whenever possible. The suites consist of a study and bedroom which are provided with essential furniture. Students should furnish bed linen, blankets, pillows, pillow slips, and towels. College property is not to be removed from the building or from the room in which it belongs; occupants are held responsible for any damage to their rooms. Room rent is \$135 a Semester, and board is about \$230 a Semester.

OTHER COLLEGE CHARGES: All damage done to the buildings or other property of the College by persons unknown may be assessed equally on all the undergraduates. The College collects, in each Semester, Student Activities fees amounting to \$18.25. The cost of tuition, board, room, and fees amounts to about \$790 for the Semester. To these items must be added the cost of textbooks, per-

sonal expenses (including travel), and fraternity expenses for members of these organizations.

REFUNDS: Refunds to students leaving before the end of a Semester will be made only in special cases at the discretion of the administrative officers.

MEDICAL ATTENDANCE: The facilities of the endowed Dudley Coe Memorial Infirmary and the services of the College Physician are available to students without charge. If ill, students should immediately call upon or summon the College Physician.

The College also has group accident and medical reimbursement insurance which provides benefits in cases where the facilities of the Infirmary are not sufficient. Every student is required to avail himself of this protection. The fee is \$4 for each Semester.

AUTOMOBILES: No freshman shall maintain an automobile at the College. Sophomores and upperclassmen in residence are not permitted to maintain automobiles while the College is in session, except by written permission of the Dean.

STATISTICS: Approximately 17,213 students have been matriculated at Bowdoin College, and 11,851 degrees in course have been awarded. Living alumni include 5,782 graduates, 2,126 nongraduates, and 90 honorary graduates.

RESOURCES

The interest-bearing funds of Bowdoin College, at the close of each financial year, for the last ten years were as follows (exclusive of undistributed net gains or losses on the sale of general investments):

June 30, 1948,	\$9,521,077.96	June 30, 1953,	\$12,293,627.92
June 30, 1949,	10,403,182.52	June 30, 1954,	12,393,568.73
June 30, 1950,	11,517,574.65	June 30, 1955,	12,615,536.55
June 30, 1951,	11,623,693.61	June 30, 1956,	13,088,721.55
June 30, 1952,	12,312,274.08	June 30, 1957,	13,815,678.39

The estimated value of the college buildings and equipment is \$7,200,000.

Admission to the College

EACH year a class of 200 to 225 freshmen is chosen from the group of candidates for admission. In selecting the class, the College chooses those candidates whom it believes to be best fitted for its work and who are likely to profit most from it. Previous academic performance, scholastic ability, character, personality, health, purpose, and breadth of interest are the bases on which the general promise of each candidate is judged, and on which the College has established its requirements for admission.

REQUIREMENTS FOR ADMISSION

SECONDARY SCHOOL STUDIES: The College considers the best preparation for its work a program of studies in secondary school consisting chiefly of those fields which are fundamental to the liberal arts: literature, mathematics, foreign languages, history, and science. Between school and college there should be a continuity of work, and whenever possible the subjects taken in the last year of school should be related directly to those to be taken in the first year of college. Ideally, the difference between the work in school and college will be one of degree, but not of kind.

A description of the freshman-year subjects at Bowdoin will be found on page 58. In planning a school program for admission to Bowdoin the requirements for the degree on pages 59-62 will also be of special interest. These requirements shape not only the course of study in college, but also the requirements for admission and consequently, the best pattern of school study for preparation.

The requirements for admission to Bowdoin include the following studies in secondary school: four years of English, three years of one foreign language or two years of each of two foreign languages, three years of mathematics, one year of history, and other work in the social, physical, and natural sciences.

Any prospective freshman whose program of secondary school studies does not follow the customary pattern for admission to Bowdoin should not hesitate to write to the Director of Admissions. The College is concerned above all with the quality of the preparation of its candidates; and, within the larger framework of its requirements for the degree, it makes each year exceptions of detail in its requirements for admission.

COLLEGE BOARD TESTS: In their final year of preparation all candidates are required to take the Scholastic Aptitude Test of the College Entrance Examination Board. Candidates whose records are not satisfactory in all respects may be asked to take certain of the Achievement Tests given by the Board. The Admissions Office attempts to advise candidates individually about the tests necessary for Bowdoin. When this is not possible, each candidate should follow the instructions of the proper authority at his school.

The College Board Tests are given at various centers in each state and many foreign countries several times during the year. Bowdoin prefers especially to have its candidates take either the January or February or March series of the examinations. Candidates who take more than one series of the tests are asked to have the results of each of them sent to Bowdoin. When achievement tests are required, the March series is strongly preferred.

Application for the tests should be made by mail to the College Entrance Examination Board, P.O. Box 592, Princeton, N. J., or P.O. Box 775, Berkeley, California. It is advisable for candidates to write early in their senior year for the College Board Bulletin of Information so that they may become familiar with the details of the tests and the application procedure for them.

SCHOOL STATEMENT AND INTERVIEWS: As part of each application the College requires a statement about the candidate by his school principal or headmaster. The statement is an appraisal of the candidate's character, personality, and general academic promise. It is an indispensable part of each candidate's qualifications for admission.

Bowdoin does not require personal interviews of all of its candidates. It does, however, feel that such interviews are of great value to both the candidates and the College, and it encourages them whenever it is possible to arrange them either with members of its staff or Bowdoin alumni.

Prospective freshmen are urged to visit the campus, and usually plans for a visit can include an interview. The Admissions Office in Massachusetts Hall is open throughout the year from 9 until 5 on weekdays and on Saturdays until noon.

APPLICATION AND ADMISSIONS PROCEDURE

Normally admissions are made late in April for the beginning of the college year in September. Candidates should file formal appli-

cation as early as possible in their last year of school. An application fee of ten dollars will be charged each candidate. This fee will be credited to the term bill if the candidate enters the College; otherwise it is not refundable. The filing date of the application is not a factor in determining qualifications, but applications received later than March 1 necessarily receive limited consideration. Applications made earlier than a year prior to matriculation are not necessary although they are welcomed since they make possible more extended planning of school preparation.

In January, the Admissions Office requests from the schools the transcripts of the applicants' records through the first half of their final year. After these have been received, applicants are advised individually about College Board Tests. Late in April, each candidate is notified of the College's decision on his application. Admission at this time is dependent upon the satisfactory completion of the school year, and successful candidates are asked to pay an admission fee of \$25 before a date convenient to both them and the College.

ADMISSION WITH ADVANCED STANDING: A limited number of students from other colleges and universities may be admitted each year to upperclass standing at Bowdoin. Candidates for transfer admission should submit early in the Spring transcripts of their college and school records, results of College Board Tests, and statements of character and academic standing from their colleges. The records of transfer candidates should be of good quality in a course of study which approximates the work that would have been done at Bowdoin had they entered as freshmen. At least one full year of residence at Bowdoin is required for the degree.

Bowdoin participates in the School and College Plan for Advanced Study. Under this plan, selected secondary schools give special work to some of their students who upon examination may be given advanced credit by the participating colleges. This plan is intended to provide an opportunity for unusually qualified students to extend the range of the work that they may do in both school and college. Occasionally, it may permit a student to complete his college course in less than the usual time.

SPECIAL STUDENTS: Special-student status is granted to persons who do not wish to become candidates for the degree, but wish to pursue studies in regular classes. Admission is based upon evidence of maturity and seriousness of purpose, and adequate preparation for the work to be undertaken. No student is permitted to contin-

ue in special standing more than two years. Men who enter as special students and who later wish to become candidates for the degree must satisfy all of the regular requirements for admission to the College.

PREMATRICULATION SCHOLARSHIP PROCEDURE

Applications for the prematriculation scholarships described on pages 162-164 are obtained from the Admissions Office. Bowdoin is one of more than one hundred and fifty colleges which ask candidates for prematriculation scholarships to file information through the College Scholarship Service, an organization which has been formed to simplify scholarship procedures and to make the decisions on the awards as fair as possible. The Parents' Confidential Statement Form is the only form required of candidates for financial aid and is available on request. Each candidate should advise the College Scholarship Service to send Bowdoin a copy of this statement. Candidates are reminded that only one such form is needed in order to file this information with Bowdoin or any other college using this form. Scholarship applications should reach the Director of Admissions no later than March 1.

Decisions on scholarship applications are made by the Committee on Student Aid in April, and scholarship applicants are notified of the committee's decision at the same time they are notified of the decision on their applications for admission.

All correspondence concerning admission to the College and prematriculation scholarships should be addressed to the Director of Admissions, Bowdoin College, Brunswick, Maine.

The Curriculum

THE objectives of the College are clearly stated in *BOWDOIN: A LIBERAL COLLEGE* on pages 18-19 of this catalogue. Through the years the College has clung to those objectives. It has sought to teach its students:

- (1) To be more widely informed and more deeply understanding by helping them to gain a more accurate knowledge of the world in which they are living by means of an awareness of the contributions of the arts and sciences of the ancient and modern civilizations;
- (2) To become wiser by training them to think analytically, and encouraging them to develop a set of values by which to order their lives, and to make relevant use of their knowledge for the common good; and
- (3) To be more effective by developing their power to give clear, cogent, and interesting oral and written expression to what they think and believe.

Recently the College has reviewed its requirements and its curriculum in a "Self-Study" made possible by a grant from the Fund for the Advancement of Education of the Ford Foundation. The revised program falls into two well-defined stages—each with its own requirements and objectives—leading to the degree of Bachelor of Arts. The first of these stages, designed to provide breadth of education, is based upon the principle of distribution. In it the student is introduced to several of the great fields of knowledge, including an introduction to the possibilities of the laboratory, and he is given a close look under scholarly direction at one field of literature. He develops through constant practice his ability to write and speak and he sharpens his powers of analysis by experience in various subjects under no less various instructors. The foundations thus laid, the student is in a position to develop his interests.

The second of the stages is based upon the principle of concentration. Its chief feature is the major program which seeks to add depth to a student's knowledge of some one field and through this intensification to bring a quickening interest, to teach the student to coördinate what he knows so that he may see knowledge as a whole, and to train him to organize and present his material so that

he can communicate it effectively to others. The details of this plan of concentration are explained in THE SECOND TWO YEARS on pages 61-62, and the succeeding sections on the major program.

THE FRESHMAN YEAR

The program for a freshman is:

- (1) *English 1-2* or an advanced course in English for which he may qualify.
- (2) *English 3-4; Hygiene or Military Science; and Physical Education.*
- (3) A course toward the satisfaction of the language requirement. That course may be any one of the following or a more advanced course in the same Department: *French 1-2; German 1-2; Greek 1, 2; Latin 3, 4; Spanish 3-4.* (Students electing *Spanish 3-4* must first pass a qualifying examination given by the Department.)
- (4) A year's work in laboratory science or a year's work in mathematics.
- (5) A second language, ancient or modern, or any course which is open to him offered by a major Department in Division II or III.

The courses at present open to freshmen in Divisions II and III are:

<i>Biology 1-2</i>	<i>Mathematics 15-16</i>	<i>Philosophy 11-12</i>
<i>Chemistry 11-12</i>	<i>Mathematics 11, 12</i>	<i>Physics 11-12</i>
<i>Government 1-2</i>	<i>Mathematics 14</i>	<i>Sociology 1-2</i>
<i>History 1-2</i>		

Freshmen should note especially item 5 in ADDITIONAL REGULATIONS on page 66.

THE SOPHOMORE YEAR

Two of the courses in each Division into which the curriculum is divided must be completed by the end of the Sophomore year. (In special programs such as the Combined Plan it may be necessary to allow greater flexibility in some cases.) Courses leading to the completion of the requirements in foreign languages and in oral and written English must ordinarily be continued until the requirements are satisfied. Five regular courses and *Physical Education* must be taken each Semester, except that students enrolled in

the Military Science program have the option of postponing their fifth course to the Junior year.

By the end of his Sophomore year each student must choose both his major subject after consultation with the Department concerned, and a minor planned with and approved by that Department.

Sophomores should note especially item 5 in ADDITIONAL REGULATIONS on page 66.

REQUIREMENTS FOR THE DEGREE

For the degree of Bachelor of Arts the student must fulfill the requirements listed below:

I. DISTRIBUTION REQUIREMENTS

In order to provide his entire program with suitable breadth, each student is required to meet certain distribution requirements. For this purpose the curriculum is divided into the following three divisions:

<i>Division I</i> <i>The Humanities</i>	<i>Division II</i> <i>Mathematics & Sciences</i>	<i>Division III</i> <i>The Social Studies</i>
Art	Astronomy	Economics
Classics	*Biology	Government
English	*Chemistry	History
French	Geology	Philosophy
German	Mathematics	Sociology
Greek	*Physics	
Italian	Psychology	
Latin		
Music		
Philosophy		
Religion		
Russian		
Spanish		

Each student is required to complete four semester courses in each Division. Two of the courses in each Division must be completed by the end of the Sophomore year. No more than two Semesters in any one subject may be counted toward meeting the distribution requirements. Division I of the distribution requirement is satisfied only by courses at the literature level in the foreign language Departments and only by courses counting toward the major in the Department of English.

(In special programs such as the Combined Plan it may be necessary to allow greater flexibility in some cases.)

The starred subjects satisfy the laboratory science requirement.

II. SPECIFIC REQUIREMENTS

A. ORAL AND WRITTEN ENGLISH:

1. *English 1-2* and *English 3-4* (Public Speaking).
2. Acceptable English in both oral and written work in all courses. Any student may take, and all students whose work is below standard in the rudimentary skills of clear expression may be required to take the course in Remedial English given in each Semester by the Department of English. Students will be enrolled in this course on the basis of an inadequate score on the English Aptitude Examination, unsatisfactory work in *English 1-2*, or upon the recommendation of the Department of English.

B. HYGIENE AND PHYSICAL EDUCATION:

1. *Hygiene*. (Students electing *Military Science* are relieved of this requirement.)
2. Two years of *Physical Education*.

C. FOREIGN LANGUAGES:

Completion in college of two years of French or German or Greek or Latin; or of a year-course in French, German, or Spanish literature or advanced conversation; or of a year-course in Latin or Greek literature.

D. LABORATORY SCIENCE:

Completion of two Semesters in laboratory science. This requirement must be undertaken not later than the beginning of the Junior year. The courses taken count toward the distribution requirement.

E. LITERATURE:

Completion of two Semesters in the literature of a language. The courses taken may count toward the distribution requirement and the language requirement.

F. MAJOR AND MINOR:

Completion of a major field of concentration and of a minor.

G. COURSES AND GRADES:

1. To be eligible for a degree, a candidate must have completed

thirty-four semester courses or their equivalent and either the major course of his Department or the two semester courses offered in lieu of the comprehensive examination.

2. Each student is required to achieve a grade of C- or higher in at least 20 semester courses offered to fulfill the course requirement for graduation.

3. A year-course is equivalent to two semester courses. *English 3-4; Hygiene; Military Science 11, 12, 21, 22; and Physical Education* are not counted in the requirements set forth in G.

H. RESIDENCE:

To be eligible for a degree, a candidate must have been in residence at Bowdoin College for at least one year.

N.B. In fulfilling the requirements for the degree any student especially qualified to do so may take a course not otherwise open to him in lieu of the one required with the consent of the Department concerned and of the Recording Committee.

THE SECOND TWO YEARS

The Bowdoin curriculum is based upon the principles of distribution and concentration. The requirements of the first two years, while permitting a wide range of choice among Departments and among courses within each Department, have been planned to insure a proper attention to fundamentals, and to serve as a basis for intelligent specialization in the upperclass years. In the second two years the student completes his distribution requirements, has considerable opportunity for the free election of courses, and, most important of all, carries out his major program. This experience gives the student an opportunity to develop his powers:

- (1) By adding depth to his knowledge so that he may know, not only something about a great many things, but also much about some one thing; with this intensification should come quickening interest;
- (2) By training him to coördinate what he knows and to relate one thing to another so that he may begin to see knowledge as a whole and not as isolated bits of information;
- (3) By requiring him to organize and to present what he knows so that he can communicate it effectively.

To some extent at least the first two years depend upon discipline. The requirements for the most part are laid down for the stu-

dent. The last two years depend upon interest. Here the student must be prepared to make broad choices on his own responsibility.

MAJOR PROGRAMS

A major program is offered by every Department which has been authorized by the Faculty to do so. The departmental requirements for each major are listed in COURSES OF INSTRUCTION on pages 69-127.

Special major programs, involving work in more than one Department and designed to meet an individual cultural or professional objective, may be offered if approved by the Faculty on recommendation of the Curriculum and Educational Policy Committee and of the Departments concerned.

THE CHOICE OF A MAJOR

Each student must choose his major by the end of his Sophomore year after consultation with the Department concerned. During the week preceding the spring vacation, the Registrar shall post hours for conferences with Sophomores regarding choice of a major. No student may major in a Department unless he has satisfied the Department that he is able to do work of at least C- quality in its courses. Changes in major programs may take place only with the permission of the Recording Committee following the submission of a written request stating the reason for the change. Such request must also be approved by the Departments concerned.

THE REQUIREMENTS FOR THE COMPLETION OF A MAJOR PROGRAM

Each student shall pass at least six semester course units approved by the major Department, and, where appropriate, the major course, with a grade of C- or better in more than half of those offered for the major or of those used to satisfy the course requirements of the Chemistry, Mathematics, or Physics Departments.

Each student shall complete a minor planned with and approved by his major Department, consisting of four semester units in one Department, or two semester units in each of two related Departments.

Each student shall pass a comprehensive written examination, and, if required by the Department, an oral examination. The De-

partments of Chemistry, Mathematics and Physics may permit a student to substitute for the comprehensive examination two extra courses in addition to those otherwise required for graduation.

Each student shall take a regular course in his major Department in each Semester of his Senior year.

THE MAJOR COURSE

Each student who is to take a comprehensive examination shall complete satisfactorily the major course of his Department which shall be in addition to those otherwise required for graduation. The major courses shall consist of at least four seminars or conferences in each of the last four Semesters, and shall include a substantial amount of written work. The Departments of Chemistry, Mathematics, and Physics, in special cases, may waive the two extra courses referred to above, and require equivalent major work in the Senior year as preparation for a comprehensive examination.

A Department may give warnings in its major course; such warnings shall be equivalent to those given in other courses. The grade for the major course may or may not be the same as that given for the major examination. It shall not be given until the major examination has been taken.

ADMINISTRATIVE PROVISIONS

Major examination grades shall be recorded on the student's card. Announcement of the results shall be reported through the Dean's Office only.

Students who have passed their major examinations with a grade of B- or better shall be exempted, if they so desire, from the final examinations in the courses being offered for their major after consultation with the faculty members concerned.

Students who fail in the major examination are entitled to re-examination only with the consent of the Department concerned and of the Recording Committee. Save in exceptional circumstances such re-examination shall not be given until the lapse of at least a three-month interval.

A student shall normally take his major examination during his final Semester. Any student who is authorized by the Recording Committee to complete his work for the degree by taking summer courses shall with the consent of the Dean take a major examination in the regular period of the Spring Semester.

The major examination shall be given during a period imme-

diately preceding final examinations, as designated by the Dean. The date shall be listed in the college catalogue. Students taking major examinations shall be excused from classes for not more than three class days immediately preceding the major examinations.

THE HONORS PAPER

A student with honor grades, i.e., B- or better, in courses offered in his major subject, may during his Junior year become a candidate for a major with honors and as such will prepare an honors paper under tutorial supervision. In exceptional cases a Department may also accept as candidates students with lower grades. A definitive plan for the honors paper must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of his Senior year. A project in music, the fine arts, or letters may be substituted for the honors paper, and shall be accompanied whenever appropriate by a supplementary written explanation. The honors work described above shall be graded and shall count as a course unit in the final Semester. The honors work for the major may be a special project as described below.

SPECIAL HONORS PROJECT

A student considered by his major Department to have exceptional promise for individual work may with the endorsement of the Department submit to the Recording Committee a special honors project in the field of his major work. To pursue this project he may with the consent of the Recording Committee be released from not more than four courses in the final three Semesters as specified in the plan submitted. A student to be eligible must have completed satisfactorily five Semesters, and must have arranged a future course schedule that will fulfill all group, language, and other curricular requirements as well as such course work of the major as his Department shall require. A grade for the project shall be entered on the student's record in lieu of the grades for the courses from which he was released. A student may by agreement between himself and his major Department discontinue a special honors project. On recommendation of the Recording Committee he may receive credit and a grade for those Semesters that have been completed.

Above: *A General Military Science unit of the Reserve Officers' Training Corps offers to the undergraduate who joins it an opportunity to combine part of his military training with a liberal education.*

Below: *General Willard G. Wyman, U.S.A., a four-star General and member of the Class of 1920, commissioned sixty-four members of the Class of 1957 in an impressive ceremony on the campus.*

THE AWARD OF HONORS

Departmental Honors

Award of departmental honors shall be on the basis of: (a) honor grades in the major course units required, and, when offered, in the major course; (b) honor grades in a written and oral comprehensive examination, or in the two extra courses required as an equivalent by the Departments of Chemistry, Mathematics, and Physics; (c) initiative, originality, and high attainment in the honors work under tutorial supervision as evidenced by an honor grade.

All written work accepted as fulfilling honors requirements shall be deposited in the library in a form specified by the Library Committee.

The degree with honors in his major subject shall be awarded to a student who has exceptionally distinguished himself in that subject. It shall be awarded in three grades: with *honors*, with *high honors*, and with *highest honors*. The award shall be made by the Faculty on the recommendation of the Department.

General Honors

A degree *summa cum laude* shall be awarded to a student who has obtained an average grade of 93.5 or better in the necessary number of Bowdoin courses presented for the degree, who has been in residence at Bowdoin for at least three years, and who has been awarded at least *high honors* in his major subject.

A degree *magna cum laude* shall be awarded to a student who has obtained an average grade of 93.5 or better in the necessary number of Bowdoin courses presented for the degree and who has been in residence at Bowdoin for at least three years; or who has obtained an average grade of 91.5 or better in the necessary number of Bowdoin courses presented for the degree, who has been in residence at Bowdoin for at least two years, and who has been awarded at least *honors* in his major subject.

A degree *cum laude* shall be awarded to a student who has obtained an average grade of 85.0 in all Bowdoin courses presented for the degree.

ADDITIONAL REGULATIONS

1. RELIGIOUS EXERCISES: Chapel services are held each weekday at 10:10 A.M. in the College Chapel, and vesper services are held on Sundays at 5:00 o'clock. Attendance at these exercises is governed by regulations laid down by the College.

← Above: The College Radio Station, WBOR, broadcasts daily (FM and AM) from its studios in the Moulton Union.

Below: A fraternity house library. Over ninety per cent of Bowdoin's undergraduates belong to the twelve fraternities. The chapter houses provide living and dining accommodations and are an integral part of the social life of the College.

2. COURSES: Juniors must take four or five courses depending on whether they elected to carry their fifth course in the Sophomore or Junior year. Seniors and Special Students are required to take four regular courses each Semester.

3. COURSE EXAMINATIONS: The regular examinations of the College are held at the close of each Semester. An absence from an examination entails the mark of zero. In the event of illness or other unavoidable cause of absence from examination, the Dean may authorize a make-up of the examination.

4. RANK: The rank of a student in each course is computed on a scale of 100, but is preserved on the college records in the letters *A*, *B*, *C*, *D*, and *E*. They signify the following ranks: *A*+ 97-100, *A* 94-96, *A*- 90-93, *B*+ 87-89, *B* 84-86, *B*- 80-83, *C*+ 77-79, *C* 74-76, *C*- 70-73, *D*+ 67-69, *D* 64-66, *D*- 60-63, *E* a rank lower than 60 and a failure. In computing final class standings the best thirty-four courses will be counted including all required courses.

5. DEFICIENCY IN SCHOLARSHIP: Students receive a major warning and are placed on probation if they are reported to be below passing in two or more of their regular courses at any warning period (middle and end of each Semester). Major warnings at two successive warning periods or at the end of two successive Semesters render a student liable to dismissal from college for deficiency in scholarship. Freshmen, however, are usually given a full college year in which to become adjusted to college work.

During his first two Semesters at Bowdoin, each student must secure a minimum of two semester grades of *C*- or higher to be permitted to remain in college. Terms of readmission, if any, for students dropped under this rule shall be set by the Recording Committee.

During his first four Semesters, each student must secure at least eight semester grades of *C*- or higher to be permitted to remain in college. Students failing to meet this standard are dropped and their probation is closed. Grades in *English 3-4*, *Hygiene*, and *Military Science 11, 12, 21, 22* are not counted in this tabulation, nor are grades in courses taken at other colleges.

6. REPORTS OF STANDING: A report of the ranks of each student is sent to his parents or guardian at the close of each Semester.

PRE-ENGINEERING PROGRAMS

Students desiring to enter the profession of engineering may qualify for the degree of Bachelor of Arts from Bowdoin College and also for a degree in engineering in a total of five years (instead

of the six years normally necessary for both degrees) by completing one of the joint programs described below. After three years of study at Bowdoin, during which the usual language, literature, and distribution requirements must be satisfied, students become eligible for recommendation to the coöperating engineering institutions provided that sufficiently good grades have been achieved in the prescribed courses; in most instances honor grades will be required for recommendation by the College. Students wishing to avail themselves of one of these plans should notify the Dean of Bowdoin College at the beginning of their Freshman year because the programs require a very definite pattern of courses.

Bowdoin-California Institute of Technology Three-Two Plan

For recommendation to the California Institute of Technology under the Three-Two Plan a student must have completed the following courses in mathematics and science:

Mathematics 11, 12, 21, 22, 31 plus one other semester course;

Physics 11-12, 21, 22, 31, 32;

Chemistry 11-12 (plus 21, 22 for students anticipating chemical engineering).

The social studies requirement will normally be fulfilled by taking economics and American History.

Recommended students are assured of admission to C.I.T. as juniors. The Bowdoin degree will be awarded to such students upon notification from the Institute that they have received their degrees from C.I.T.

Bowdoin-Columbia School of Engineering Combined Plan

Students enrolled in the Columbia Combined Plan are encouraged to take their Bowdoin electives in the general, broad liberal arts field. They must, however, complete two years of Mathematics and three or more years of Physics and Chemistry, the distribution between the two sciences depending upon the type of engineering contemplated. Recommended students are assured of admission to the School of Engineering as juniors after a five to eleven weeks' summer course at Camp Columbia. The Bowdoin degree will be awarded to such students upon notification from the School of Engineering that they have received their degrees from Columbia.

Bowdoin-Massachusetts Institute of Technology Two-Degree Plan

Since 1937 Bowdoin College has been sending students to the Massachusetts Institute of Technology under conditions similar to

those of the Plans listed above. At present, because of the large number of colleges participating, M.I.T. reserves the right to scrutinize the records of all students applying for transfer before granting admission.

Students enrolled in the M.I.T. Two-Degree Plan take Mathematics and Physics in all three years and Chemistry in Sophomore and possibly Junior years, depending upon the courses contemplated at M.I.T. Recommended students enter M.I.T. as juniors after, in some cases, an intervening summer term. The Bowdoin degree will be awarded to such students upon notification from the Institute that they have received their degrees from M.I.T.

Programs under this plan can be arranged in Architecture (requiring three years at Bowdoin, followed by three years at the Institute), City Planning, Food Technology, Geophysics, Industrial Management, Quantitative Biology, and Science Teaching, as well as in the various branches of engineering.

PRE-MEDICAL STUDIES

Students contemplating the study of medicine are advised to arrange their undergraduate course as early as possible, with this end in view. Pre-medical students should take college courses in Biology, Chemistry, and Physics, to satisfy the requirements for admission to medical schools.

RESERVE OFFICERS' TRAINING CORPS

A voluntary curriculum of Military Science and Tactics in the Reserve Officers' Training Corps was established at Bowdoin in the Spring of 1950. Successful completion of the four-year program will enable eligible students to receive commissions as Second Lieutenants in the United States Army Reserve, at graduation. The courses in Military Science and Tactics are described on pages 106-108, and an account of the regulations and financial allowances is contained on pages 128-129 of this Bulletin.

Courses of Instruction

ARRANGEMENT: The departments of instruction in the following descriptions of courses are listed in alphabetical order.

TIME AND PLACE OF CLASSES: A schedule containing the time and place of the meeting of all courses will be issued before each period of registration.

YEAR COURSES: Courses marked with an asterisk are year courses, and, if elected, must be continued for two consecutive Semesters.

BRACKETED COURSES: All courses that cannot be scheduled for a definite Semester are enclosed in brackets.

Art

PROFESSOR BEAM, *Chairman*; AND ASSISTANT PROFESSOR SCHMALZ

Requirements for the Major in Art: A major consists of the major course and six semester units chosen from the courses offered by the Department. Students who anticipate majoring in Art are urged to take *Art 1, 2* and, if possible, *Art 9, 10* as introductions to the field during their Sophomore year or as soon thereafter as possible. A more complete statement of the major program will be found on pages 60-63, 71.

1. *General Introduction to Art.* Fall 1957 and Fall 1958. MR. BEAM.
An introduction to a systematic interpretation of the nature, methods, and history of the visual arts: architecture, sculpture, painting, drawing, and design.
Students without previous training in art are urged to begin with either *Art 1, 2* or *Art 9, 10*, or both.
2. *Continuation of Course 1.* Spring 1958 and Spring 1959. MR. BEAM.
Prerequisite: *Art 1*.
3. *The Art and Culture of Antiquity.* Fall 1959. MR. BEAM.
A general study of architecture, sculpture, and painting in the Mediterranean Basin and Europe during ancient times, with an emphasis upon the art of Greece.
4. *The Art and Culture of the Middle Ages.* Spring 1960. MR. BEAM.
Designed to follow *Art 3*, this course deals with the art of

Europe between the decline of Rome and the rise of the Renaissance, with some emphasis upon the flowering of Gothic art.

5. *European Art and Culture of the Renaissance*. Fall 1957. MR. BEAM.

A survey of European architecture, sculpture, and painting of the Renaissance in the fifteenth and sixteenth centuries, especially in the Italian peninsula.

6. *European and American Art and Culture of the Seventeenth and Eighteenth Centuries*. Spring 1958. MR. BEAM.

Prerequisite: *Art 5*.

7. *Modern Art*. Fall 1958. MR. BEAM.

The architecture, painting, and sculpture of Europe and America from the beginning of the Industrial Revolution to the present day. Emphasis will be on painting and sculpture.

8. *Continuation of Course 7*. Spring 1959. MR. BEAM.

Emphasis during this Semester will be upon architecture.

9. *Principles of Drawing, Painting, and Design*. Fall 1957. MR. SCHMALZ.

An elementary study of the principles of drawing, painting, and design, primarily through actual practice in drawing and painting. No previous experience is necessary, but permission of the instructor is required. Three two-hour meetings weekly in classroom or studio.

10. *Continuation of Course 9*. Spring 1958. MR. SCHMALZ.

11. *The Art and Culture of the Orient*. Fall 1958. MR. SCHMALZ.

A survey of the architecture, sculpture, and painting of the Near and Far East, especially in Persia, India, China, and Japan.

13. *Advanced Design*. Fall 1958 and Fall 1960. MR. SCHMALZ.

A study of the principles of drawing, painting, and design, primarily through actual practice in drawing and painting. Practice in oil painting will also be given. Some practice in sculpture and architectural designing will be given if time permits. Three two-hour meetings weekly in classroom and studio.

Prerequisites: *Art 9, 10*, or the permission of the instructor.

14. *Continuation of Course 13*. Spring 1959 and Spring 1961. MR. SCHMALZ.

The Major Program

100. *The Major Course.* Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least six seminars in each of the last four Semesters. These meetings are planned to help students meet two requirements. The first of these is an examination, given normally at the end of the Junior year, to test the student's comprehensive knowledge of the history of Western art, and the Bible, the lives of the major saints, and classical mythology insofar as these have been illustrated in art. The second examination falls at the end of the Senior year and is meant to test the major student's knowledge of a special field of art of his own choosing upon which he has concentrated during his final year in college.

200. *The Honors Paper.* Spring Semester in the Senior year. THE DEPARTMENT.

A candidate for honors is required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

- 300-303. *Special Honors Project.* MR. SCHMALZ.

A student may substitute a creative project in one of the visual arts for the usual written honors paper under the tutorial supervision of the instructor in studio art. The project must be accompanied, when finally submitted, by a full and adequate written description of its underlying purpose. A definitive plan for the project must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

A student desiring to submit a plan for special honors work involving the release from some courses should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Astronomy

PROFESSOR LITTLE

1. *The Solar System.* Fall 1957 and Fall 1958.

A general survey of the earth, moon, planets, asteroids, meteors and comets. Laboratory work includes the determi-

nation of time and position as well as observations with the telescope.

2. *Stellar Astronomy*. Spring 1958 and Spring 1959.

A general survey of the sun as a star and the celestial universe beyond the solar system. The optics of the telescope and spectroscope and the use of the sextant in aerial and marine navigation are considered in the laboratory.

Biology

PROFESSOR GUSTAFSON, *Chairman*; ASSISTANT PROFESSORS
MOULTON AND HUNTINGTON

REQUIREMENTS FOR THE MAJOR IN BIOLOGY: A major consists of *Biology* 1-2 and any four additional units excepting *Biology* 7 or 8. A minor may be taken in Chemistry or Physics, or, under unusual circumstances in some other field. Major students are urged to elect *Chemistry* 11-12 and 31-32, a year of college Mathematics, and *Physics* 11-12.

*1-2. *General Biology*. Offered every year. MR. GUSTAFSON.

An examination of fundamental biological phenomena, theories, and principles based upon material selected from both the plant and animal kingdoms. Special attention is given to the methods of scientific investigation, the relationship of biology to other fields of endeavor, and to man and his environment. Representative organisms and their functions are studied in the laboratory. Lectures and three hours of laboratory work each week.

3. *Comparative Anatomy of the Vertebrates*. Fall 1957 and Fall 1958. MR. MOULTON.

A survey of vertebrate morphology. Emphasis will be placed upon the evolution of mammalian organ systems. Laboratory work will consist of dissection and study of comparable systems in representative vertebrates. Lectures, conferences, and three hours of laboratory work each week.

Prerequisite: *Biology* 1-2.

5. *Vertebrate Histology*. Fall 1957 and Fall 1958. MR. MOULTON.

A survey of the microscopic anatomy of animal cells and tissues. Course material includes the characteristic microscopic structure of the various body tissues. An examination is made of the possible relations of structure and function

within the tissues. Opportunity for practice in technique of tissue preparation is provided as part of the laboratory work. Lectures, conferences, and three hours of laboratory work each week.

Prerequisite: *Biology 1-2*.

6. *Vertebrate Embryology*. Spring 1958 and Spring 1959. MR. MOULTON.

A survey of the earlier stages of the development of the reproductive cells, maturation, fertilization, cleavage, formation of the germ layers, primitive segments, and the formation of fetal membranes. Study of a series of preparations illustrating the early development of vertebrates with emphasis on the chick and pig is included in the laboratory work. Lectures, conferences, and three hours of laboratory work each week.

Prerequisite: *Biology 1-2*.

7. *Special Laboratory and Field Investigations*. Fall 1957 and Fall 1958. MEMBERS OF THE DEPARTMENT.

Original field and laboratory biological investigations under the direction of some member of the staff. Open by permission of the Department to students with high grades and requisite training majoring in biology.

8. *Special Laboratory and Field Investigations*. Spring 1958 and Spring 1959. MEMBERS OF THE DEPARTMENT.

Continuation of *Biology 7*. Men electing *Biology 7* are ordinarily expected to elect *Biology 8*; rarely will a student be permitted to elect *Biology 8* without having taken *Biology 7*.

9. *Genetics*. Fall 1957 and Fall 1958. MR. GUSTAFSON.

A survey of the development of ideas on variation and heredity, the physical basis of inheritance, applications to plant and animal breeding, relationship of genetics to the theories of evolution, inheritance in man, and eugenics. Laboratory work in experimental breeding. Lectures, conferences, and three hours of laboratory work each week.

Prerequisite: *Biology 1-2*.

10. *Ornithology*. Spring 1958 and Spring 1959. MR. HUNTINGTON.

A study of the biology of birds, especially their behavior and ecology. The laboratory work includes the study of the college collection of North American birds. Field trips include

a visit to the Bowdoin Scientific Station at Kent Island (see page 183 of the catalogue).

12. *Biology of Plants*. Spring 1958 and Spring 1959. MR. GUSTAFSON.

A brief survey of the plant kingdom with emphasis on the fundamental principles and problems of botany. Laboratory work includes an examination of varied material from all groups of plants supplemented by field trips investigating the local flora. Lectures and three hours of laboratory work each week.

Prerequisite: *Biology 1-2*.

15. *General Physiology*. Fall 1957 and Fall 1958. MR. HUNTINGTON.

A study of the principles of general physiology as shown by the individual cell, the organ system, and the organisms as a whole. Laboratory work illustrates the application of physical and chemical principles to the quantitative study of biological phenomena. Lectures, conferences, and three hours of laboratory work each week.

Prerequisites: *Biology 1-2*, *Chemistry 11-12*, and permission of the Department.

16. *General Physiology*. Spring 1958 and Spring 1959. MR. HUNTINGTON.

Continuation of *Biology 15*.

Prerequisites: *Biology 15*; *Chemistry 33* recommended.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course is designed to introduce subject matter not offered in the regular departmental courses or not elected by some major students; to intensify the study of certain selected areas; to amplify, integrate, and gain perspective on the whole field of Biology; and to provide preparation for the Senior comprehensive examinations. Conducted by means of individual and group conferences as well as seminars, it provides opportunity for writing, presenting, and discussing papers in fields of special interest. A Senior thesis is normally written as an integral part of the work.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to write an honors paper based on original laboratory or field investigation con-

ducted under the supervision of a member of the Department. See page 64 of the college catalogue for a statement of the conditions governing such projects.

300-303. *Special Honors Project*. THE DEPARTMENT.

Students interested in carrying on a special honors project should consult the Department before submitting a plan which should be prepared not later than the end of the first Semester of the Junior year. See page 64 of the catalogue for a statement of the conditions governing such projects.

Chemistry

PRESIDENT COLES; PROFESSOR ROOT; PROFESSOR KAMERLING,
Chairman; ASSISTANT PROFESSOR HIEBERT AND DR. FREY

REQUIREMENTS FOR THE MAJOR IN CHEMISTRY: The required courses consist of *Chemistry* 11-12, 21, 22, 33-34, and 100. In place of the major course and the comprehensive examination, majors in Chemistry may take two courses from *Chemistry* 31, 32, 41, 42, 43, 44, 51, and 52. These are in addition to those normally required for graduation.

*11-12. *General Chemistry*. Offered every year. MESSRS. ROOT, HIEBERT, AND FREY.

An introduction to the facts and theories of chemistry, and their application in industry and everyday life. Lectures, conference, and four hours of laboratory work each week.

21. *Elementary Quantitative Analysis*. Fall 1957 and Fall 1958. MR. ROOT.

An introduction to analytical and physical chemistry. The laboratory work consists of gravimetric and volumetric analysis and some work in instrumental analysis. Lectures, conference, and six hours of laboratory work a week.

Prerequisite: *Chemistry* 11-12. Men who have had an equivalent course in high school, or who have had *Physics* 11-12, may be admitted with the consent of the instructor.

22. *Continuation of Course 21*. Spring 1958 and Spring 1959. MR. ROOT.

Prerequisite: *Course 21*.

31. *Physical Chemistry*. Fall 1957 and Fall 1958. PRESIDENT COLES AND MR. HIEBERT.

A study of the structure of atoms and molecules; the solid,

gaseous, and liquid state; chemical thermodynamics including equilibrium, electro-chemistry, and the phase rule; chemical kinetics. Lectures and three hours of laboratory work a week.

Prerequisites: *Chemistry* 21, 22, *Mathematics* 11, 12, and *Physics* 11-12 (this may be taken concurrently).

32. *Continuation of Course 31.* Spring 1958 and Spring 1959. PRESIDENT COLES AND MR. HIEBERT.

Prerequisite: *Chemistry* 31.

- *33-34. *Elementary Organic Chemistry.* Offered every year. MESSRS. KAMERLING AND HIEBERT.

An introduction to the chemistry of the compounds of carbon. This course forms a foundation for further work in organic chemistry and biochemistry. Lectures, conference, and six hours of laboratory work a week.

Prerequisite: *Chemistry* 11-12.

41. *Advanced Inorganic Chemistry.* Fall 1957 and Fall 1958. MR. FREY.

Topics to be considered include the extra-nuclear structure of the atom, the chemical bond, the nature and reactions of inorganic compounds.

Prerequisite: *Chemistry* 21, 22.

42. *Topics in Advanced Analytical Chemistry.* Spring 1958 and Spring 1959. MR. FREY.

Problems that involve a variety of advanced laboratory procedures such as glass blowing, high vacuum technique, semi-micro combustion, chromatography; and the use of such instruments as the spectrograph, the polarograph, and ultra-violet photometer.

Prerequisite: *Chemistry* 21, 22.

43. *Qualitative Organic Analysis.* Fall 1958. MR. KAMERLING.

This course is intended for students desiring further laboratory work in organic chemistry.

Prerequisite: *Chemistry* 33-34.

44. *Advanced Organic Chemistry.* Spring 1958 and Spring 1959. MR. KAMERLING.

Emphasis will be placed on the chemistry of some compounds manufactured by plants and animals such as carbohydrates, fats, proteins, vitamins, hormones, and enzymes.

Prerequisites: *Chemistry* 21, 33-34.

51. *Problems in Chemistry*. Fall 1957 and Fall 1958. MEMBERS OF THE DEPARTMENT.

Original laboratory investigations. Open by permission of the Department to major students with adequate training.

52. *Continuation of Course 51*. Spring 1958 and Spring 1959. MEMBERS OF THE DEPARTMENT.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least six seminars or conferences in each Semester of the Junior and Senior years. The major work will include readings in the history of chemistry and in the use of chemical literature. A term paper will be required in each of the four Semesters. A comprehensive examination will be given at the end of the Senior year.

Men substituting two extra courses for the major course will be expected to attend the seminars and conferences, but will not be required to write term papers or take the comprehensive examination.

200. *The Honors Paper*. Spring Semester of the Senior year. THE DEPARTMENT.

Candidates for Honors are required to write an Honors Paper under the direction of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

Men who are taking *Chemistry 51* may submit a report of their experimental work as an Honors Paper, instead of papers based on library work.

- 300-303. *Special Honors Project*. The Senior year. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Classics

PROFESSOR DANE, *Chairman*; AND ASSISTANT PROFESSOR HERBERT

REQUIREMENTS FOR THE MAJOR IN CLASSICS, GREEK, OR LATIN: A major in Classics consists of eight units to be chosen equally from

the departmental offerings in Greek and Latin, except *Greek 1* and *Latin 1*. A major in Greek consists of any six units in Greek, except *Greek 1*. (It is to be noted that *Greek 5* and *6* may be repeated for credit with contents changed.) A major in Latin consists of any six units in Latin except *Latin 1*. (It is to be noted that *Latin 7* and *8* may be repeated for credit with contents changed.) In addition all majors are required to take the major course, *Classics 100*. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors, see pages 62-65.

12. *Classical Literature in Translation*. Spring 1957. MR. HERBERT.
Spring 1958. MR. DANE.

The main outlines and developments of the literatures of Greece and Rome are presented, and readings include reputable translations of many complete works. No knowledge of the Greek or Latin languages is required.

Greek

1. *Elementary Greek*. Offered every Fall. MR. HERBERT.

The fundamentals of accidence and syntax are stressed, but as the course progresses the student will read simple passages from Homer, Euripides, Plato, Demosthenes and others. These representative selections will give the student a basic understanding of Greek sentence structure and will also afford an insight into the nature and ideals of Greek culture. A fourth hour each week will be devoted to sight reading and vocabulary building.

2. *Greek Philosophy*. Offered every Spring. MR. HERBERT.

Plato's *Apology*, *Crito*, and *Phaedo* will be read in a text which alternates between the Greek and the English. This method eliminates the more difficult Greek passages, and enables the student both to follow the argument and to complete and understand these dialogues. By this means the student is at once introduced to the greatest of the Greek prose stylists, and is further advanced in his mastery of Greek syntax and idiom. Except for occasional lectures on the historical background and the problems dealt with in the dialogues, the class periods will be devoted solely to the reading of the Greek. The English passages of the text will be read as part of the assignments outside of class.

3. *Greek Tragedy*. Offered every Fall. MR. HERBERT.

As a minimum the *Medea* or *Alcestis* of Euripides and selec-

tions from the *Oedipus Rex* of Sophocles will be read. Occasional lectures will discuss the themes and times of the three great Attic dramatists and some modern imitations of them.

Prerequisite: *Greek 2*.

4. *Greek History*. Offered every Spring. MR. HERBERT.

As a minimum the course will include selections from Herodotus (e.g., the Solon-Croesus episode and the battle of Salamis), Thucydides (e.g., the Funeral Oration of Pericles, the great plague at Athens, and the departure of the Athenian Armada for Sicily), and Xenophon (e.g., the breakthrough of the Greek Army to the sea). Occasional lectures will relate these passages to the outlook of the writers and to the course of fifth-century history, an age with many striking similarities to our own.

Prerequisite: *Greek 3*.

5. *Selected Greek Authors*. Offered every Fall. MR. HERBERT.

The course is designed to meet the needs of advanced students in Greek Literature. The contents and the choice of readings are changed each year. In general, selection of material concentrates each Semester on a central *genre* with extensive readings from representative authors in such fields as (a) Drama (Aeschylus, Sophocles, Euripides, Aristophanes); (b) History (Herodotus, Thucydides); (c) Philosophy (Plato, Aristotle); (d) Poetry (Pindar, Theocritus); (e) Oratory (Demosthenes, Lysias); and (f) Epic poetry (Homer, Hesiod, Apollonius of Rhodes). *The course may be repeated for credit with contents changed.* *Greek 5 and 6 may count toward fulfillment of the Literature Requirement.*

Prerequisite: *Greek 4*.

6. *Selected Greek Authors*. Offered every Spring. MR. DANE OR MR. HERBERT.

See description under *Greek 5* above.

Prerequisite: *Greek 4*.

Latin

1. *Elementary Latin*. Offered every Spring. MR. DANE.

A thorough presentation of the elements of grammar and syntax designed to develop a reading ability from the outset. One additional laboratory hour per week is devoted to sight reading and vocabulary building.

3. *Cicero*. Offered every Fall. MR. DANE.

Readings in the *Orations* and a philosophical essay. Particular attention is devoted to the institutions and history of the Roman Republic.

Prerequisite: *Latin* 1 or two years of secondary school Latin.

4. *Vergil*. Offered every Spring. MR. DANE.

Selections from the *Aeneid*. The course includes an introduction to the structure of Latin Poetry. Additional study is devoted to the entire *Aeneid* and the rise of the Roman Empire.

Prerequisite: *Latin* 3, or three years of secondary school Latin.

5. *Latin Lyric Poetry*. Offered every Fall. MR. DANE.

The course serves as an introduction to the reading and appreciation of Latin lyric poetry of the Late Republic and Early Empire through a concentrated study of the poems of Catullus and the *Odes* of Horace. Particular attention is given to analysis and oral reading of the commonest lyric meters. *Latin* 5, 7, and 8 may count toward fulfillment of the Literature Requirement.

Prerequisite: *Latin* 4, or its equivalent in secondary school Latin.

7. *Selected Latin Authors*. Offered every Fall. MR. DANE.

The course is designed to meet the needs of advanced students in Latin Literature. The contents and the choice of readings are changed every year. In general, selection of material concentrates each Semester on a central *genre* with extensive readings from representative authors in such fields as (a) Satire and Epigram (Horace, Juvenal, Martial); (b) Drama (Plautus, Terence); (c) Philosophy (Lucretius, Cicero); (d) History (Livy, Tacitus); (e) Elegy (Tibullus, Propertius, Ovid); and (f) Medieval Latin. *The course may be repeated for credit with contents changed.*

Prerequisite: *Latin* 5.

8. *Selected Latin Authors*. Offered every Spring. MR. DANE OR MR. HERBERT.

See description under *Latin* 7 above.

Prerequisite: *Latin* 5.

Above: *The climax of the dramatic season each year is the Shakespearean → production by the Masque and Gown which has presented twenty-one different Shakespeare plays, one as many as seven times.*

Below: *The final scene of the Masque and Gown production of BILLY BUDD in the Pickard Theater in Memorial Hall.*

The Major Program

100. *The Major Course.* Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least four seminars or conferences in each of the last four Semesters. These monthly meetings are planned to supplement the work done in courses by helping the student gain a coördinated knowledge not only of the literatures of Greece and Rome, but also a concept of the achievements of Classical Civilization as a whole. Short critical essays on selected themes will be prepared, delivered, and discussed by the students at the major meetings. In addition, a student will be required to master one major author or major work for an examination at the end of the fourth Semester of the major program.

200. *The Honors Paper.* Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

300-303. *Special Honors Project.* THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Economics

PROFESSOR ABRAHAMSON, *Chairman*; PROFESSOR BROWN; ASSOCIATE PROFESSORS STORER AND DARLING; ASSISTANT PROFESSOR PONTECORVO; AND MR. SHIPMAN

REQUIREMENTS FOR THE MAJOR IN ECONOMICS: A major consists of *Economics* 1-2, 13, 17, and two other units approved by the Department. *Economics* 11 may not be offered without *Economics* 12. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors in Economics, see pages 62-65.

*1-2. *Principles of Economics.* Offered every year. THE DEPARTMENT.

A study of fundamental economic concepts and institu-

← Above: Robert Frost, Litt.D., (1925) discusses contemporary poetry with a group of undergraduates following a public lecture in Pickard Theater.

Below: Students majoring in political science work with their teachers in studying problems in state and municipal government.

tions, with applications to important public policies and problems.

Economics 1-2 is a prerequisite for all advanced courses in the Department.

3. *Money and Banking*. Fall 1957 and Fall 1958. MR. DARLING.

The general principles of money and banking, with application to important current problems in this field.

Prerequisite: *Economics 1-2*.

4. *Economic Fluctuations*. Spring 1959. MR. PONTECORVO.

An analysis of the nature, causes, and social effects of long and short-run changes in the level of economic activity, with special attention to the regional problems of New England.

Prerequisite: *Economics 1-2*.

- [5. *Marketing*.]

A study of the processes relating to the exchange of economic goods, taking into consideration the points of view of producers, middlemen, and consumers.

Prerequisite: *Economics 1-2*.

6. *Public Finance*. Spring 1958. MR. BROWN.

The problems of local, state, and federal revenue and expenditure from a social as well as from a fiscal viewpoint.

Prerequisite: *Economics 1-2*.

7. *Statistics*. Spring 1958 and Spring 1960. MR. PONTECORVO.

An introduction to statistical methods, with major reference to those techniques which are used in the analysis of economic data. Laboratory work two hours a week.

Prerequisites: *Economics 1-2*; *Mathematics 14*, or the consent of the instructor.

8. *Economic History*. Spring 1958 and Spring 1960. MR. PONTECORVO.

A survey of the development of the economic institutions of the Western world. Emphasis will be on the problems of economic growth and development, and special attention will be paid to the development of commerce and industry, resource patterns, agriculture, and technological change.

Prerequisite: *Economics 1-2*.

10. *Labor Economics*. Spring 1958 and Spring 1959. MR. ABRAHAMSON.

The problems of unemployment, hours of labor, wages,

unionism, and collective bargaining are considered from the viewpoints of labor, management, and the public.

Prerequisite: *Economics* 1-2.

11. *Principles of Accounting*. Fall 1957 and Fall 1958. MR. BROWN.

This course aims to acquaint the student with accounting analysis as an important working tool for the business executive and the public administrator. After a brief survey of double-entry bookkeeping, consideration is given to such subjects as the preparation and interpretation of financial statements, the nature of income, the valuation of assets, depreciation, and reserves.

Prerequisite: *Economics* 1-2.

12. *Continuation of Course 11*. Spring 1958 and Spring 1959. MR. BROWN.

Prerequisite: *Economics* 11.

13. *Development of Economic Theory*. Spring 1958 and Spring 1959. MR. STORER.

A comparative study of the ideas of different writers with consideration given to the historical development of economic thought. This course is required of seniors majoring in Economics and is recommended to students intending to pursue graduate study in the social sciences.

Prerequisite: *Economics* 1-2.

14. *International Economic Problems*. Fall 1957 and Fall 1958. MR. STORER.

A study of the theory and practice of foreign trade, foreign exchange, international movements of capital, and governmental policies with regard to international economic affairs generally.

Prerequisite: *Economics* 1-2.

15. *Economics of Public Regulation*. Fall 1957 and Fall 1958. MR. ABRAHAMSON.

The economic origins and consequences of the public control of economic activity. Primary attention is given to the problems of public policy in the fields of antitrust, agriculture, public utilities, transportation, conservation of natural resources, atomic energy, and the economics of war and defense.

Prerequisite: *Economics* 1-2.

16. *Industrial Organization*. Fall 1957 and Fall 1958. MR. STORER.

A study of American business enterprise and its structure. The interrelationships of firms and industries will be analyzed; and their price, production, and market policies under varying degrees of competition will be considered.

Prerequisites: *Economics* 1-2.

17. *Contemporary Economic Theory*. Fall 1957 and Fall 1958. MR. PONTECORVO.

A consideration of the major theoretical concepts used in the analysis of current economic problems. The material in this course is at the level of intermediate economic theory and will provide a theoretical background for much of the analysis in the several applied fields of Economics. This course is required of juniors majoring in Economics.

Prerequisite: *Economics* 1-2.

- [18. *Financial Statement Analysis*.]

The interpretation and critical analysis of the financial statements of business enterprises, with applications to credit extension, investments, and public regulation. The case method of instruction is emphasized and each student is required to submit a report upon a selected company.

Prerequisites: *Economics* 1-2 and *Economics* 11.

20. *Corporation Finance*. Spring 1958 and Spring 1959. MR. DARLING.

The financial policies and problems of modern corporate enterprise from the social point of view. Promotion of new enterprises, types of securities, the financing of expansion, failure and reorganization, and government regulation are among the topics considered.

Prerequisite: *Economics* 1-2.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least four seminars or conferences in each of the last four Semesters. These monthly meetings are planned to supplement the work done in courses. Oral and written reports on assigned topics will be required.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to write an honors paper under the tutorial supervision of a member of the De-

partment. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Education

ASSISTANT PROFESSOR HAZELTON, *Chairman*

1. *History of Education*. Fall 1957 and Fall 1958.

A study of education as a social, political, and cultural institution.

Prerequisite: *Psychology* 1, 2, which may be taken concurrently with *Education* 1, 2.

2. *Principles of Secondary Education*. Spring 1958.

A survey of the structure, the policies, and the practices of secondary education.

Prerequisite: *Education* 1.

3. *Educational Psychology*. Fall 1957 and Spring 1959. MR. RUSSELL OF THE DEPARTMENT OF PSYCHOLOGY.

An analysis of psychological facts and principles basic to the educational process. The course covers such topics as adolescent development, intelligence, motivation, learning, educational measurement, counseling and problems of special education. These are considered primarily in relation to the work of the secondary school teacher.

Prerequisite: *Psychology* 1 or *Education* 1.

[4. *Responsibilities of the New England High School Principal*.]

A study of the responsibilities and accomplishments of the modern high school executive.

6. *Teaching*. Fall 1957 and Spring 1959.

A study of the profession of teaching and the qualities and methods of teachers. Part of the work of the course will consist of observation in secondary schools.

Prerequisite: *Education* 1, 2, 3, or consent of the instructor.

NOTE: Undergraduates who expect to become teachers should make their interest known to Mr. Hazelton as early in their college course as possible so that they may be advised in meeting the requirements of the profession.

English

PROFESSOR BROWN, *Chairman*; PROFESSORS QUINBY, THAYER, AND COXE; ASSOCIATE PROFESSOR HALL; ASSISTANT PROFESSORS GREASON, BENJAMIN, AND MINOT; AND MESSRS. APPLEGATE AND LONDON

REQUIREMENTS FOR THE MAJOR IN ENGLISH: A major consists of *English* 13-14, and six units to be chosen from the following courses in English and American literature: *English* 9, 10, 11, 12, 15, 16, 17, 18, 19-20, 21-22, 23, 24, 25-26, 27, 28, 29, and 30. Two units may be chosen from the following courses in literary composition: *English* 8, 31, 32, and 47. For a statement of the rules governing the major course (*English* 100), the choice of a minor, and the requirements for honors in English, see pages 62-65, 89-90.

Composition and Speech

- *1-2. *English Composition*. Offered every year. MESSRS. COXE, HALL, GREASON, BENJAMIN, MINOT, AND APPLEGATE.

A review of the rudiments of written expression, followed by a study of exposition, the short story, the novel, drama, and poetry. Lectures, panel discussions, written themes and exercises, outside reading, and individual conferences.

- *3-4. *Fundamentals of Public Speaking*. Offered every year. MESSRS. THAYER AND LONDON.

Composition and presentation of formal and informal speeches with criticisms by students and instructor.

6. *Advanced Public Speaking*. Fall 1957 and Fall 1958. MESSRS. THAYER AND LONDON.

Preparation and presentation of speeches for special occasions. Individual instruction and recordings for corrective purposes.

5. *Argumentation and Debate*. Spring 1958 and Spring 1959. MESSRS. THAYER AND LONDON.

Persuasive speaking studied through an analysis of examples; practice in parliamentary procedure, committee and panel discussions, and formal argumentation.

7. *English Composition*. Fall 1957 and Fall 1958. MR. GREASON.
Written work on assigned topics; attention focused upon the disciplines of composition, with emphasis upon methods of exposition.
8. *Advanced English Composition*. Spring 1958 and Spring 1959. MR. GREASON.
Study and practice in the more imaginative aspects of composition, with attention to special forms and individual interests.
31. *Literary Composition*. Fall 1958 and Fall 1960. MR. COXE.
The writing of poetry and fiction. Primarily for juniors and seniors.
Prerequisite: consent of the instructor.
32. *Literary Composition*. Spring 1959 and Spring 1961. MR. COXE.
Further practice in the writing of poetry and fiction. Primarily for juniors and seniors.
Prerequisite: consent of the instructor.
47. *Playwriting*. Fall 1957 and Fall 1959. MESSRS. QUINBY AND COXE.
Study and practice in the writing of plays, with emphasis upon the one-act play.

English and American Literature

9. *Introduction to English Literature*. Fall 1957 and Fall 1958. MR. COXE.
An intensive study of Chaucer, Spenser, Bacon, Donne, Milton, Swift, Pope, and one eighteenth-century novelist.
10. *Introduction to English Literature*. Spring 1958 and Spring 1959. MR. COXE.
An intensive study of Johnson, Wordsworth, Keats, Tennyson, Browning, Arnold, Shaw, Yeats, Eliot, and one nineteenth-century novelist.
11. *The English Novel*. Fall 1957 and Fall 1959. MR. BROWN.
Lectures and readings covering the development of English fiction, with special attention to the changing patterns of the novel, and to social and intellectual backgrounds: Richardson, Fielding, Austen, and Scott.
12. *The English Novel*. Spring 1958 and Spring 1960. MR. BROWN.

Lectures and readings in English fiction of the nineteenth century: Dickens, Eliot, Meredith, James, and Hardy.

*13-14. *Shakespeare*. Offered every year. MR. BROWN.

An intensive study of Shakespeare's principal comedies, tragedies, and history plays. Lectures, conferences, and critical papers.

Required of students majoring in English.

15. *English Literature of the Renaissance*. Fall 1957 and Fall 1959. MR. BENJAMIN.

A critical study of the literature of the English Renaissance. Emphasis will be mainly upon Elizabethan writers: Sidney, Spenser, Raleigh, and the sonneteers.

16. *English Literature of the Renaissance*. Spring 1958 and Spring 1960. MR. BENJAMIN.

A critical study of the literature of the seventeenth century: the metaphysical and Cavalier poets; Milton, Dryden; representative prose writers.

17. *Eighteenth-Century Poetry and Prose: 1700-1750*. Fall 1958 and Fall 1960. MR. GREASON.

A study of neo-classical values and eighteenth-century life as reflected in the writers of this period. Emphasis upon Addison, Pope, and Swift.

18. *Eighteenth-Century Poetry and Prose: 1750-1800*. Spring 1959 and Spring 1961. MR. GREASON.

A study of eighteenth-century life and the decline of neo-classical values during this period. Emphasis upon Johnson and his circle; Burns and Blake.

*19-20. *Nineteenth-Century Poetry and Prose*. Fall 1958 and Spring 1959. Offered every other year. MR. HALL.

A critical study of the Romantic Movement (1760-1832), with special attention to Wordsworth, Coleridge, Byron, Shelley, and Keats.

*21-22. *Chaucer*. Fall 1958 and Spring 1959. Offered every other year. MR. BENJAMIN.

Practice in the oral reading of Chaucer's verse; study of the *Canterbury Tales*, the *Prologue*, and all the connecting links; *Troilus and Criseyde*; and a more rapid reading of Chaucer's contemporaries and followers until the sixteenth century.

23. *The Drama*. Fall 1958 and Fall 1960. MR. QUINBY.

A study of the outstanding plays of English dramatists, excluding Shakespeare, from medieval times through the eighteenth century.

24. *Nineteenth and Twentieth-Century Drama*. Spring 1959 and Spring 1961. MR. QUINBY.

A study of the most important plays written in English in the nineteenth and twentieth centuries.

- *25-26. *American Literature*. Offered every year. MR. BROWN.

A critical survey of American literature from the beginning to the present time. Lectures and readings in the Fall Semester will cover the periods from the Puritan Age to the Civil War; the Spring Semester will be devoted to major writers from the Civil War to 1950.

27. *Twentieth-Century English and American Literature*. Fall 1957 and Fall 1959. MR. HALL.

Lectures and readings covering some forerunners of the modern schools and the most important works of a considerable number of contemporaries.

28. *Twentieth-Century English and American Literature*. Spring 1958 and Spring 1960. MR. HALL.

Further lectures and readings in twentieth-century literature, with emphasis upon the works of contemporary writers.

29. *Literary Criticism: Types*. Fall 1958 and Fall 1960. MR. HALL.

Description and illustration of the various types of literary criticism and consideration of basic theories; some problems of contemporary criticism; practice in the art of criticism.

Prerequisite: consent of the instructor.

30. *Literary Criticism: History*. Spring 1959 and Spring 1961. MR. HALL.

The foundation of criticism in the classics; outline of critical theory to the present time; continued practice in the art of criticism.

Prerequisite: consent of the instructor.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least four seminars or

conferences in each of the last four Semesters. These monthly meetings are planned to supplement the work done in courses by helping students to achieve a reasonably coördinated knowledge of the history of English and American literature, to gain some acquaintance with the most important works of representative authors, and to attain a critical intimacy with their significant writings. A critical essay upon an author chosen by the student will be required in each of the four Semesters of the major course.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

A candidate for honors is required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Geology

ASSISTANT PROFESSOR BODINE, *Chairman*

Students contemplating graduate work in Geology should plan a major program in Chemistry or Physics and take *Geology* 1-2, 3, 4, 5, and 6. By the end of the Sophomore year the following courses should be completed: *Mathematics* 11, 12, *Physics* 11-12, *Chemistry* 11-12, and *Geology* 1-2.

*1-2. *Introduction to Physical and Historical Geology*. Offered every year.

The Fall Semester will be devoted to an introduction to the materials and processes composing and affecting the earth's crust, and the methods by which they are studied. Laboratory work will emphasize the recognition of common rocks and minerals, and the interpretation of geologic and topographic maps.

The Spring Semester will be given to a study of the physi-

cal and organic history of the crust of the earth. Problems of origin, age, and development of the earth and evolution of living organisms will be discussed. Laboratory work will emphasize paleogeography and the study of ancient life by means of fossils.

3. *Crystallography and Mineralogy*. Fall 1957 and Fall 1959.

The elements of morphological crystallography and crystal chemistry will be presented. The common economic and rock forming minerals will be discussed in terms of physical and chemical properties, origin, associations, uses, and principal localities. Laboratory work will emphasize mineral determinative techniques.

Prerequisites: *Chemistry* 11-12 and *Geology* 1-2.

4. *Optical Mineralogy and Petrography*. Spring 1958 and Spring 1960.

An introduction to the classification, genesis, and description of the common rock-types. Laboratory work will include the theory and practical use of the petrographic microscope in mineral and rock description.

Prerequisite: *Geology* 3.

5. *Structural Geology*. Fall 1958 and Fall 1960.

An introduction to the primary and secondary structures of rocks, and the interpretation of crustal movements from these features.

Prerequisite: *Geology* 2.

6. *Economic Geology*. Spring 1959 and Spring 1961.

A survey of the origin, geologic setting, location, and economic importance of the major mineral fuels, non-metallic, and metallic mineral deposits. The mineral resources of North America will be emphasized.

Prerequisite: *Geology* 5.

German

PROFESSOR KOELLN, *Chairman*; PROFESSOR RILEY, MESSRS. BATCHELDER AND FORSYTHE, AND TEACHING FELLOWS KIECKSEE AND KOEHLER

REQUIREMENTS FOR THE MAJOR IN GERMAN: A major consists of *German* 9-10, *German* 13-14, the major course, and two units from the following: *German* 7, 8, 11, 12. Major students are urged to take

German 5, 6. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors in German, see pages 62-64. Recommended for the minor are courses in European History, English Literature or another European Literature, Religion, European Art, or Philosophy.

*1-2. *Elementary German.* Offered every year. MESSRS. RILEY, BATCHELDER, AND FORSYTHE.

Five class hours a week, three of which will be devoted to training in grammar, composition, and reading. The two remaining periods, restricted to oral-aural training, will be conducted exclusively in German by the native teaching fellows, MESSRS. KIECKSEE AND KOEHLER.

A supervised language laboratory is available to all students in the Department.

*3-4. *Intermediate German.* Offered every year. MESSRS. RILEY AND BATCHELDER.

Four classes a week, three of which will be devoted to reading, composition, and review of grammar. The one remaining period, restricted to oral-aural training, will be conducted exclusively in German by the native teaching fellows, MESSRS. KIECKSEE AND KOEHLER.

Director of the oral-aural program in *German 1-2* and *3-4*: MR. RILEY.

5, 6. *German Conversation and Composition.* Offered every year. MR. KOELLN.

A course designed to teach a student to express himself in oral and written German and to understand the spoken language.

Prerequisite: *German 3-4.*

7. *German Literature of the Nineteenth Century.* Fall 1958. MR. KOELLN.

A study of the best elements of German Realism and Naturalism. Reading of lyric poetry, plays, and short stories.

8. *Continuation of Course 7.* Spring 1959.

Prerequisite: *German 3-4.*

9. *A Survey of German Literature.* Fall 1957. MR. RILEY. Fall 1958. MR. BATCHELDER.

A rapid survey of German literature and civilization from the earliest times to the middle of the eighteenth century;

more detailed study of the period from 1748 to modern times.
Reading of lyric poetry, plays, and short stories.

Prerequisite: *German 3-4*.

10. *Continuation of Course 9*. Spring 1958. MR. RILEY. Spring 1959. MR. BATCHELDER.

Prerequisite: *German 3-4*.

11. *Schiller*. Fall 1957. MR. KOELLN.

The life, poetry, drama, historical, and philosophical works of Friedrich Schiller. Lectures, readings, and reports.

Prerequisite: *German 3-4* or the consent of the instructor.

12. *The Romantic Movement in Germany*. Spring 1958. MR. KOELLN.

Prerequisite: *German 3-4* or the consent of the instructor.

- 13-14. *Goethe*. Offered every year. MR. KOELLN.

Life and works of Goethe, with special emphasis on *Faust*.

Prerequisite: any other course in German literature.

- [15-16. *Advanced German Composition and Conversation*.]

For especially prepared upperclassmen only.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least four seminars or conferences in each of the last four Semesters. These meetings are planned to supplement the work done in courses by helping students to achieve a reasonably coördinated knowledge of the history of German literature and civilization, and to gain an acquaintance with the most important works of representative authors.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

- 300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring

Semester. See page 64 for a statement of the rules governing special honors projects.

Government and Legal Studies

PROFESSOR DAGGETT, *Chairman*; ASSOCIATE PROFESSOR VOSE;
ASSISTANT PROFESSORS BEARCE AND WALKER; AND MR. COLIE

REQUIREMENTS FOR THE MAJOR IN GOVERNMENT AND LEGAL STUDIES: A major consists of six course units, two of which shall be in the *general field* offered for the major examination and shall be either *Government* 1-2, or 11, 12. The other four shall be in the *special fields* and may be selected from all those offered by the Department other than *Government* 1-2. The minor shall be planned to complement the major. Ordinarily it is selected in a related field such as Economics, History, or Sociology or in a combination such as American History and American Literature. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors, see pages 62-65, 97.

Government

- *1-2. *American Government*. Offered every year. MESSRS. DAGGETT, COLIE, AND WALKER.

A survey of government in the United States; a study of political institutions and governmental problems.

5. *Municipal Government*. Offered every Fall. MR. VOSE.

A study of the social and political factors in the organization, legal position, and powers of local government in both small towns and cities.

Prerequisite: *Government* 1-2, or *Economics* 1-2, or *Sociology* 1-2.

6. *Intergovernmental Relations*. Spring 1958. MR. VOSE.

Modern federalism and the special problems of relations among national, state, local, and special district governments in the United States. Stress on the metropolitan problem.

Prerequisite: *Government* 5.

9. *Public Administration*. Offered every Fall. MR. WALKER.

An introduction to public administration in the modern state. An evaluation of the formal and informal factors which condition the execution of public policy. Attention is focused primarily on American national government.

Prerequisite: *Government* 1-2, or 5, 6, or 11, or *Economics* 15 or the consent of the instructor.

11. *Comparative Government: Democracies*. Offered every Fall. MR. COLIE.

Analysis of the structure and policies of democratic governments other than the United States. The main emphasis is given to Great Britain and France, but the new Asian democracies, India and Japan, will be considered.

12. *Comparative Government: Dictatorships*. Offered every Spring. MR. COLIE.

Major emphasis is placed on the theory and practice of government in Soviet Russia, its satellites, and Communist China. Nazi Germany and Fascist Italy are examined as examples of twentieth-century dictatorships.

13. *Political Parties*. Offered every Fall. MR. VOSE.

A study of American political parties; public opinion and pressure politics.

14. *The Legislative Process*. Spring 1959. MR. WALKER.

A critical study of the policy-making process with attention to various factors shaping legislative policy in American government.

Prerequisite: *Government* 1-2, or 11, or the consent of the instructor.

15. *Problems of World Politics*. Spring 1959. MR. DAGGETT.

An analysis of the position of the leading powers; selected problems illustrating the basic elements of stability and instability in the modern world.

16. *Development of American Political Thought*. Spring 1958. MR. WALKER.

A survey of American political ideas as they developed in the Colonial Period, the Revolution, the Classical Era, Jacksonian Democracy, the slavery controversy, and the main political currents since the Civil War.

Prerequisite: *Government* 1-2, or 11, or *History* 11-12, or 13-14.

- History* 13. *The History of Political Thought in the West from Greek Antiquity to the Reformation*. Offered every Fall. MR. BEARCE.

A survey of political thought as illustrated in the writings of Plato, Aristotle, Polybius, Cicero, St. Augustine, John of

Salisbury, St. Thomas Aquinas, Dante, Marsiglio of Padua, and Machiavelli.

Prerequisite: *History* 1-2, or *Philosophy* 11-12, or 21-22, or *Government* 1-2, or *History* 7, 8.

This course may be offered as a course in either History or Government.

History 14. *The History of Political Thought in the West from the Reformation to the Present Day*. Offered every Spring. MR. BEARCE.

A survey of political thought from the sixteenth century to the present, emphasizing the writings of major political thinkers like Hobbes, Locke, Rousseau, J. S. Mill, and Marx, and giving attention to such topics as the divine right of kings, liberty, democracy, sovereignty, natural law, conservatism, socialism, and fascism.

Prerequisite: As under *History* 13.

This course may be offered as a course in either History or Government.

Legal Studies

*3-4. *American Constitutional Law*. Offered every year. Fall Semester, 1957: MR. DAGGETT; Spring Semester 1958: MR. VOSE.

A study of constitutional principles in the United States. The case method is used in the presentation of material.

Prerequisite: *Government* 1-2. Open to juniors and seniors.

7. *International Law*. Offered every Fall. MR. DAGGETT.

A study of the modern state system, of the rôle of law in its operation, of the principles and practices which have developed, and of the problems involved in their application.

Prerequisite: *Government* 1-2, or 11, 12, or *History* 1-2, or 9, 10.

8. *International Organization*. Spring 1960. MR. DAGGETT.

The development of arbitration and judicial settlement; the League of Nations; the United Nations; and selected agencies such as the International Labor Organization.

Prerequisite: *Government* 7.

10. *Administrative Law*. Spring 1959. MR. VOSE.

A study of the powers of American courts to review administrative decisions, procedures, and practices. The case method will be used in discovering the standards that have resulted.

Varsity teams, popularly known as the Polar Bears, represent Bowdoin in thirteen different sports played with other colleges of Bowdoin's size and interests.

Prerequisite: *Government* 1-2, or *Economics* 15, or the consent of the instructor.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

During the Fall Semester each year the work, which is organized on a two-year cycle, deals with the masterpieces of political writing. In the Spring Semester the Senior work is preparatory for the examination while the Junior reading deals with such concepts of political science as the state, law, sovereignty, and the nature of politics and the political process.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

- 300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

History

PROFESSOR HELMREICH, *Chairman*; PROFESSORS KENDRICK AND KIRKLAND; ASSISTANT PROFESSORS WHITESIDE AND BEARCE, AND MR. AMANN

REQUIREMENTS FOR THE MAJOR IN HISTORY: A major consists of *History* 1-2 and a minimum of six other courses chosen after consultation with members of the Department. For the college regulations governing the choice of minors and requirements for honors see pages 62-65 of this catalogue. For a statement of the history major program and honors work see *Courses* 100, 200, 300-303 below.

- *1-2. *History of Western Civilization from Classical Times to the Present*. Offered every year. MESSRS. HELMREICH AND AMANN.

← *Memorial Hall, completely renovated in 1955, contains a superbly equipped theater and comfortable class rooms and offices.*

A survey of the chief political, economic, religious, intellectual and cultural developments of European society. The first Semester is devoted to the heritage of classical antiquity, the development of the Christian Church, the Saracenic Empire, the feudal system, the beginning of national states, the Renaissance and Reformation. In the second Semester emphasis is laid on the growth of nationalism together with the evolution of present-day political and social systems, the French Revolution, the Industrial Revolution, Imperialism, World War I and the Inter-War Period.

History 1-2 is a prerequisite for most advanced European history courses and is required for all history-major programs.

3. *Political, Cultural, and Intellectual History of Europe in the Classical Period.* Fall 1957 and Fall 1959. MR. BEARCE.

A study of the Classical civilizations of Greece and Rome from the Homeric Age to the late Roman Empire, emphasizing the political development, the economic and social conditions, and the culture of the Classical world.

Prerequisite: *History 1-2*.

4. *Cultural and Intellectual History of Europe in the Middle Ages.* Spring 1958 and Spring 1960. MR. BEARCE.

A study of the intellectual and cultural history of the Middle Ages from the late Roman Empire to the fifteenth century, emphasizing the transmission of classical culture, the development of the medieval church, the growth of education and the universities, the achievements in medieval art, literature, and learning.

Prerequisite: *History 1-2*.

5. *History of Europe from 1500 to 1789.* Fall 1957 and Fall 1958. MR. KENDRICK.

Emphasis is placed on the Renaissance, the Reformation, and the Enlightenment.

Prerequisite: *History 1-2* or *History 7, 8*.

6. *History of the French Revolution and Napoleon.* Spring 1958 and Spring 1959. MR. KENDRICK.

This course will include a survey of the background of the Revolution and will also deal with the influence of the Revolutionary and Napoleonic periods upon Europe.

Prerequisite: *History 1-2* or *History 7, 8*.

7. *History of England from its Origin to the Seventeenth Century.* Fall 1958 and Fall 1960. MR. BEARCE.

A survey of the cultural and intellectual, the political and constitutional, and the social and economic development of England.

8. *History of England from the Seventeenth Century to the Present Day*. Spring 1959 and Spring 1961. MR. BEARCE.

Continuation of *Course 7*, but emphasizing, in addition, the growth of the British Empire.

9. *History of Europe from the Revolutions of 1848 to World War I*. Fall 1958. MR. HELMREICH.

Political and social history of the states of Europe and of their imperialistic expansion, ending in a detailed study of the origins of World War I.

Prerequisite: *History 1-2*, or *History 7, 8*, or *Government 11, 12*.

10. *Recent European History*. Spring 1958 and Spring 1959. MR. HELMREICH.

A rapid survey of World War I and the peace settlements as a background for the study of political and social developments in Europe in the inter-war period, World War II, and current international problems.

Prerequisite: As under *History 9*.

- *11-12. *History of the United States from the Beginnings of Colonial Settlement until the Present*. Offered every year. MR. WHITESIDE.

Although this course gives some attention to economic and social development, chief emphasis is upon political history and upon the factors—class interests, sectional alignments, party development and diplomacy—associated with it. The second Semester is devoted to the period since the Civil War.

13. *The History of Political Thought in the West from Greek Antiquity to the Reformation*. Fall 1957 and Fall 1958. MR. BEARCE.

A survey of political thought as illustrated in the writings of Plato, Aristotle, Polybius, Cicero, St. Augustine, John of Salisbury, St. Thomas Aquinas, Dante, Marsiglio of Padua, and Machiavelli.

Prerequisite: *History 1-2*, or *Philosophy 11-12*, or *Philosophy 21-22*, or *Government 1-2*, or *History 7, 8*.

This course may be offered as a course in either History or Government.

14. *The History of Political Thought in the West from the Reformation to the Present Day*. Spring 1958 and Spring 1959. MR. BEARCE.

A survey of political thought from the sixteenth century to the present, emphasizing the writings of major political thinkers like Hobbes, Locke, Rousseau, J. S. Mill, and Marx, and giving attention to such topics as the divine right of kings, liberty, democracy, sovereignty, natural law, conservatism, socialism, and fascism.

Prerequisite: As under *History* 13.

This course may be offered as a course in either History or Government.

- *15-16. *History of Russia and East Central Europe*. Fall and Spring 1957-1958; 1959-1960. MR. HELMREICH.

A study of the historic origins and development of the peoples of Russia, the Baltic States, Poland, Czechoslovakia, Austria, Hungary, the Balkans and Turkey, ending with an analysis of Russia's present day relations with her satellites.

Prerequisite: *History* 1-2 or 7, 8.

- [*17-18. *Economic and Social History of the United States from the Revolution to 1945*.] MR. KIRKLAND.

An advanced course treating topically and historically such subjects as agriculture, manufacturing, commerce, labor, urban growth, education, religion, and population. A general knowledge of American history, while not a prerequisite, is useful. The second Semester is devoted to the period since 1855.

- [21. *History of the American West*.]

A survey of the various American "wests" from the late colonial period to the present day, with emphasis upon conflicting interpretations of the significance of the frontier in American history. Topics for study include the westward migration, economic adjustment, western political and social patterns, and the West in literature and folklore.

- [22. *American Colonial History, 1492-1783*.]

A study of discovery and early exploration in the western hemisphere, the settlement and development of the British colonies, the evolution of British imperial policy, and of the American Revolution.

- *27-28. *Social and Intellectual History of the United States from the Colonial Period to the Present*. Fall and Spring 1957-1958; 1958-1959. MR. WHITESIDE.

An analysis of historically important social factors and formative ideas: conditions of living, economic problems and adjustments, immigration and internal migration, religion, education, cultural aspirations, and changing attitudes toward the world community are studied with respect to their significance for American development and the American character. Elective for juniors and seniors. A general knowledge of American history is desirable. The second Semester is devoted primarily to the period since 1850.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

During their Junior year all history majors will read a common core of material under the supervision of the members of the Department. During their Senior year they will meet for study with individual members of the Department according to their field of interest and concentration. In addition Junior and Senior majors are expected to attend meetings of the History Club which assembles several times during the year as programs are arranged.

200. *The Honors Paper*. THE DEPARTMENT.

Candidates for honors in history must submit an honors thesis written under the supervision of a member of the Department. A student may be relieved of one of his four regular courses during either Semester of his Senior year to write this thesis, or he may prepare it during his Junior and Senior years while carrying his regular course program. In either case the thesis will be counted for course credit.

- 300-303. *Special Honors Project*. THE DEPARTMENT.

With the approval of the Department and the consent of the Recording Committee students may be released from not more than four courses in their final three Semesters for work on a special research project.

History of the Near East

VISITING PROFESSOR HADDAD

1. *The History and Culture of the Near East*. Fall 1957.

After a short background of Near East history and culture up to the rise of the Islamic-Arab civilization of the Middle

Ages, the course studies the modern history of the Near East and the rôle of the modern Arab and Islamic countries in world affairs and in world civilization.

Elective for juniors and seniors and for sophomores with special permission.

Hygiene

DR. HANLEY

Hygiene. Offered every year in the Fall Semester only.

Lectures on human anatomy, physiology, and personal hygiene. This course will be given informally in a series of illustrated lectures. Hours to be announced.

Required of freshmen who are not taking *Military Science* 11, 12.

Mathematics

PROFESSOR HAMMOND, *Chairman*; PROFESSORS HOLMES, KORGAN, AND CHRISTIE; ASSOCIATE PROFESSOR CHITTIM; MESSRS. MERGENDAHL AND ROBINSON

Students who are qualified to do so should begin their college mathematics with *Course* 11. *Courses* 11, 12, 21, 22, 31, 32 constitute a calculus sequence which should be chosen, in whole or in part, by students of fields of science or engineering which rely heavily upon mathematics. *Courses* 11, 14 make up a first-year program for students of fields in which statistical procedures are important. Such students should consider also *Mathematics* 38 and *Economics* 7 for election in subsequent years. *Mathematics* 15-16 is the introduction to college mathematics for those who have studied the subject for *three years* in high school. It may be followed in the second year by *Mathematics* 12 and 14, and thus provides a belated entrance to the calculus and the statistical sequences for persons who are not prepared to begin with *Course* 11. It must be noted, however, that such persons are under the handicap of not being ready for *Courses* 31, 32 in the Junior year, when these should properly be taken.

THE MAJOR IN MATHEMATICS. Each major student is required to pass an examination in the history of mathematics. He may meet the remaining requirements for the major (1) by completing with acceptable grades *Courses* 11, 12, 21, 22, 31, and *three* others chosen

from *Mathematics* 32, 38, 41, 42, 43, 44, provided that the total number of his college courses is two more than the number required for graduation, or (2) by completing *Courses* 11, 12, 21, 22, 31 and one other chosen from the list above, plus the major course and the comprehensive examination.

11. *Analytic Geometry and Calculus*. Fall 1957 and Fall 1959. MESSRS. KORGEN, CHITTIM, MERGENDAHL, AND ROBINSON.

Elements of analytic geometry; and of differential and integral calculus, with functions of polynomial form.

Elective for students who have offered for admission to college four years of high school mathematics, including trigonometry.

12. *Continuation of Course 11*. Spring 1958 and Spring 1959. MESSRS. HAMMOND, CHITTIM, MERGENDAHL AND ROBINSON.

Calculus with algebraic and transcendental functions.

Prerequisite: *Mathematics* 11 or *Mathematics* 15-16.

14. *Elementary Mathematics of Statistics*. Fall 1957, Spring and Fall 1958, and Spring 1959. MESSRS. KORGEN, CHITTIM, AND ROBINSON.

Mathematical and empirical tables; probability; topics from the mathematical theory of statistics, such as measures of dispersion, curve fitting, statistical correlation, and elementary sampling theory.

Prerequisite: *Mathematics* 11 or *Mathematics* 15-16.

- *15. *Introduction to Modern Mathematics*. Fall 1957 and Fall 1958. MESSRS. KORGEN AND CHITTIM.

Introduction to abstract mathematical thinking through the use of logical symbols; sets, groups, fields, the number system, Boolean algebra. Study of the algebraic and trigonometric functions, of analytic geometry, and of the calculus with polynomials.

Elective for students who have offered for admission to college at least three years of high school mathematics.

16. *Continuation of Course 15*. Spring 1958 and Spring 1959. MR. MERGENDAHL.

21. *Analytic Geometry and Calculus*. Fall 1957 and Fall 1958. MESSRS. HAMMOND AND ROBINSON.

Analytic geometry of three dimensions; more complete treatment of calculus than *Mathematics* 11, 12, including in-

finite series, partial differentiation, multiple integration, and elementary differential equations.

Prerequisite: *Mathematics* 11, 12.

22. *Continuation of Course 21.* Spring 1958 and Spring 1959. MESSRS. HAMMOND AND ROBINSON.

Prerequisite: *Mathematics* 21.

- 21P. (*Physics* 21.) *Vector Mechanics and Vector Analysis.* Fall 1957 and Fall 1958. MR. CHRISTIE.

The algebra of vectors with applications to solid analytic geometry; statics, kinematics, and dynamics, vectorially treated; line integral, directional derivative, gradient, divergence, and curl; applications to physics and engineering.

Prerequisite: *Mathematics* 11, 12.

- 22P. (*Physics* 22.) *Continuation of Course 21P.* Spring 1958 and Spring 1959. MR. CHRISTIE.

Prerequisite: *Physics* 21.

23. *Algebra.* Spring 1958 and Spring 1959. MR. CHITTIM.

Real and complex numbers, theory of equations, matrices and determinants, elements of formal logic.

Prerequisite: *Mathematics* 11, or *Mathematics* 15-16.

31. *Advanced Calculus.* Fall 1957 and Fall 1958. MR. CHITTIM.

Fourier series and integrals, the Laplace transformation, partial differential equations, Bessel and other special functions.

Prerequisite: *Mathematics* 21, 22.

32. *Functions of a Complex Variable.* Spring 1958. MR. CHITTIM. Spring 1959. MR. KORGAN.

Analytic functions of a complex variable, differentiation and integration in the complex plane, theory of residues, conformal mapping.

Prerequisite: *Mathematics* 31.

33. *Modern Synthetic Geometry.* Fall 1957 and Fall 1959. MR. HAMMOND.

Properties of triangles and circles, homothetic transformations, the nine-point circle, Simson line, harmonic section, Menelaus' and Ceva's theorems.

Prerequisite: *Mathematics* 21, 22, or the consent of the instructor.

34. *Continuation of Course 33*. Spring 1958 and Spring 1960. MR. HAMMOND.

Harmonic properties of circles, inversion, and an introduction to non-Euclidean geometry.

Prerequisite: *Mathematics 33*.

38. *Advanced Mathematics of Statistics*. Spring 1959. MR. KORGEN.

Theory of sampling, calculus of finite differences, multiple and partial correlation, advanced probability theory, series and functions of actuarial mathematics, numerical analysis useful for data processing by modern high-speed devices.

Prerequisite: *Mathematics 14 and 21*.

41. *Mathematical Analysis*. Fall 1957. MR. KORGEN. Fall 1959. MR. HOLMES.

Logical foundations of the calculus, elementary theory of functions of real variables.

Prerequisite: *Mathematics 31, 32*; or with the consent of the instructor, concurrently with *Mathematics 31*.

42. *Modern Abstract Algebra*. Spring 1958. MR. CHRISTIE.

Groups, rings, fields, vector spaces and matrices, classification of quadratic forms.

Prerequisite: *Mathematics 21, 22*.

43. *Analytic Geometry*. Fall 1958 and Fall 1960. MR. HAMMOND.

Homogeneous coördinates, metric and projective treatment of conics and quadrics, general theory of curves, including Plücker's equations, cubic curves.

Prerequisite: *Mathematics 31*; or with the consent of the instructor, concurrently with *Mathematics 31*.

44. *Continuation of Course 43*. Spring 1959 and Spring 1961. MR. HAMMOND.

Prerequisite: *Mathematics 43*.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The course will emphasize material not covered by the regular courses. There will be six meetings in each of the last four Semesters, and a substantial amount of written work will be required. The major course and the general examination for which it is in part a preparation are designed to give the student a comprehensive view of the field of his college mathematics.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

- 300-303. *Special Honors Project*. THE DEPARTMENT.

A student who desires to engage in a special honors project should submit his plan to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Military Science and Tactics

LIEUTENANT COLONEL McCULLER, CAPTAINS FLATHER AND LEAHEY,
FIRST LIEUTENANT JOHNS, MASTER SERGEANT DOGETT

- * 11-12. *First Year Basic Course*. Offered every year.

Organization of the Army and ROTC (5 hours). Individual Weapons and Marksmanship: To give the student a practical working knowledge of individual weapons currently used in the Army (25 hours). American Military History: To demonstrate the principles of the art of warfare to furnish a basis for motivation and understanding of responsibilities of a future reserve officer. Each student is required to submit a report on some aspect of American Military History (30 hours). Leadership, Drill, and Command: Leadership development through progressive training in the school of the soldier. This phase of military science continues in steps of increasing responsibility through the entire four-year program (30 hours).

- * 21-22. *Second Year Basic Course*. Offered every year.

Map and Aerial Photography Reading: To make the student proficient in use of maps and aerial photographs. This knowledge is required for an understanding of the principles taught in subsequent courses (20 hours). Crew Served Weapons and Gunnery: To familiarize the student with all types of infantry crew-served weapons in use by the Army and with the Browning automatic rifle. Students are taught fire-power potential, gunnery principles, and fire control methods, and

the system of employment of these weapons by the United States Army (40 hours). Leadership, Drill, and Command (30 hours).

Prerequisite: *Military Science* 11-12, or credit for prior military training or service.

31. *First Year Advanced Course*. Offered every Fall.

Organization, Functions and Missions of the Combat Arms, Technical and Administrative Services: To supply sufficient background information on the various branches of the arms and services to assist the student in selecting the branch of service in which he desires to be commissioned (30 hours). Military Teaching Methods: Exemplified by practical work in first-aid and military sanitation and rifle marksmanship (20 hours). Leadership, Drill, and Command: Special emphasis on the individual as an effective leader in addition to regular participation in group leadership, and progressive training in school of the soldier (25 hours).

Prerequisite: *Military Science* 21-22, or credit for prior military training or service.

32. *Continuation of Course 31*. Offered every Spring.

Small Unit Tactics and Communications: Principles and fundamentals of small unit tactics to prepare students for advanced tactical studies; principles of communications and communications systems used in the infantry division (60 hours). Leadership, Drill, and Command (15 hours).

Prerequisite: *Military Science* 31.

ROTC SUMMER CAMP: Summer 1958 and 1959. Students enrolled in the Advanced Course are required to attend a summer camp of six weeks duration, normally upon completion of MS 32. Camp training is essentially of the individual and unit type, with the student receiving experience in the performance of tactical, technical and administrative duties in the field. Intensive training will be conducted with emphasis on the development of leadership and the student's capability to function effectively in small unit combat operations. Camp is conducted at and supported by a major military installation; exact location will be announced.

41. *Second Year Advanced Course*. Offered every Fall.

Command and Staff (10 hours). Estimate of the Situation and Combat Orders (7 hours). Military Intelligence (8 hours).

The Military Team (25 hours). Training Management (5 hours). Troop Movements (5 hours). These subjects provide an understanding of military staff organization and operation. Leadership, Drill, and Command (15 hours).

Prerequisite: *Military Science* 31 and 32.

42. *Continuation of Course 41.* Offered every Spring.

Supply and Evacuation (10 hours) and Motor Transportation (5 hours): These courses furnish fundamental knowledge of small unit logistics. Military Administration (10 hours). Military Justice (15 hours). Service Orientation: This course prepares the future officer for active service by an orientation on geographical and economic factors, their influence on the division of peoples into nations and the courses of war; on the responsibilities of a leader; and on service life (20 hours). Leadership, Drill, and Command (15 hours).

Prerequisite: *Military Science* 41.

Music

PROFESSOR TILLOTSON, *Chairman*; AND ASSISTANT PROFESSOR
BECKWITH

REQUIREMENTS FOR THE MAJOR IN MUSIC: A major in Music consists of *Music* 1-2 (required but not credited toward the major); four units in Theory (*Music* 11-12, and 13-14); two units in the History of Music, one of which must be *Music* 3; the second unit must be either *Music* 4 or 5; two units in the Development of Style (*Music* 21-22); and two units concerned with Special Topics (*Music* 23-24). A prerequisite for all majors in Music is an elementary ability in piano playing.

Students anticipating a major in Music should elect *Music* 1-2 (Materials and Forms) and *Music* 11-12 (Harmony) in their Sophomore year because the major program in Junior year is based upon the first of these courses, and *Music* 11-12 is a prerequisite for *Music* 13-14. The major work in Senior year is dependent upon all these courses. Mindful of the sequential nature of the courses, majors in Music should follow the following time pattern: *Music* 1-2, 11-12 (Sophomore year); *Music* 13-14 and two units in the History of Music (Junior year); and *Music* 21-22 and 23-24 (Senior year).

For a statement of the rules governing the major course, the choice of minors, and the requirements for honors in Music, see pages 62-65.

Courses 1-6 provide surveys of the materials and formal structure of music and of musical history; no previous musical training is required. Open to all sophomores and upper-classmen, these courses are recommended for those who do not wish to extend their studies into the various fields of musical theory.

Courses 11-24 are technical; they are offered for students majoring in Music and for students who wish to study musical theory.

- *1-2. *Listening to Music*. Offered every year. MR. TILLOTSON.

Although this course is devised for students without musical backgrounds, it is also valuable for others as a means of widening their horizons. The ability to read music or to play an instrument is not necessary. Scores are used, but the ability to read them is acquired by class practice. The course treats Music as a means of communication, and hence as a "language" through which the student may arrive at the meaning of Music. Tone-color, rhythm, melody, and harmony are studied by listening to Music, after which the principal forms are studied. The course begins with Bach and is confined to masterpieces and composers from 1685 through the contemporary period. Sound films, slides, and microfilms of scores form an integral part of the course.

3. *Music of the Middle Ages through the Golden Age of Polyphony: A.D. 400-1600*. Fall 1958. MR. BECKWITH.

No prerequisite or musical training necessary. *Music* 3, 4 will be offered to alternate with *Music* 5, 6.

4. *Music of the Basso Continuo Period through the Classical Period*. Spring 1959. MR. BECKWITH.

This course covers the beginnings of opera, the period of Bach and Handel, and that of Mozart, Haydn, and Beethoven.

No prerequisite or musical training necessary.

5. *Music of the Romantic Period*. Fall 1957. MR. BECKWITH.

The period from Schubert through Wagner and the post-romantics.

No prerequisite or musical training necessary.

6. *Impressionism and the Modern Period*. Spring 1958. MR. BECKWITH.

No prerequisite or musical training required.

- *11-12. *Elementary Harmony*. Offered every year. MR. BECKWITH.

A technical course in the conventional chord structure and harmonic progression of the period of common practice of the eighteenth century. Exercises in four-part writing, harmonic analysis, keyboard harmony, and ear-training.

Prerequisite: The ability to read music, and an elementary knowledge of piano playing. Students should consult the instructor before registration.

- *13-14. *Advanced Harmony and Counterpoint*. Offered every year. MR. BECKWITH.

A continuation of *Music 11-12*, extending the study of chord structure into nineteenth-century chromaticism, together with introductory tonal counterpoint. Original composition will be encouraged whenever possible. The course will include further study of tonal counterpoint, including canon, invention, and fugue. Introduction to modal counterpoint.

- *21-22. *The Development of Musical Style: 1000-1750*. Offered every year. MR. BECKWITH.

A course planned primarily for majors in music in their Senior year. A limited number of works, each characteristic of its period and type, will be analyzed in detail, with special attention to the significance of each work in the development of the technique of composition. In so far as possible, the works studied will be performed in class by members of the course. Students should consult the instructor before registration.

- *23-24. *Special Topics*. Offered every year. MR. TILLOTSON.

A course designed to provide a more thorough acquaintance with topics not treated comprehensively in other courses offered by the Department. The problems studied will be selected to meet the needs of individual students.

Offered only to majors in Music in their Senior year. Students should consult the instructor before registration.

The Major Program

100. *The Major Course*. Junior and Senior years. MR. TILLOTSON.

In Junior year the major course will consist of semi-monthly meetings based upon *Music 1-2*. In the event a student does not decide to major in Music until his Junior year and thereby fails to elect *Music 1-2* and *11-12* in his Sophomore year, he

must be prepared to double his course load in Music during the last two years.

In Senior year the major course will consist of weekly seminars devoted to the History of Music. The work will be based upon *Music* 3, 4, 5, or 6, supplemented by collateral reading in the periods not covered by courses.

200. *The Honors Paper*. Spring Semester in the Senior year. MR. TILLOTSON AND MR. BECKWITH.

Candidates for honors are required to write an honors paper under tutorial supervision on either a detailed formal, stylistic and technical analysis of a major composition, or an essay on some aspect of the history of music. A definitive plan for this work must be presented by the student, approved by the Department and filed in the Dean's Office by December 1 of the Senior year.

- 300-303. *Special Honors Project*. MR. TILLOTSON AND MR. BECKWITH.

Students majoring in music may offer a recital as an honors project, if in the opinion of the Department this offering promises to be of high artistic calibre. The recital must be accompanied by adequate program notes and an essay on the historical, stylistic and formal aspects of the program.

Philosophy

ASSOCIATE PROFESSOR POLS, *Chairman*; AND ASSOCIATE PROFESSOR SOLMITZ

REQUIREMENTS FOR THE MAJOR IN PHILOSOPHY: A major consists of six units approved by the Department. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors in Philosophy, see pages 62-65, 113-114.

- *11-12. *Introduction to Philosophy*. Offered every year. MR. POLS.

An introduction to philosophy by means of an elementary consideration of its principal problems, as: the nature and methods of philosophy; sources and criteria for valid knowledge; rival conceptions of causation, of physical and organic nature, and of ultimate reality; the nature of mind, soul, and self; the status of ethical and religious values; and the question of the validity of metaphysical reasoning—or reasoning about ultimate reality. Readings will include a textbook and

selections from various philosophers, classical, modern, and contemporary.

21. *History of Ancient and Medieval Philosophy*. Fall 1957 and Fall 1958. MR. SOLMITZ.

A study of the prototypes of European thought in ancient philosophy and a survey of medieval philosophy. Readings in a history of philosophy and in the writings of Plato, Aristotle, and St. Augustine. Where possible, entire books, or major segments of books, are read.

Open without prerequisite to juniors and seniors. Prerequisite for sophomores: *Philosophy* 11-12 or the consent of the instructor. Not open to freshmen.

22. *History of Modern Philosophy*. Spring 1958 and Spring 1959. MR. SOLMITZ.

Western philosophy from the Renaissance to the present. Readings in a history of philosophy and in some works of Descartes, Spinoza, Berkeley, Hume, and Kant, read for the most part entire.

Prerequisite: *Philosophy* 21 or the consent of the instructor.

31. *The Contemporary Philosophical Debate*. Fall 1957 and Fall 1958. MR. SOLMITZ.

The background of contemporary philosophy in the nineteenth century and the transition to the twentieth century. Readings in Hegel, Schopenhauer, and Nietzsche; followed by James, Bergson, and Cassirer.

Prerequisite: *Philosophy* 21, 22, or, with the consent of the instructor, *Philosophy* 11-12.

32. *The Contemporary Philosophical Debate*. Spring 1958 and Spring 1959. MR. SOLMITZ.

A continuation of *Philosophy* 31, with emphasis on more recent developments, such as, logical positivism, the analytic movement, phenomenology, psycho-analytic theories of the self, the revival of metaphysics, neo-Thomism, and existentialism. The dispute about the nature and rôle of philosophy is given special attention. Readings in Ayer, Russell, Wittgenstein, Husserl, Freud, Whitehead, Maritain, Sartre, Jaspers, and Heidegger.

33. *Metaphysics and Theory of Knowledge*. Fall 1958 and Fall 1960. MR. POLS.

Above: Although Greek and Latin are not required for a Bowdoin degree, → the ancient languages are vigorously taught.

Below: A lecture on modern French civilization. Facility in at least one foreign language is an essential part of each undergraduate course at Bowdoin. Foreign-born professors help students to become accustomed to classes conducted in the foreign language.

WINNERS OF THE SEWALL LATIN PRIZE

	CLASS		CLASS
BERT H. FERNALD	1930	STANLEY NALTMAN	1947
WALD DERBY	1931	JOSEPH J. SCHMUCH	1949
EDERICK R. EAMES	1932	HARLAN B. PEABODY, JR.	1950
ARNARD S. CRYSTAL	1933	CARL B. BREWER	1951
FRED S. HAYES	1934	FRANCIS H. WASS	1952
CLIP F. THORNE	1935	WILLIAM E. WYATT, JR.	1953
LIAM F. CARNES	1936	PAUL J. MORIN	1954
THAN DANE, II	1937	ROBERT H. TRASK, JR.	1955
MART G. P. SMALL	1938	JOHN E. FAIRMAN	1956
HARD H. MOORE	1939	KEVIN G. SULLIVAN	1957
FRANCIS R. BLISS	1940		
LIAM B. HALL	1941		
THOMAS J. JONES, JR.	1942		
JOHN W. WYATT	1943		
JOHN W. WYATT	1944		

A study of the varieties of knowledge in the light of a general theory of the relation between reason and experience. The problem of the limits of knowledge is examined with a view to determining the proper scope of metaphysical theories. Readings in classical and contemporary material.

Prerequisite: *Philosophy* 11-12, or 21, 22.

34. *Ethics*. Spring 1959 and Spring 1961. MR. SOLMITZ.

A study of the main types of ethical theory, based on the reading of historical and contemporary sources; and a critical inquiry into the problems of personal and social ethics.

Prerequisite: *Philosophy* 11-12 or 21, 22.

35. *Logic*. Fall 1957 and Fall 1959. MR. POLS.

A systematic treatment of the principles of valid inference. After a consideration of the traditional approach, including the syllogism, modern techniques for representing arguments and logical truths symbolically are presented. The course ends with a brief survey of the problem of the relation of logic to knowledge in general.

38. *Philosophy of Art*. Spring 1958 and Spring 1960. MR. POLS.

An introduction to esthetics or the philosophy of art. Representative theories of art are discussed and used as the basis for the development of a general theory that takes account of the expressive, cognitive, and productive or creative elements in art. This theory is then applied in detail to painting, poetry, and music; in this part of the course there will be considerable study of actual works of art. Readings in classical and contemporary theories of art.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least four seminars in each of the last four Semesters. The readings upon which the discussions are based are chosen to permit the use of two approaches used alternately: (1) Detailed concentration on some outstanding work exemplifying a particular philosophic outlook; (2) Synoptic review of some central and recurrent philosophic problems. A paper will be required in each of the four Semesters of the major course.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

← Although Bowdoin has always been a nonsectarian college, attendance at regular chapel services conducted by members of the faculty and by visiting clergymen is required of all undergraduates.

Candidates for honors are required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Physical Education

MR. MORRELL, *Chairman*; AND MESSRS. MILLER, WALSH,
MACFAYDEN, COOMBS, SABASTEANSKI, AND COREY

Physical Education.

With the exception of veterans who have received sufficient credit in the service, each student is required to attend classes in physical education or to participate in a supervised sports program for three days each week during his first four Semesters in college. Some credit will be given for participation in intramural competition and for ROTC drill.

Under the direction of the College Physician, each student receives a medical and physical examination.

Tests in Physical Education are given every eight weeks throughout the year. Students who score over 70 points will be excused until the next test. Other modifications in the requirements for attendance at classes in Physical Education will be based upon the results of these tests.

The following requirements in Physical Education must be met by every student: (1) Participation for at least one season in a supervised varsity sport, (2) Demonstration of "a playing knowledge" of some sport such as tennis, golf, or swimming, and (3) Sufficient competence in swimming to satisfy the minimum tests formulated by the Department.

A Coaching Course will be taught by Mr. Adam Walsh from February 10 to March 15. Hours to be arranged. Consult the staff.

Physics

PROFESSOR LITTLE, *Chairman*; PROFESSORS JEPPESEN AND CHRISTIE,
AND ASSISTANT PROFESSOR LACASCE

REQUIREMENTS FOR THE MAJOR IN PHYSICS: A major consists of *Physics* 11-12, 21, 22, and two of the following: *Physics* 31, 33, 35. Two additional courses approved by the Department may be offered in lieu of a major examination.

*11-12. *General Physics*. Offered every year. MESSRS. LITTLE, CHRISTIE, AND LACASCE.

An introduction to the whole field of physics with demonstration lectures and laboratory work.

Prerequisite: Concurrent or previous registration in *Mathematics* 11 or 15.

21. *Mechanics*. Fall 1957 and Fall 1958. MR. CHRISTIE.

An introduction to Newtonian dynamics using vector analysis. Applications to various topics in mechanical physics.

Prerequisite: *Mathematics* 11, 12.

22. *Continuation of Course 21*. Spring 1958 and Spring 1959. MR. CHRISTIE.

Prerequisite: *Physics* 21.

23. *Electronics*. Fall 1957 and Fall 1958. MR. LACASCE.

Characteristics of electronic tubes, crystal diodes and transistors with applications to special devices. Emphasis is placed on the correlation of theory with laboratory technique.

Prerequisite: *Physics* 11-12.

24. *Continuation of Course 23*. Spring 1958 and Spring 1959. MR. LACASCE.

31. *Electricity and Magnetism*. Fall 1957 and Fall 1958. MR. LITTLE.

An exposition of fundamental principles, supplemented by problems and laboratory measurements.

Prerequisites: *Physics* 21, 22, and *Mathematics* 21, 22.

32. *Continuation of Course 31*. Spring 1958 and Spring 1959. MR. LITTLE.

Prerequisite: *Physics* 31.

33. *Light*. Fall 1957 and Fall 1959. MR. JEPPESEN.

Geometrical optics, instruments, principles of physical op-

tics, interference, diffraction, polarization, atomic and molecular spectra. Supplemented by laboratory exercises.

Prerequisites: *Physics* 21, 22, and *Mathematics* 21, 22.

34. *Continuation of Course 33.* Spring 1958 and Spring 1960. MR. JEPPESEN.

Prerequisite: *Physics* 33.

35. *Heat and Quantum Theory.* Fall 1958 and Fall 1960. MR. CHRISTIE.

A non-laboratory course in the principles of physical thermodynamics.

Prerequisites: *Physics* 21, 22, and *Mathematics* 21, 22.

36. *Continuation of Course 35.* Spring 1959 and Spring 1961. MR. CHRISTIE.

An introduction to the statistical and quantum theories of thermal phenomena.

Prerequisite: *Physics* 35.

41. *Special Laboratory or Theoretical Studies.* THE DEPARTMENT.

Original investigations under the direction of the instructors for students with requisite training. If the investigations concern the teaching of physics, this course satisfies certain of the requirements for the Maine State Teachers' Certificate.

Prerequisites: *Physics* 31, 32, or 33, 34, or 35, 36 and the consent of the Department.

42. *Continuation of Course 41.* THE DEPARTMENT.

Prerequisite: the same as for *Course 41*.

In-Service Institute

Modern Physics for Secondary School Teachers. Fall 1957 and Spring 1958.

A year-course offered under a special grant from the National Science Foundation.

The Major Program

200. *The Honors Paper.* Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to complete an honors project consisting of an experimental or theoretical investigation under the tutorial supervision of a member of the Department. A definitive plan for this project must be presented

by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Psychology

PROFESSOR MUNN, *Chairman*; ASSISTANT PROFESSORS RUSSELL AND MOSKOWITZ

REQUIREMENTS FOR THE MAJOR IN PSYCHOLOGY: A major comprises *Psychology* 1, 2, 5-6, 7, and one additional unit to be chosen from the following: *Psychology* 3, 4, 9, 10, and *Education* 3. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors in Psychology, see pages 62-65, 119.

1. *General Psychology*. Fall 1957 and Fall 1958. MESSRS. MUNN AND MOSKOWITZ.

An introduction to psychology. The course covers the scope and methods of psychology, individual and group differences, intelligence, motivation, emotion, personality, the learning process, memory, thinking, and work efficiency.

Required for all further courses in the Department.

2. *Advanced General Psychology*. Spring 1958 and Spring 1959. MR. MUNN.

A continuation of *Psychology* 1, with emphasis upon the sensory and perceptual processes and neural and other physiological foundations of human behavior and experience.

Prerequisite: Adequate work in *Psychology* 1. Required of majors and minors in Psychology and for entrance to *Psychology* 5-6, 7, 9, and 10.

3. *Abnormal Psychology*. Fall 1957, MR. MUNN; Fall 1958, MR. RUSSELL.

The psychology of abnormal people, with special emphasis upon personality development, behavior disorders and problems of adjustment.

Prerequisite: *Psychology* 1.

4. *Social Psychology*. Spring 1958, MR. MUNN; Spring 1959, MR. MOSKOWITZ.

A study of social influences in the development of human behavior and the psychological aspects of group phenomena.
Prerequisite: *Psychology* 1.

- *5. *Experimental Psychology*. Fall 1957 and Fall 1958. MR. MOSKOWITZ.

Investigation and analysis of human and animal behavior. Open to students majoring in Psychology and to a limited number of other students who have done superior work in *Psychology* 1 and 2.

6. *Continuation of Course 5*. Spring 1958 and Spring 1959. MR. MOSKOWITZ.

The latter part of this course involves an individual research project.

7. *Measurement and Statistical Method in Psychology*. Spring 1958 and Spring 1959. MR. RUSSELL.

An introduction to psychological measurement, methods of research, and application of statistics to testing in Psychology.

Prerequisite: *Psychology* 1 and 2. *Mathematics* 14 recommended.

9. *Systematic Psychology*. Fall 1958. MR. MUNN.

The historical and theoretical backgrounds of modern psychology, with special attention to the chief systems of psychology, including Behaviorism, Gestalt theory, and Psychoanalysis.

Prerequisite: *Psychology* 1 and 2.

10. *Contemporary Theory in Psychology*. Spring 1958 and Spring 1960. MR. MOSKOWITZ.

An analysis of problems faced by theorists in psychology with a thorough review of current theorizing in one of the following areas: learning, motivation, cognitive processes, perception, personality. The course will be conducted in seminar fashion with individual reports.

Prerequisite: *Psychology* 1 and 2.

- Education* 3. Fall 1957 and Spring 1959. MR. RUSSELL.

An advanced analysis of psychological facts and principles

basic to the educational process. The course covers such topics as adolescent development, intelligence, motivation, learning, educational measurement, counseling, and problems of special education. These are considered primarily in relation to the work of the secondary school teacher.

Prerequisite: *Psychology 1* or *Education 1*.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

This will include at least four seminars in each of the last four Semesters. These seminars are designed to coördinate and supplement the other course work in Psychology. Special topics, such as language and communication, motivation, and psychological development are covered. Each student is required to present several oral and written reports on special topics within the general area of each Semester's work.

200. *The Honors Project*. Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors must do a special research project under the direction of a member of the Department. This project must be presented, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

- 300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for special honors research should indicate this during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Religion

ASSISTANT PROFESSOR GEOGHEGAN, *Chairman*

- *1-2. *Biblical Literature*. Offered every year.

A survey of the central ideas, events, and personalities of the Old and New Testaments. Lectures, conferences, textbook, and collateral readings.

3. *History of Religions*. Fall 1958.

A comparative study of the major religions of the East, such as Hinduism, Buddhism, Confucianism, Taoism, and

Islam. Lectures, conferences, textbook, and collateral readings.

Elective for juniors and seniors.

4. *History of Religions*. Spring 1959.

A survey of the historical development of Judaism and Christianity, including a comparative study of the major types of religious faiths in contemporary America. Lectures, conferences, textbook, and collateral readings.

Elective for juniors and seniors.

5. *Major Christian Authors*. Fall 1957.

An intensive study of the foundations of religious thought in the West, with special emphasis upon the basic writings of Augustine and Aquinas. Lectures, conferences, textbook, collateral readings, and term paper.

Prerequisite: a course in History, Philosophy, or Religion.

6. *Major Christian Authors*. Spring 1958.

A survey of the development of religious thought in the West in the modern and contemporary periods, with special emphasis upon the basic writings of Pascal, Kierkegaard, Bultmann, and Paul Tillich. Lectures, conferences, textbook, collateral readings, and term paper.

Prerequisite: a course in History, Philosophy, or Religion.

Romance Languages

PROFESSOR LEITH, *Chairman*; PROFESSOR DARBELNET, ASSOCIATE PROFESSOR CARRE, ASSISTANT PROFESSORS IVY AND HOFF, MR. BRAULT, AND TEACHING FELLOWS MIQUEL, DJOUDI, AND ARAYA

REQUIREMENTS FOR THE MAJOR IN FRENCH: A major consists of *French* 7-8, 15-16, and two units to be chosen from *French* 9-10, 11-12, and 17-18. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors in French, see pages 62-65, 123-124.

French

*1-2. *Elementary French*. Offered every year. MESSRS. CARRE, IVY, AND BRAULT.

Five class hours a week, three of which will be devoted to training in grammar, composition, and reading. The two re-

maining periods, devoted to oral and aural training, will be conducted exclusively in French by the native teaching fellows, MESSRS. MIQUEL AND DJOUDI.

A supervised language laboratory is available to all students in the Department.

- *3-4. *Intermediate French*. Offered every year. MESSRS. LEITH, CARRE, IVY, AND BRAULT.

Four class hours a week, three of which will be devoted to reading, composition, and review of grammar. The one remaining period, devoted to oral and aural training, will be conducted exclusively in French by the native teaching fellows, MESSRS. MIQUEL AND DJOUDI.

Director of the oral-aural program in *French* 1-2 and 3-4: MR. CARRE.

- 5-6. *Advanced French*. Offered every year. MESSRS. DARBELNET, LEITH, CARRE, AND IVY.

This course is designed to acquaint the student with some of the works of the leading authors and develop an ability to read French accurately and fluently. Some works are explained and discussed in the classroom, others are assigned for outside reading. One hour each week is devoted to composition and oral work.

- 7-8. *French Literature from its Origins to the End of the Eighteenth Century*. Offered every year. MR. LEITH.

A general survey of French literature down to the Revolution, with a more detailed study of the leading authors and their principal works. Special consideration is given to the development of French classicism and to the literature of the age of Louis XIV. Lectures, reading, written reports, and explanation of texts.

9. *Modern France*. Fall 1957. MR. DARBELNET.

A study of the most significant aspects of modern French civilization, with special emphasis on the territorial and linguistic unity of the country, its economic resources, institutions, and social structure. The lectures will be given in French. Discussions will be conducted in English with collateral reading mainly in French.

10. *Continuation of Course 9*. Spring 1958. MR. DARBELNET.

11. *French Literature of the Nineteenth Century*. Fall 1957. MR. CARRE.

A study of the development of Romanticism and Realism in the poetry, the novel, and the drama of the nineteenth century, with careful consideration of the leading authors of each school. Lectures, reading, written reports, discussion and explanation of texts.

12. *Continuation of Course 11.* Spring 1958. MR. CARRE.

[13. *The French Novel.*] MR. DARBELNET.

A study of the French novel from the seventeenth to the twentieth century with special reference to the characteristic novels of the various periods, which will be discussed in class or assigned for outside reading and reports. The lectures will be in French.

[14. *Continuation of Course 13.*] MR. DARBELNET.

15-16. *Spoken and Written French.* Offered every year. MR. DARBELNET.

This course is designed to develop in the student the ability to understand and use oral and written French. It will be conducted in French.

17. *Contemporary French Literature from the Latter Part of the Nineteenth Century to the Present Day.* Fall 1958. MR. DARBELNET.

A study of representative modern writers in the fields of fiction, the drama, poetry, and literary criticism. To be conducted in French. Collateral reading and reports.

18. *Continuation of Course 17.* Spring 1959. MR. DARBELNET.

Italian

*1. *Elementary Italian.* Fall 1957. MR. CARRE.

Training in grammar and composition. Oral practice. Reading of texts of modern Italian authors.

2. *Continuation of Course 1.* Spring 1958. MR. CARRE.

3. *Early Italian Prose and Poetry.* Fall 1958. MR. CARRE.

Reading in the chroniclers, Compagni and Villani; the *Decameron* of Boccaccio; the *Vita Nuova* of Dante.

Prerequisite: *Italian 1-2.*

4. *Dante's Divine Comedy.* Spring 1959. MR. CARRE.

Spanish

- *1-2. *Elementary Spanish*. Offered every year. MR. HOFF.

Five class hours a week, three of which will be devoted to training in grammar, composition, and reading. The two remaining periods, devoted to oral training, will be conducted exclusively in Spanish by the native teaching fellow, MR. ARAYA.

Spanish 1-2 is not open to freshmen.

- *3-4. *Intermediate Spanish*. Offered every year. MR. HOFF.

Four class hours a week, three of which will be devoted to reading, composition, and review of grammar. The one remaining period, devoted to oral training, will be conducted exclusively in Spanish by the native teaching fellow, MR. ARAYA.

Open to freshmen and upperclassmen who have passed a placement test set by the Department at the beginning of the Fall Semester.

Director of the oral-aural program in Spanish: MR. HOFF.

- 5-6. *Readings in Spanish and Hispanic-American Literature*. Offered every year. MR. HOFF.

This course is designed to acquaint the student with some of the works of the leading authors and develop an ability to read Spanish accurately and fluently. Some works are explained and discussed in the classroom, others are assigned for outside reading. One hour each week is devoted to composition and oral work.

- 7-8. *Spoken and Written Spanish*. Offered every year. MESSRS. HOFF AND ARAYA.

This course is designed to develop in the student the ability to understand and use oral and written Spanish. The course will be conducted in Spanish.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course will consist of at least six seminars in each of the last four Semesters. These meetings are planned to supplement the work done in courses by concentration upon specific areas in languages and literature and the utilization of particular techniques. For example, the Senior year will be devoted to an analysis of a major French author

through a comprehensive study of his works. In 1957-1958, the principal comedies of Molière will be read. Written work will be required in the major course.

200. *The Honors Paper*. Spring Semester in the Senior year. THE DEPARTMENT.

Candidates for honors are required to write an honors paper under the tutorial supervision of a member of the Department. A definitive plan for this essay must be presented by the student, approved by the Department, and filed in the Dean's Office by December 1 of the candidate's Senior year.

- 300-303. *Special Honors Project*. THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing the special honors project.

Russian

MR. FORSYTHE

- *1-2. *Elementary Russian*. Offered every year.

Training in grammar, composition, and conversation.
Reading of elementary texts.

- 3-4. *Advanced Russian*. Offered every year.

Readings in prose, with some consideration of the major figures in Russian literature; continued training in grammar, composition, and conversation.

Sociology

PROFESSOR TAYLOR, *Chairman*; AND ASSISTANT PROFESSOR VAN NORT

REQUIREMENTS FOR THE MAJOR IN SOCIOLOGY: A major consists of *Sociology* 1-2; two units in the principles of social theory, consisting of *Sociology* 5 and 9; and two more units in special fields of practical application, selected from among *Sociology* 3, 4, 6, 7, and 8. For a statement of the rules governing the major course, the choice of a minor, and the requirements for honors in Sociology, see pages 62-65, 126-127.

- *1. *Introduction to Sociology*. Fall 1957 and Fall 1958. MESSRS. TAYLOR AND VAN NORT.

A study of human groups and social relationships, ranging from families, cliques, and fraternities to factories, social classes, and entire societies. General principles governing human groups will be emphasized, together with their application to such topics as changes in the family, the growth of urbanism, and propaganda and public opinion.

2. *Continuation of Course 1.* Spring 1958 and Spring 1959.
Prerequisite: *Sociology 1.*

3. *Population.* Fall 1957 and Spring 1960. MR. VAN NORT.

A study of world population. The first half of the course is devoted to the development of population theory, analysis and prediction from Malthus to the present. Relevant topics such as the Industrial Revolution, class differences in fertility, and the recent "baby boom" are considered. The balance of the course consists of the application of population theory to problems of policy in the major areas of the world, including the United States, India, Russia, China, and Japan.

Not open to freshmen.

4. *Social Welfare.* Spring 1958 and Fall 1959. MR. TAYLOR.

A survey of current welfare programs and of the problems that they are designed to meet. Among the topics considered will be public assistance, social insurance, child and family welfare services, housing, recreation, delinquency prevention, etc.

Not open to freshmen.

5. *Social Control.* Fall 1957 and Spring 1959. MR. TAYLOR.

A study of the control of attitudes and behavior through such means as propaganda and censorship, reward and punishment, education and indoctrination. Special emphasis will be placed on mass communications.

Prerequisite: *Sociology 1-2.*

6. *The Family.* Spring 1959. MR. VAN NORT.

A study of the American family and related areas such as courtship and divorce as they exist in our society. Consideration will be given to the changes in the family during the last century and the resultant effects upon individuals engaged in courtship and family behavior today.

Prerequisite: *Sociology 1-2.*

7. *Criminology.* Fall 1958 and Spring 1960. MR. TAYLOR.

A survey of contemporary thought regarding the causes of

crime, the treatment of offenders, and the techniques of crime prevention. Field trips to various state institutions will be made.

Prerequisite: *Sociology* 1-2.

8. *Minority Groups*. Fall 1958. MR. VAN NORT.

A descriptive and analytical study of intergroup relations, concentrating on problems of race, discrimination, and prejudice. Although major emphasis is placed on the Negro minority in the United States, other interracial and intercultural contacts will be considered for comparative purposes.

Prerequisite: *Sociology* 1-2 or *Government* 1-2.

9. *Social Theory*. Spring 1958 and Fall 1959. MR. VAN NORT.

A critical consideration of some important theories of social structure and social organization, with special attention to such topics as social classes, social mobility, social stratification, bureaucracy, information theory, decision making and social values.

Prerequisite: *Sociology* 1-2 or consent of instructor.

The Major Program

100. *The Major Course*. Junior and Senior years. THE DEPARTMENT.

The major course will consider special topics selected in accordance with the interests of the major students and is designed to prepare students for the major examination. The work in the major course is divided into two parts as follows:

The *Junior year* is so arranged as to give the student, through reading and discussion under the guidance of members of the Department, a comprehensive view of the principles of social organization, the relation of the individual to his society, and the processes of social change. The special topics to be considered will be selected to illustrate some of the more important interrelations among social structure, culture, and personality.

The *Senior year* will include, in addition to some further reading preparatory for the major examination, the development of an individual research project and the preparation of a report on the results.

200. *The Honors Paper*. Senior year. THE DEPARTMENT.

Candidates for honors are required to carry out an honors research project and prepare a report on the results under the

tutorial supervision of a member of the Department. A definitive plan for this project must be presented by the student to the Department by November 1 of the candidate's Senior year, and must be approved by the Department and filed in the Dean's Office by December 1 of that year.

300-303. *Special Honors Project.* THE DEPARTMENT.

A student desiring to submit a plan for a special honors project should submit his request to the Department during his Junior year, preferably before the opening of the Spring Semester. See page 64 for a statement of the rules governing special honors projects.

Reserve Officers' Training Corps

LOUIS PHILLIP McCULLER, B.S., *Lieutenant Colonel, Artillery, U.S.A., Professor of Military Science and Tactics.*

HERBERT HESSELTON FLATHER, B.S., *Captain, Infantry, U.S.A., Assistant Professor of Military Science and Tactics.*

WALLACE JOSEPH LEAHEY, B.A., *Captain, Transportation Corps, U.S.A., Assistant Professor of Military Science and Tactics.*

HARVEY BRYAN JOHNS, JR., B.A., *First Lieutenant, Armor, U.S.A., Assistant Professor of Military Science and Tactics.*

FRANK LESLIE DOGETT, *Master Sergeant, U.S.A., Adjunct Instructor.*

JOHN FRANCIS TREMBLAY, JR., *Master Sergeant, U.S.A.*

EDWARD MURRAY LEACH, *Master Sergeant, U.S.A.*

ANTHONY GRASSI, *Sergeant First Class, U.S.A.*

EMIL ROYCIK, *Sergeant First Class, U.S.A.*

The Reserve Officers' Training Corps at Bowdoin offers a voluntary curriculum of Military Science and Tactics to eligible students. The curriculum consists of courses of theoretical and practical instruction with particular emphasis on leadership development. Classes are presented by the Department of Military Science and Tactics, whose offices are located in Rhodes Hall. (Description of courses is contained on pages 106-108 of this bulletin.)

The objective of the curriculum offered is to produce junior officers who by their education, training and inherent qualities are suitable for continued development as officers of the Army of the United States.

The Reserve Officers' Training Corps Unit at Bowdoin is an Army General Military Science Unit. The curriculum offered includes instruction in subjects common to all branches of the Army. Upon successful completion of the program and graduation from college, a student is eligible for appointment as Second Lieutenant in one of the branches of the United States Army Reserve. The branch assignment of the student is based on his individual choice, background, aptitude and the needs of the Army at the time he is commissioned. Some selected students are offered commissions in the Regular Army.

Above: *The President's house, well known to undergraduates and alumni, → is situated opposite the northeast corner of the campus. By long tradition, both the President and the Dean of the College are teachers who give courses to the undergraduates.*

Below: *The President watches a Freshman sit at Nathaniel Hawthorne's desk to sign the century-old Register Book. The framed manuscript on the wall is that of the poem by Longfellow in honor of his Bowdoin teacher, Parker Cleaveland (1780-1858).*

The four-year curriculum is divided into two major phases:

(1) The Basic Course—covering the first two academic years. For this course academic credit is not authorized by the college. Enrollment involves two hours of classroom instruction weekly and a total of thirty hours of practical laboratory periods of leadership training each academic year. No prerequisites are required for this course. Basic course students are eligible for deferment from service under the Universal Military Training and Service Act.

(2) The Advanced Course—covering the third and fourth academic years. The college awards full academic credit for this course. Successful completion of the basic course (or equivalent credit) and selection by the Department of Military Science and Tactics are prerequisites for enrollment. This course involves four hours of classroom instruction weekly and a total of thirty hours of practical laboratory periods in leadership training each academic year. Between the third and fourth years, students attend a six weeks' summer camp at an Army installation. Students are paid at the rate of approximately \$27 per month from the date they enroll in the advanced course until the completion of the course except for the period while at summer camp. During the period at summer camp the students are paid at the rate of \$78 per month. Including travel pay at five cents a mile to and from summer camp, each student receives a total of approximately \$700 during the course. Advanced course students are deferred from service under the Universal Military Training and Service Act.

Uniforms and text books are provided at no expense to students enrolled in the basic and advanced courses.

A student who has enlisted in the Army Reserve and has completed his six months' active duty for training period may enroll in the R.O.T.C. program. Each year of the R.O.T.C. program completed satisfactorily will satisfy the requirement for participation in the ready reserve for that year. Students with other reserve obligations are encouraged to communicate with the Department of Military Science and Tactics.

Preparatory training in college followed by active service as a commissioned officer gives the individual as a student and later as a graduate the maximum leadership and management experience of the type which will prove most beneficial to him in his future executive, professional, or business occupation.

← *The athletic program at Bowdoin is designed for all students. Each undergraduate is required to take part in a sport in college which he may continue to enjoy in later years. Tennis, golf, and swimming are favorites.*

The Library

THE Library of Bowdoin College is housed in Hubbard Hall, a modern, fireproof structure, forming the southern end of the campus quadrangle. It possesses about 246,000 bound volumes and many thousands of pamphlets.

The main entrance hall contains the delivery desk and the card catalogue, which is arranged as both an author-title and subject catalogue. Instruction in the use of the library is given all entering students. In the main entrance hall are held frequent exhibits of special interest in bookmaking, the graphic arts, and the editions of authors of note.

Directly off the main entrance hall on the left is a spacious general reading room with seats for eighty readers, having on its shelves selected and standard works of reference and volumes reserved for use in connection with college courses. On the right of the entrance hall a corridor leads to the newspaper room and the periodical room. The Library possesses many complete sets of American and foreign periodicals, and about 500 titles are currently received by subscription and may be freely consulted in the periodical room. The collection of microfilms includes all of the periodicals printed in this country before 1800 and very full historical source material of the Southwest.

On the second floor, radiating from a central hall having on its walls the portraits of the presidents of the College, are several faculty studies, map room, and the Bureau for Research in Municipal Government. The Students' Reading Room at the east end constitutes a large and comfortable reading room and contains a wide selection of volumes for the recreational reading of undergraduates during leisure hours.

The Rare Book Room, also located on the second floor, was the gift of an anonymous donor. It was formerly the library in a private residence in New York City, and was designed by the late C. Grant La Farge. The most interesting features of the room are the antique ceiling and the mantelpiece, which are both fine examples of sixteenth-century Italian Renaissance art. The ceiling, which originally was in an old palace in Naples, is of an intricate and rich design, executed in carved and gilded wood, with five contemporary paintings of religious and allegorical subjects in the panels. The design of the antique central portion has been skillfully reproduced at the two ends. The mantelpiece is of Istrian stone, and the wood-

work of the walls is French walnut. Set in the panelling over the mantelpiece is a portrait of Henry Wadsworth Longfellow, of the Class of 1825, by Healy.

Among the books shelved in the Rare Book Room, two groups are worthy of special mention. The first group, totaling about twelve hundred volumes in the fields of art, architecture, biography, and history, is remarkable not only for their contents but also as examples of the bookmaker's art, for their illustrations, for the paper on which they are printed, and especially for their rich bindings, many in full leather beautifully tooled and inlaid, emanating from the shops of the foremost English and French binders of the last seventy-five years. From the point of view of binding alone this is probably one of the outstanding collections in the country. The second group consists of a nearly complete collection of the books printed by The Southworth Press and by its successor, The Anthoensen Press, since 1923. It was given in 1946 by Mr. Frederick W. Anthoensen, A.M., and is a constantly growing collection.

Special libraries in biology, chemistry, music, and physics are maintained in college buildings occupied by those departments, and are under the supervision of the College Librarian.

The private library of the Honorable James Bowdoin, numbering about two thousand items, many of them rare and important works of the eighteenth century, was received after his death in 1811 and has been preserved as a unit. In 1880 the extensive collections of the Peucinian and Athenæan Literary Societies were added. The Library has received many notable and considerable gifts in more recent times. The Carlyle Collection, the gift of Isaac Watson Dyer, of the Class of 1878, is rich in English and American editions of that author. The Longfellow Collection is distinguished by the number of editions of the poems in many languages and by interesting Longfellow manuscripts and historical material. Housed in the upper tower room is the Abbott Collection, which has as its nucleus the personal library and manuscripts of Jacob Abbott and the works of other members of the Abbott family. The extensive Huguenot Collection is especially noteworthy for the number and quality of works contemporary with the early periods of Huguenot history. Worthy of special mention also are the growing Arctic Collection and the Maine Collection, with its many rare items dealing with Maine history and antiquities.

The Library's map collection, totaling nearly 15,000 items, was the gift of the Army Map Service. Additions are made regularly to the collection, which is housed in special steel vertical files. The

collection is fully catalogued and arrangement is by area covered. Index maps of significant areas also facilitate the locating of specific maps.

During term time, the Library is open weekdays from 8:30 to 12:30, 1:15 to 5:30, and from 7:00 to 11:30. Sundays from 2:00 to 4:55, and 7:00 to 11:30. In vacation it is open five hours daily, with the exception of Sundays and holidays.

Annual accessions, which average over four thousand volumes, are made to the Library by means of an appropriation by the Boards for that purpose, by gifts, and from a part of the proceeds of various funds whose provisions are described below. These funds at present total \$612,179.

TERMS OF FOUNDATION AND USE

The terms of foundation and restrictions as to the use of the income of the funds of the Library are listed below in alphabetical order with the dates of their establishment enclosed within parentheses. Since 1933 the income of the John Hubbard Fund, which now amounts to \$441,225, has been appropriated by the Governing Boards for the uses of the Library.

ACHORN FUND. By the conditions of the fund of \$1,500 established by Edgar Oakes Achorn, LL.D., of the Class of 1881, for providing the College with American flags, any surplus income is used for the purchase of books for the Library. (1932)

ADAMS MEMORIAL BOOK FUND. A bequest of \$2,000 from William Cushing Adams, of the Class of 1897, in memory of Jonathan Edwards Adams, D.D., 1853; Frederic Winslow Adams, 1889; William Cushing Adams, 1897; and Stanley Baker Adams, 1920. It is used for the "purchase of the best books on biography and immortality." (1947)

APPLETON LIBRARY FUND. This fund of \$10,053 was given by the Honorable Frederick Hunt Appleton, LL.D., of the Class of 1864, in memory of his father, the Honorable John Appleton, LL.D., Chief Justice of Maine, of the Class of 1822. It is for the "general uses of the College Library." (1916)

AYER BOOK FUND. This fund of \$1,020 was established by the Athenæan Society from a bequest of the Honorable Samuel Hazen Ayer, of the Class of 1839. (1887)

ALEXANDER F. BOARDMAN FUND. A bequest of \$500 from Edith

Jenney Boardman, for thirty-five years the Cataloguer in the Library, in memory of her father, Alexander F. Boardman, to be used for the purchase of books, preferably in the field of science. (1949)

BOND BOOK FUND. This fund of \$7,220 was given by the Reverend Elias Bond, D.D., of the Class of 1837, for the purchase of books relating to religion and ethics. (1889)

GEORGE SULLIVAN BOWDOIN BOOK FUND. This fund of \$1,041, given by the gentleman whose name it bears, is devoted to the maintenance of a collection of books relating to the Huguenots. (1895)

PHILIP HENRY BROWN BOOK FUND. This fund of \$2,040 is devoted to the purchase of books on rhetoric and literature. It was given by the executor of the estate of Captain John Clifford Brown in fulfillment of the latter's desire to establish a memorial of his father, Philip Henry Brown, Esq., of the Class of 1851. (1901)

HENRY LELAND CHAPMAN MEMORIAL FUND. A fund of \$7,006 established by Frederic Henry Gerrish, M.D., LL.D., of the Class of 1866, in memory of his classmate, Professor Henry Leland Chapman, D.D., LL.D. It is used for books in English literature. (1893)

CLASS OF 1875 BOOK FUND. This fund of \$1,671 was established by the Class of 1875. It is used for the "purchase of books relating to American history, in its broadest sense." (1918)

CLASS OF 1877 BOOK FUND. This fund of \$1,033 is a class contribution. (1908)

CLASS OF 1882 BOOK FUND. This fund of \$2,346 is a class contribution. (1908)

CLASS OF 1888 LIBRARY FUND. A fund of \$1,210 established by the Class of 1888 on its fortieth anniversary. It is for the "use of the Library, preferably for the purchase of books." (1928)

CLASS OF 1890 BOOK FUND. This fund of \$2,020 is a class contribution. (1908)

CLASS OF 1901 BOOK FUND. This fund of \$727 is a class contribution. (1908)

CLASS OF 1904 LIBRARY FUND. A fund of \$2,280 established by the Class of 1904 on its twenty-fifth anniversary. (1929)

CLASS OF 1924 BOOK FUND. A fund of \$2,000 given by the Class of 1924 to be used for the purchase of new books. (1952)

LEWIS S. CONANT MEMORIAL FUND. A bequest of \$63,412 from Mrs. Emma L. Conant, of Brookline, Massachusetts, in memory of her husband, Lewis S. Conant, to be used for the purchase of non-fiction books. (1952)

CUTLER LIBRARY FUND. A fund of \$1,020 given by the Honorable John Lewis Cutler, of the Class of 1837. It is used for the purchase of books and periodicals. (1902)

DARLINGTON BOOK FUND. A gift of \$1,000 from Mrs. Sibyl Hubbard Darlington, the "income to be used for the purchase of current books, preferably for the reading room." (1928)

DRUMMOND BOOK FUND. This fund of \$3,045 is a memorial of the Reverend James Drummond, of the Class of 1836, and was given by his widow and his daughter, Mrs. Charles F. Dole, of Boston, Massachusetts. (1907)

DUNLAP BOOK FUND. A gift of \$350 from Mr. and Mrs. Edward A. Dunlap in memory of their son, Edward A. Dunlap, III, of the Class of 1940, the income to be used for the purchase of books. (1955)

HENRY CROSBY EMERY BOOK FUND. A fund of \$2,000 given by the Class of 1899 in memory of one of their teachers, Professor Henry Crosby Emery, Ph.D., LL.D., of the Class of 1892. It is used for the purchase of books in the social sciences. (1926)

FRANCIS FESSENDEN LIBRARY FUND. A bequest of \$10,000 from John Hubbard, a son of General Thomas Hamlin Hubbard, LL.D., of the Class of 1857, to establish a library fund in memory of his father's friend, General Francis Fessenden, of the Class of 1858. (1934)

FISKE BOOK FUND. This fund of \$1,020 was established by the will of the Reverend John Orr Fiske, D.D., of the Class of 1837. (1910)

FULLER LIBRARY FUND. A bequest of \$25,000 from Mrs. Hugh Wallace, a daughter of Chief Justice Melville Weston Fuller, LL.D., of the Class of 1853, in memory of her father. (1938)

GENERAL FUND. This fund consists of the contributions of several persons and totals \$2,473.

ARTHUR CHEW GILLIGAN MEMORIAL FUND. A bequest of \$1,048 from Mrs. Mary C. Gilligan in memory of her son, Professor Arthur

Chew Gilligan (1896-1943), to be used for the purchase of books, with preference to books selected by the French Department.

(1952)

ALBERT T. GOULD FUND. A gift of \$1,000 by Albert Trowbridge Gould, LL.D., of the Class of 1908. It is used for the purchase of books in the fields of maritime history and exploration. (1946)

HAKLUYT LIBRARY FUND. This fund of \$1,100 was established by Robert Waterston for the purchase of books on exploration and travel. (1875)

HAM BOOK FUND. A fund of \$1,030 established by Edward Billings Ham, L.H.D., of the Class of 1922, in memory of his father, Professor Roscoe James Ham, L.H.D. The income is used for the purchase of books in the Russian language and literature. (1954)

LOUIS CLINTON HATCH BEQUEST. The sum of \$100 is provided each year by the will of Louis Clinton Hatch, Ph.D., of the Class of 1895, "for books on the subjects of history, government, and economics, decided preference to be given to large sets and to publications of learned societies, valuable for the purposes of investigation." (1932)

SAMUEL WESLEY HATCH BOOK FUND. A bequest of \$1,000 from Miss Laura Ann Hatch, of Brunswick, as a memorial of her father, Samuel Wesley Hatch, of the Class of 1847. The income is used for the purchase of books. (1928)

CHARLES TAYLOR HAWES FUND. A gift of \$2,500 from Mrs. Hawes in memory of her husband, Charles Taylor Hawes, LL.D., of the Class of 1876, the "income to be used preferably for books for the library." (1940)

HOLBROOK LIBRARY FUND. A bequest of \$2,000 from the Reverend George Arthur Holbrook, A.M., of the Class of 1877. (1940)

HUBBARD LIBRARY FUND. This fund of \$106,268 was established by General Thomas Hamlin Hubbard, LL.D., of the Class of 1857. It is used "for the maintenance and improvement of the library building and library." (1908)

THOMAS HUBBARD BOOK FUND. A fund of \$3,307 given by the surviving children of General and Mrs. Hubbard—John Hubbard, Anna Weir Hubbard, and Mrs. Sibyl Hubbard Darlington—in memory of their brother, Thomas Hubbard. (1922)

ELIJAH KELLOGG MEMORIAL FUND. A gift now amounting to \$1,102 from Harvey D. Eaton, of Waterville, Maine. "Two-thirds of the income each year shall be used for the purchase of books, and one-third of the income shall be added to the principal." (1950)

BROOKS LEAVITT FUND. This fund of \$111,642 was left to the College by Brooks Leavitt, A.B., LL.B., of the Class of 1899. The income, in accordance with a vote of the Boards, is applied to the general uses of the Library. (1954)

SOLON BARTLETT LUFKIN LIBRARY FUND. A bequest of \$500 from Solon Bartlett Lufkin, of Brunswick, for the "purposes of the library." (1931)

ROBERT HENRY LUNT FUND. A gift of \$1,500 from William Edward Lunt, Ph.D., L.H.D., Litt.D., of the Class of 1904, and Mrs. Lunt in memory of their son, Robert Henry Lunt, of the Class of 1942, to be used for the purchase of books in the field of international relations. (1947)

LYNDE BOOK FUND. This fund of \$1,487 was established by the will of George Lynde, of New York, in memory of Frank Josselyn Lynde, of the Class of 1877. (1918)

MABEL NIVER MATTHEWS BOOK FUND. A bequest of \$1,000 from Mrs. Della Fenton Matthews, of Brunswick, to establish a book fund in honor of her daughter. (1956)

WILLIAM CURTIS MERRYMAN FUND. A bequest of \$1,000 from Mrs. Alice Shaw Merryman, of Brunswick, as a memorial of her husband, William Curtis Merryman, A.M., C.E., of the Class of 1882. It is used for the general purposes of the Library. (1942)

MORSE FUND. A bequest of \$1,000 from Edward Sylvester Morse, Ph.D. (1926)

PACKARD BOOK FUND. This fund of \$500 is devoted to the purchase of books relating to the state of Maine, as a memorial of Professor Alpheus Spring Packard, D.D., of the Class of 1816. (1890)

WILLIAM ALFRED PACKARD BOOK FUND. This fund of \$5,000 was established by the will of Professor William Alfred Packard, Ph.D., D.D., of the Class of 1851. It is used "preferably for the purchase of

such books as illustrate the Greek and Latin languages and literatures." (1910)

PATTEN LIBRARY FUND. A fund of \$500 given by Captain John Patten of Bath. (1882)

FREDERICK W. PICKARD FUND. A bequest of \$152,500 from Mr. Frederick William Pickard, LL.D., of the Class of 1894, to be used for the purchase of books and other materials. (1952)

LEWIS PIERCE BOOK FUND. This fund of \$32,009 was established by Henry Hill Pierce, LL.D., of the Class of 1896, in memory of his father, a member of the Class of 1852. It is used "preferably for the purchase of books." (1926)

SHERMAN BOOK FUND. This fund of \$2,209 was established by Mrs. John C. Dodge, of Cambridge, Massachusetts, in memory of her brothers, Joseph Sherman, LL.D., of the Class of 1826, and Thomas Sherman, M.D., of the Medical Class of 1828. Its proceeds are used for current literature. (1882)

SIBLEY BOOK FUND. This fund of \$7,094 was established by Jonathan Langdon Sibley (A.M., Bowdoin, 1856), Librarian of Harvard College, and is for the purchase of books relating to American history. (1881)

SILLS BOOK FUND. A fund now amounting to \$11,275 given by members of the faculty, alumni, and friends in tribute to Kenneth Charles Morton Sills, L.H.D., LL.D., President of the College, 1918-1952, and to his wife, Edith Lansing Koon Sills, L.H.D. (1952)

EDGAR M. SIMPSON FUND. A gift of \$1,000 from Mrs. Margaret S. Millar to establish a book fund in memory of her father, Edgar M. Simpson, of the Class of 1894. (1957)

SMYTH FUND. By the conditions of the Smyth Mathematical Prize Fund the income over and above that necessary for paying the prize is devoted to the purchase of mathematical books. (1876)

STANWOOD BOOK FUND. A fund of \$1,270 bequeathed by Edward Stanwood, Litt.D., of the Class of 1861. It is used "preferably for books in American political history." (1925)

JOSEPH WALKER FUND. This fund of \$5,351 was given by the trustees under the will of Joseph Walker, of Portland. Its proceeds,

in accordance with a vote of the Boards, are applied to the general uses of the library. (1896)

WILLIAMS BOOK FUND. A gift of \$500 from the friends and relatives of Thomas Westcott Williams, of the Class of 1910, to be used for the purchase of books preferably in American history or economics. (1946)

WOOD BOOK FUND. This fund of \$1,000 was given by Dr. Robert Williams Wood, of Cambridge, Massachusetts, of the Medical Class of 1832. It is used for books on sociology. (1890)

The Bureau for Research in Municipal Government

THE Bureau for Research in Municipal Government was established in September, 1914, by a generous contribution from the Honorable William John Curtis, LL.D., a member of the Class of 1875, and has been continued by gifts from interested alumni and appropriations from the Governing Boards. From its establishment to June, 1952, the Bureau was under the direction of Orren Chalmer Hormell, Ph.D., D.C.L., DeAlva Stanwood Alexander Professor of Government. His successor was Lawrence Lee Pelletier, Ph.D., now President of Allegheny College. Since July, 1955, its director has been Clement Ellery Vose, Ph.D., Associate Professor of Government. The principal purpose of the Bureau is to provide adequate facilities for training students in the use of primary materials relating to local and state government. A secondary aim is to supply information to citizens, civic organizations, and municipal officials.

The library of the Bureau includes approximately 10,000 volumes and pamphlets which are catalogued under the following subjects: municipal finance, charters and charter making, zoning, planning, municipal ordinances, personnel management, public utilities, and taxation. Town and city reports and most of the pertinent periodicals dealing with state and local government and public administration are also among the materials available in the Bureau library. During the forty-three years of its existence, the Bureau has furnished students a carefully chosen yet comprehensive selection of source material on state and municipal government—information which has been of particular value in courses on Municipal Government and Public Administration.

The Bureau has also made significant contributions to public service by furnishing information and technical aid to many cities and towns in New England, and especially in Maine. A lasting contribution to civic knowledge has been made by the publication of monographs in the *Municipal Research Series* of the *Bowdoin College Bulletin*. This series now numbers nineteen studies on various aspects of state and local government in Maine. The most recent issue entitled *Maine Economic Development and the Community Survey*, was prepared by James A. Storer, Associate Professor of Economics.

MAINE CITIZENSHIP CLEARING HOUSE

The Citizenship Clearing House promotes student interest and participation in political party activity. Originated by Arthur Vanderbilt, late Chief Justice of the New Jersey Supreme Court, the organization is non-partisan. Affiliated with the Law Center of New York University, the national Citizenship Clearing House provides funds to a number of state chapters. The Maine Citizenship Clearing House is directed from Bowdoin College by Clement E. Vose, Ph.D., Associate Professor of Government. Faculty representatives at Bates, Colby, and the University of Maine coöperate in a program to bring college students in the state into contact with practical politics.

At Bowdoin, students have opportunities to become involved in political party work in addition to meeting and questioning candidates for important public positions. During the year, students may attend luncheons on the campus for outstanding figures in the world of politics. They also participate through arrangements made for them to work as secretaries and clerks at the state party conventions and in the legislature. Finally, a political information center is being formed at the College as part of the Bureau for Research in Municipal Government. Here students may contribute their time and sharpen their talents in the preparation of facts and ideas for the use of those who seek and hold public office. In these various ways the Maine Citizenship Clearing House works to help college students provide better minds for better politics.

The Fine Arts

ART COLLECTIONS

THE Walker Art Building was presented to the College by the Misses Walker, of Waltham, Massachusetts, as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods. Designed in 1892 by Messrs. McKim, Mead, and White, the building, in simple Renaissance style, is one of the finest of its kind in the country, and houses certain collections which are pre-eminent of their type. The best known is the collection of portraits, bequeathed in 1811, by James Bowdoin, the first benefactor of the College, with a matchless group of colonial paintings by Robert Feke, and two famous likenesses of Presidents Madison and Jefferson by Gilbert Stuart. James Bowdoin also left to the College a group of drawings, including a masterpiece by Pieter Brueghel. Edward P. Warren gave a collection of antiquities which is widely known, and Dr. Henri B. Haskell, Med. 1855, provided the set of magnificent Assyrian reliefs which decorate Sculpture Hall. Also in Sculpture Hall are four celebrated tympana murals by Cox, La Farge, Vedder, and Thayer. The Baxter Collection of watches is a popular favorite, as is also the notable group of Chinese ceramics given by former Governor and Mrs. William Tudor Gardiner. In addition, there are paintings by such American masters as Winslow Homer and Marsden Hartley, and displays of very fine European and American silver, given mostly by James Potter Kling and Mrs. Albert E. Davies. These are but a selection of the items in the permanent collections available for enjoyment and study.

The Museum also aims at providing a wider service to the College and community by supplementing its possessions with loan exhibitions. During the past sixteen years, four old masterpieces by Cuyp, Stuart, Gainsborough, and Rembrandt, have been on loan from the late Sir Harry Oakes, '96, and Lady Oakes. Modern paintings have also been displayed in a series of monthly exhibitions. In addition, the Student Loan Collection enables students to rent at a nominal sum the finest color reproductions available; this collection of framed examples of old and modern masters now numbers nearly a thousand pictures. The Museum also takes pride in one of the finest collections of color slides owned by any American institution.

DRAMA AND STAGECRAFT

Since 1903, when a group of students organized the Bowdoin Dramatic Club, the regular production of plays has been recognized and valued as part of the extracurricular program of the College. The name of the club was changed to the Masque and Gown in 1909, and two years later annual Shakespearean productions were inaugurated as a regular feature of the Commencement activities. Twenty-one of Shakespeare's plays have been shown, one as many as seven times. In recent years these productions have been filmed in color for the use of the course in Shakespeare.

Many modern plays have also been produced, often in connection with house parties; and since 1941 about a quarter of these have been played in arena style, with the audience on four sides of the acting area. Perhaps the most significant activity of the club has been its encouragement of play writing. For twenty-one years, in annual one-act play contests, student-written plays have been produced for cash prizes. Winners of these contests have later written full-length plays, twelve of which have been produced on campus and three professionally in New York. As a direct result of this work, a course in play writing is now offered by the Department of English.

No formal instruction has been offered in acting or stagecraft, partly because of inadequate theatrical facilities. The recently completed Pickard Theater in Memorial Hall will permit such instruction. This generous gift by the late Frederick William Pickard, LL.D., a member of the Class of 1894, of a theater on campus promises more finished productions than have been possible in the past. The Masque and Gown manages the theater under the supervision of the Director of Dramatics; and valuable experience in acting, directing, design, lighting, and stagecraft under ideal conditions is now available to any student wishing to engage in these activities.

Membership in the club results from major work on one or minor work on two of the eight plays produced each season. An executive committee of undergraduates elected by the members determines the program for each year, handles the finances and publicity of the club, and organizes the production work. To operate efficiently, the Masque and Gown needs box-office men, ushers, publicity men, designers, builders, painters, electricians, property men, and costumers as well as actors and playwrights.

MUSIC

Bowdoin offers its students an unusual variety of musical opportunities. Over one-fifth of the undergraduates are engaged in one or more of the several organizations such as the Glee Club, the *a capella* choir which sings at vesper services on Sunday, the band, the double quartet, the brass ensemble featuring "Tower Music," the groups which present musical programs weekly at Chapel, occasional Sunday afternoon recitals in the Moulton Union, and concerts of rarely performed music sponsored by the Bowdoin Musical Club along the lines of the medieval "Collegium Musicum." There is also an annual concert series devoted mostly to chamber music. These are free to the public and students. The Interfraternity Singing Competition for the Wass cup is one of the most popular events in the college calendar and an Interfraternity Quartet competition is now held during Ivy Exercises. The first cup was given by the Zeta Psi Fraternity. At the 1957 competition the Delta Kappa Epsilon Fraternity donated a new cup in memory of George W. Graham, of the Class of 1955, to replace the President's Cup as an annual award for improvement. A newly established record loan system now gives students the privilege of enjoying recordings from the extensive collection of the Department of Music in their own rooms.

Annual performances of the *Messiah* are presented at Christmas time with over two hundred and fifty voices, soloists, and orchestra. On May 9, 1957, the Glee Club appeared with the Boston Symphony "Pops" for the tenth time. The season 1951-1952 included appearances with ten women's colleges and over twenty-one concerts, including seven performances of Mozart's *Requiem*. During the 1952-1953 season the Glee Club gave its third concert in the Town Hall, New York. In John Hancock Hall, they gave a concert which represented their third semiprofessional appearance in Boston. The season of 1953-1954 included twenty-two concerts by the Glee Club, seven being performances of Brahms' *Requiem* with various women's colleges. In May, 1957, the Glee Club completed a long-playing record of its 1957 program. This is the second record in a series.

During the summers of 1948 through 1950, Bowdoin's double quartet, "The Meddiebempsters," on tours sponsored by the United States Army, entertained soldiers and patients at American camps and hospitals in Europe. They repeated this experience in

the summers of 1953, 1954, and 1955. On March 28, 1957, the Meddiebempsters sang on a nationally televised program; and on May 10, 1957, they performed at Carnegie Hall, New York, having been selected by the Yale Broadcasting Corporation as one of the ten best octet groups in the country. Professional teachers visit the campus once every week to give instruction in piano, cello, voice, and organ to those students who wish to continue their interest in the study of applied music. Although lessons are contracted for individually, the College provides practice rooms without charge in the Harvey Dow Gibson Hall of Music.

PRINTING AND TYPOGRAPHY

To supplement the opportunities offered to students in the Fine Arts, the College now has a well-equipped printing shop in the basement of Hubbard Hall. The equipment consists of a generous assortment of Caslon types especially imported from England, a smaller quantity of Oxford types, stands, stone, cutters, etc., and an old-style hand press. The purpose is to introduce interested students to the vocational possibilities offered in printing, and in its allied fields in which some knowledge of printing and typography may be of value—editorial work, publishing, advertising, institutional promotion, and the production of fine printing itself. To accomplish this end, an informal course is offered, providing a minimum training in handling the essential materials of printing, and a basic knowledge of types and the principles of typography. The members of the course meet as a group one evening a week, and individual students may arrange for shop periods when they can devote their spare time to projects of their choice under the guidance of an instructor. No commercial work of any kind will be undertaken in the shop. The instructor in the course is Mr. Sheldon Christian, A.B., S.T.B., of the Pejepscot Press, of Brunswick.

The College Library already owns many examples of fine printing which include the publications designed and printed by Frederick W. Anthoensen (A.M., 1947), of The Anthoensen Press, of Portland; books printed by Thomas Bird Mosher (A.M., 1906), also of Portland; and publications of the Grolier Club, of New York. In the field of early printing the Library possesses several examples of incunabula as well as a collection of 270 leaves of incunabula, mounted and described by Konrad Haebler. For several years the Library has been purchasing books in the field of printing and typography made possible by annual gifts to the Anthoensen-Chris-

All Bowdoin undergraduates are required to take a course which entails → rigorous laboratory discipline, and thus become acquainted at firsthand with the real meaning of science.

tian Fund, established in 1946 to provide a typographical collection. In 1950 the Library received from a friend who wishes to remain anonymous a unique collection of volumes bound in full leather, beautifully tooled and inlaid by some of the world's finest binders. Among the binders represented are Meunier, Zaehnsdorf, Lortic, Michel, Chambolle-Duru, Riviere and Son, Taffin, Bradstreet, Ruban, Cuzin, and Gruel.

← Above: *The new Arena, dedicated in 1956, serves primarily the college's physical education program, especially intramural and intercollegiate hockey contests, and recreational skating. In 1956-1957 the Arena was used by 20,000 persons.*

Below: *Bowdoin's new Arena makes possible interclass, intramural, intercollegiate, and Olympic hockey matches. It has a comfortable seating capacity for at least 2,500 spectators.*

Lectureships and Institutes

THE regular instruction of the College is supplemented each year by a series of ten or twelve major lectures, in addition to occasional lectures and panel discussions sponsored by the various departments of study and undergraduate campus organizations. A notable adjunct to the intellectual life of the entire college community is the series of Institutes which brings to Bowdoin every two years various distinguished authorities in Art, Literature, Music, Public Affairs, or Science.

LECTURESHIPS

ANNIE TALBOT COLE LECTURESHIP. This lectureship was founded in 1906 with a gift of \$4,750 by Mrs. Calista S. Mayhew, of South Orange, New Jersey, in memory of her niece, Mrs. Samuel Valentine Cole. According to the terms of the gift, this lectureship was established to contribute "to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit and endeavor to make attractive, the highest ideals of character and conduct, and also, in so far as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music, and the fine arts."

FULLER MEMORIAL FUND. This fund of \$3,281 was founded in 1911 in memory of Benjamin Apthorp Gould Fuller, A.M., of the Class of 1839, and provides for instruction in the broadest aspects of Social Hygiene.

MAYHEW LECTURE FUND. This lectureship was founded in 1923 by Mrs. Calista S. Mayhew. The income from the bequest of \$5,288 is used to provide lectures on bird life and its effect on forestry.

JOHN WARREN ACHORN LECTURESHIP. This lectureship was established in 1928 by Mrs. John Warren Achorn, as a memorial to her husband, a member of the Class of 1879. The income from the fund of \$2,500 is used for lectures on birds and bird life.

TALLMAN LECTURE FUND. This fund of \$100,000 was given by Frank G. Tallman, A.M., of Wilmington, Delaware, in 1928, as a memorial to the Bowdoin members of his family. The income is "to be expended annually upon a series of lectures to be delivered by men selected by the Faculty either in this country or abroad." In addition to offering a course for undergraduates, the Visiting Pro-

fessors on the Tallman Foundation give a series of public lectures on the subjects of their special interest.

THE DELTA SIGMA LECTURESHIP. This lectureship, an annual gift to the College from the Delta Sigma Fraternity, was established at the suggestion of Avery Marion Spear (1904-1929), of the Class of 1925. Described by the President of the College as "a symbol of the growth of intellectual interest among the undergraduates," the lectureship has brought to the College for lectures and conferences a number of distinguished persons including: Mary Ellen Chase, George Lyman Kittredge, Alexander Meiklejohn, Eleanor Roosevelt, Norman Thomas, Hodding Carter, and Alexander Woollcott.

CHEMISTRY LECTURE FUND. By vote of the Boards in 1939 the balance of \$1,180.15 from a fund given for Chemistry Department Lectures is used for special lectures in chemistry.

VISITING PROFESSORS ON THE TALLMAN FOUNDATION: 1928-1957

Alban Gregory Widgery, A.M., *Lecturer on the Philosophy of Religion in the University of Cambridge. Visiting Professor of the Philosophy of Religion, 1928-1929.*

Charles Gaston Eugène Marie Bruneau, DOCTEUR-ÈS-LETTRES, *Professor of Romance Languages and Literature in the University of Nancy. Visiting Professor of French Literature, 1929-1930.*

Enrico Bompiani, DOTTORE IN MATEMATICA, *Professor of Mathematics in the University of Rome. Visiting Professor of Mathematics, 1930-1931.*

Maurice Roy Ridley, A.M., L.H.D., *Fellow and Tutor of Balliol College, University of Oxford. Visiting Professor of English Literature, 1931-1932.*

Donald Baxter MacMillan, Sc.D., *Visiting Professor of Anthropology, 1932-1933.*

Stanley Casson, A.M., *Fellow of New College and Reader in Classical Archaeology in the University of Oxford. Visiting Professor of Classical Archaeology, 1933-1934.*

Herbert von Beckerath, DOCTOR RERUM POLITICARUM, *Professor of Political Economy in the University of Bonn. Visiting Professor of Economics, 1934-1935.*

Arthur Hass, PH.D., *Professor of Physics in the University of Vienna. Visiting Professor of Physics, 1935-1936.*

Wilder Dwight Bancroft, PH.D., Sc.D., *Professor of Physical Chemistry in Cornell University. Professor of Chemistry, 1936-1937.*

Robert Henry Lightfoot, A.M., D.D., *Ireland Professor of Exegesis in the University of Oxford and Fellow of New College, University of Oxford. Visiting Professor of Biblical Literature, 1937-1938.*

Frederick Chesney Horwood, M.A., *Tutor and Lecturer in English Language and Literature in St. Catherine's Society in the University of Oxford. Lecturer in English Literature, 1938-1939.*

Moritz Julius Bonn, DR. D. STAATSWISS., *Lecturer in the London School of Economics. Visiting Professor of Economics, 1939-1940.*

Ernesto Montenegro, *Lecturer in the National University of Chile. Lecturer on Latin-American Relations, 1940-1941.*

Edgar Wardwell McInnis, A.M., *Associate Professor of History in the University of Toronto. Visiting Professor of Canadian History, 1941-1942.*

Yung-Ching Yang, LL.D., L.H.D., *President of Soochow University. Visiting Professor of Chinese Civilization, 1942-1943.*

Herbert John Fleure, A.M., Sc.D., F.R.S., *Professor of Geography in Manchester University. Visiting Professor of Geography, 1944-1945.*

James Waddell Tupper, PH.D., LITT.D., *Professor of English Literature, Emeritus, Lafayette College. Visiting Professor of English Literature, Spring 1948 Trimester.*

Emyr Estyn Evans, Sc.D., *Professor of Geography, Queen's University, Belfast. Visiting Professor of Geography, 1948-1949.*

George Andrew Paul, M.A., *Fellow, Tutor, and Praelector in Philosophy, University of Oxford. Lecturer in Philosophy, Spring 1951.*

Yi-pao Mei, PH.D., L.H.D., LL.D., *Dean of the College of Arts and Letters, Yenching University, Peking. Visiting Lecturer on Chinese Civilization and Philosophy, 1952-1953.*

Ronald Perkins Bridges, A.M., L.H.D., LITT.D., D.D., *Executive Chairman of the Protestant Radio, Film and Television Commission of the National Council of the Churches of Christ in the United States of America. Visiting Professor of Religion, Spring 1954.*

Balkrishna Govind Gokhale, PH.D., *Professor of History and Indian*

Culture, Siddharth College, and Postgraduate Professor and Research Guide at the Bombay University, India. Visiting Professor on Indian History, 1954-1955.

Pedro Armillas, B.S., *Professor de Ensenanza Tecnica Superior, Escuela Nacional de Antropologia, Mexico City. Visiting Lecturer on Archaeology, 1955-1956.*

Charles Mitchell, B.A., M.A., B.LITT., *Warburg Institute of the University of London. Visiting Professor of the History of Art, Fall 1956 Semester.*

George Haddad, PH.D., *Syrian University, Damascus. Visiting Professor of Near East History and Culture, Fall 1957 Semester.*

THE INSTITUTES

Sponsored by the College, Institutes on subjects of broad, general interest were held biennially from 1923 to 1941 and resumed in 1944. The method of conducting these Institutes is to bring to Brunswick various lecturers, each a distinguished authority in his field, for public lectures and round-table conferences. Although the lectures attract state-wide audiences, the conferences are given solely for undergraduates. In 1955 and 1956 the traditional pattern was varied by having the Institute conducted by one lecturer who developed a single theme in a series of addresses and round-table discussions. Institutes have been held in the following fields:

Modern History (1923)	Liberal Education (1944)
Modern Literature (1925)	World Politics and
The Fine Arts (1927)	Organization (1947)
The Social Sciences (1929)	Modern Literature (1950)
The Natural Sciences (1931)	Highlights of New England
Modern Literature (1933)	Culture During Bowdoin's
Politics (1935)	History (1952)
Philosophy (1937)	Some Aspects of American
Music (1939)	Foreign Policy (1955)
Human Geography (1941)	Crime and Delinquency (1956)
The South Today (1958)	

SUNDAY CHAPEL SPEAKERS: SEPTEMBER, 1956-MAY, 1957

1956

September 23—JOHN ARTHUR SAMUELSON, A.M., S.T.M., First Parish Church, Brunswick.

September 30—PERCY LESSINGTON VERNON, D.D., Community Church, Poland.

October 7—MARTIN VAN BUREN SARGENT, Winter Street Congregational Church, Bath.

October 14—WALLACE WITMER ANDERSON, D.D., United Church, Bridgeport, Connecticut.

October 21—MILTON MORSE MCGORRILL, D.D., Universalist Church, Orono.

October 28—CLAUDE MOORE FUESS, Litt.D., L.H.D., LL.D., former headmaster of Phillips Andover Academy.

November 4—MICHAEL SZENES, Ph.D., Temple Beth Jacob, Concord, New Hampshire.

November 11—FREDERICK MAY ELIOT, D.D., LL.D., President of the American Unitarian Association.

November 18—RUSSELL TALCOTT LOESCH, A.B., B.D., Minister to Chaplains and Armed Forces Personnel, for the Congregational Christian Churches of the United States.

December 2—Service in memory of Paul Nixon, L.H.D., LL.D. (1882-1956), Winkley Professor of the Latin Language and Literature, Emeritus. Memorial address by HERBERT ROSS BROWN, Ph.D., Litt.D., L.H.D.

December 9—FREDERICK MEEK, D.D., Old South Church, Boston, Massachusetts.

1957

January 6—The President of the College.

January 13—EDSON ROY BURCHELL, B.D., Congregational Church, Camden.

February 10—JAMES WILLS LENHART, D.D., State Street Congregational Church, Portland.

February 17—BIRGER JOHNSON, First Parish Congregational Church, Saco.

February 24—JAMES ROBERT THOMPSON, A.M., President of the Good Will Home Association.

March 3—ROBERT CUMMINS, D.D., S.T.D., Special Consultant, Department of State.

March 10—FREDERICK HAROLD THOMPSON, D.D., Woodfords Congregational Church, Portland.

March 17—JOHN EDWARD DIRKS, Ph.D., Associate Professor of Religion in Higher Education, Yale University Divinity School.

April 7—NATHANAEL MANN GUPTILL, B.D., First Church in Newton, Newton Center, Massachusetts.

April 14—WILLIAM PAUCK, D.Theol., Professor of Church History, Union Theological Seminary.

April 21—The President of the College.

April 28—GEORGE MILNER HOOTEN, JR., B.D., Franklin Street Congregational Church, Manchester, New Hampshire.

May 5—GEORGE ARTHUR BUTTRICK, D.D., D.S.T., Litt.D., LL.D., Chairman of the Board of Preachers, Harvard University.

May 12—MERLE JORDAN, B.D., Hebron Community Baptist Church.

May 19—WILLIAM DEWSON CHAPMAN, B.D., Saint Paul's Episcopal Church, Brunswick.

Student Life and Activities

BOWDOIN is providing for her students a campus life which retains most of its various traditional features, along with certain necessary and welcome innovations.

The physical equipment of the College is receiving increased attention today, and special committees have been appointed by the President to study prospects for future improvements. But along with the library, laboratories, art museum, dormitories, social center, infirmary, gymnasium, swimming pool, arena, and playing fields, the less tangible—but more important—spiritual and intellectual resources of Bowdoin are being constantly examined and reinvigorated, as befitting a century-and-a-half-old college newly rededicated to the ideals of a liberal education.

The program in the humanities continues to provide courses in languages, literature, philosophy, art, music, history, government, and economics. Such subjects, which develop the qualities of intellectual poise, understanding, and imagination essential to effective leadership, are being continued with a view to individual needs.

LIVING AND DINING ACCOMMODATIONS: The College provides living and dining accommodations for its student body. Entering freshmen will live in the dormitories and dine at the Moulton Union until they have been pledged by fraternities. The fraternity chapter houses furnish living and dining accommodations for their constituencies (the final arrangements for living quarters being contingent upon the size of enrollment and other factors). These attractive quarters help to encourage the generous friendships and to promote the valuable give-and-take of opinion perennially associated with campus life.

THE MOULTON UNION: The Union continues to be the social center of the entire College: it provides a spacious home on the campus, primarily for all undergraduates, members of the faculty, alumni, and guests.

The hospitable Union lounge is available from early morning until midnight every day for leisure-time enjoyment. A generous number of newspapers and magazines are kept there for the use of the students and other members of the College. This room is the scene of a great variety of college gatherings: smokers, lectures, recitals, and dances. No charge is made for the use of the pocket

billiard, billiard, and table tennis equipment in the game rooms. The third floor contains several pleasant conference rooms for undergraduate activities including WBOR, the College Radio Station, together with comfortable rooms which are available for overnight accommodations to alumni, parents, and friends of the College. The main dining room is comfortably and informally furnished for regular meals and for between-meal snacks. Here faculty and students meet over cups of coffee and enjoy stimulating and agreeable companionship. Banquets for college groups and friends of the College are also held from time to time in this dining room.

A small dining room is distinguished by pen and ink murals depicting scenes of Maine seacoast life. The murals and poetry are the creations of the late Professor Robert Peter Tristram Coffin, '15 (1892-1955). This room is used by students and faculty. Weekly informal luncheons for the latter are held here during the academic year. The Union store provides sundries to members of the College at a nominal charge. Here also students may purchase textbooks required in course work and other books of general interest. Profits are used for general student social purposes under the direction of the Student Union Committee.

The facilities of the Union resemble those of a club in which there are daily opportunities for new students to meet and form friendships with other students and faculty members. The donor's wish to provide a place where the fires of friendship may be kindled and kept burning has been amply realized.

The formulation of policies and the planning of the many-sided program of Union activities are the responsibilities of the Director of the Moulton Union assisted by the Student Union Committee, consisting of a representative from each Fraternity and the Independents. By sponsoring dances, lectures, exhibitions of motion pictures, tournaments, and other entertainments, the Committee contributes to the social life of the entire college community.

FRATERNITIES: The Greek-letter fraternities first appeared on the Bowdoin campus in 1841. A century ago their functions were purely literary and social, but with the passing years they have become more and more an integral part of college life. In the early years, the meeting places of the fraternities were known only to their members. Later the members of the various chapters lived together in several of "the ends" of the college dormitories. A new era began in 1900 when two of the Greek-letter societies moved into houses of their own and took over the provision of living and dining facilities. Ordinarily, the upper-class members live "at the house," while all the members dine there.

Membership in a fraternity provides much more than an attractive eating club, agreeable companionship, occasional houseparties, and competition in interfraternity track meets. To many graduates, such membership has meant a valuable training in the care of material property and in the maintenance of good relations with the town and with other groups, coöperation with the Dean and the faculty adviser in promoting scholarship and manly conduct among the younger brothers, and comradely association with alumni in the management of chapter affairs. At Bowdoin, loyalty to a fraternity has been found in practice to be an excellent means of developing loyalty to the College itself and to the larger interests which the College serves.

THE STUDENT COUNCIL: The control of student life at Bowdoin is entrusted in the fullest possible measure to the students themselves. Undergraduate self-government is vested in the Student Council, which makes recommendations about student affairs to the student body, and occasionally to the Faculty. The Council is composed of a representative from each fraternity and organized social group.

THE ORIENT: The Bowdoin *Orient*, the college newspaper, is now in its eighty-seventh year of continuous publication. Opportunities for freshmen as "cub" reporters, and for newcomers at the news desk and in the press room, continue as in the past and advancement on the staff is rapid for those with a flair for journalism. Students interested in the business management of the newspaper will also find opportunities for work and advancement.

THE QUILL: The *Quill* is the college literary publication. Each issue contains articles in all fields of student literary interest: short stories, essays, poems, and reviews. Contributions are welcomed from all members of the College.

THE BUGLE: The *Bugle* is the college year-book published by the Junior Class. The board is composed of students and faculty members.

MUSIC: The most important musical extracurricular activity is the Glee Club. Bowdoin continues to be a "singing college," with the Interfraternity Singing Competition, the *a capella* choir (which

in addition to Sunday vesper services makes joint appearances with near-by girls' schools and colleges), musical chapels, house singing, student recitals, and the "Meddiebempsters" double quartet. In addition, the Brunswick Choral Society, in which undergraduates participate, presents at least two major choral works a year, and the artist concert series of six concerts is open free to all undergraduates.

RADIO: In WBOR AM and FM, "Bowdoin-on-Radio," the College now has a professional radio station. As the result of a substantial gift from the Class of 1924, a three-room studio was built in 1951 on the second floor of the Moulton Union in the northwest wing. The control room and each studio are air-conditioned. All three rooms are sealed against disturbances of sound with acoustical tiling and sound-lock doors. The studio is equipped with every modern device including a console board, transmitter, two record turntables, and three tape-recorders. The whole is finished in an attractive blend of sky blue, neutral grey, and salmon red.

Students and faculty work freely together to cover the average daily run of ten hours on the air. The station has a faculty advisor, but programming and management are handled entirely by the students. During the last year of operation about seventy students participated as script-writers, directors, announcers, performers, and engineers. The station records on tape many of the college lectures and concerts for rebroadcast, and has made several recordings for public distribution. Once a week the Dean of the College broadcasts to the college community, giving a succinct account of administrative activities. Frequently members of the faculty conduct a panel discussion of local, national, and international problems.

DEBATING: In addition to the Achorn and Bradbury Prize Debates, an extensive program of interclass and intercollegiate debating is sponsored by the Debating Council. The annual interfraternity debate competition for the Wilmot Brookings Mitchell Debate Trophy is under the general supervision of the Council.

THE MASQUE AND GOWN: This college dramatic organization has for fifty years provided undergraduates with opportunities to give practical expression to their interest in the theater. Townspeople collaborate with the student members of Masque and Gown in many productions. The Executive Committee hopes to continue its policy of producing full-length and one-act plays written by stu-

dents; the Committee also plans to use various experimental production techniques such as the "arena style" of presentation. Under the direction of an expert, and housed in the magnificently appointed Pickard Theater in Memorial Hall, the Masque and Gown offers many opportunities for those interested in play writing, scene design and construction, acting, and business management and publicity.

THE INTER-FAITH FORUM: The Bowdoin Inter-faith Forum is an undenominational organization, membership in which is open to every undergraduate for the purpose of helping students to find the place of religion in life. The Forum conducts many lines of work, sponsors a Religious Forum, and often arranges informal conferences at which the undergraduates have opportunities to meet the college preachers. In these various activities students of different denominations learn to work together and to respect the religious convictions of others.

THE POLITICAL FORUM: This student organization actively fosters the discussion and debate of current political practices and problems of local, state-wide, national and international interest. The Forum has instituted the policy of inviting guest speakers to lecture to the college community.

THE BOWDOIN PLAN: A notable contribution to international understanding, the "Bowdoin Plan" is an arrangement whereby some of the fraternities provide board and room for some foreign students, while the College remits tuition. The plan originated with the undergraduates themselves in the Spring of 1947, and in its first year of operation brought six foreign students to the Bowdoin campus. Since then the number has been increased somewhat. Their presence is a very desirable addition to the life and fellowship of a small college. A roster of foreign students attending Bowdoin under the terms of the plan in 1957-1958 is printed on page 207 of this catalogue.

THE OUTING CLUB: Organized in 1948, the Outing Club sponsors a program of outdoor activities including rock and mountain climbing, cycling, canoeing, and skiing. An annual cross-country ski meet is one of the features of the winter activities.

THE STUDENT CURRICULUM COMMITTEE: Recently organized, the Student Curriculum Committee is interested in Faculty-Student relationship. Among its contributions to the College is the arrange-

ment of lectures of interest to the college community, delivered principally by members of the faculty.

MANUSCRIPT: Established in 1955, *Manuscript* is the campus creative writing organization. It is designed to encourage student extracurricular writing of poetry and prose fiction, both through competent guidance and group criticism, and maintains a current selection of quality literary magazines which are presented to the college library at the close of each year. Membership is open to all undergraduates.

THE WHITE KEY: This organization has two functions: to program and supervise all inter-fraternity athletics, and to serve as the official committee to welcome and make arrangements for the entertainment of teams visiting Bowdoin from other institutions.

ATHLETICS

The Department of Physical Education offers a well-rounded program of athletics for all undergraduates. In addition to well-coached varsity teams, which participate in intercollegiate competition, there is an active year-round schedule of intramural athletics for the whole student body.

INTERCOLLEGIATE ATHLETICS: Bowdoin offers intercollegiate competition in the following sports: football, cross country, basketball, track, swimming, hockey, rifle practice, fencing, winter sports, golf,

tennis, baseball, and sailing. Varsity, junior varsity, and freshman teams will be maintained in most of these sports, enabling every undergraduate opportunity to try out for the sport of his choice.

INTRAMURAL ATHLETICS: Competition between fraternities is scheduled in softball, touch football, basketball, hockey, track, swimming, bowling, and volley ball. Undergraduates not actively engaged in intercollegiate sports during a given season are eligible for intramural contests.

THE SAILING CLUB: Bowdoin's fleet of sailing dinghies on the tideless basin of the New Meadows River is operated by the Sailing Club. The program includes varsity and freshman competition with many New England colleges, interfraternity racing for the Thayer Francis Trophy, and instruction for beginners.

In 1955 the College purchased a cabin and section of shore front with a dock on the east side of the New Meadows River Basin to provide facilities for the Club. Equipment now includes five fiberglass dinghies and a power-driven crash boat.

Scholarships, Loans, and Financial Aid

SCHOLARSHIP grants, student employment, and loans are the primary means of aid at Bowdoin for the student who needs help in meeting the expenses of his education. Largest and most widely used are the scholarship funds which provide about \$150,000 annually. Scholarship awards from these are made on the basis of good rank and financial need. Since they are not student honors, financial need is requisite in every case. There are three kinds of scholarship grants: Prematriculation Scholarships for incoming freshmen, awarded at the time of admission; General Scholarships for men in college; and Graduate Scholarships for students pursuing postgraduate studies at other institutions.

The student employment program offers a wide number of opportunities to undergraduates from the following principal sources: direct employment by the College, employment by the fraternities, and employment by outside agencies represented on campus or located in the community. It is separate from the scholarship program, and work assignments are made on the basis of individual need and willingness. Specific commitments for employment are not made to freshmen until after the opening of College in September.

Each year over \$45,000 in loans are made to students. These funds are administered by the Assistant to the President and they are made predominantly for a short term, most of them without interest. In general, the loan funds at Bowdoin are used to supplement other means of student aid or to meet temporary needs in the student's budget. All awards are subject to review and withdrawal if minimum scholarship grades are not received at any regular review of classes.

PREMATRICULATION SCHOLARSHIPS: Between forty and fifty freshmen each year receive prematriculation awards to help them meet the expenses of their first year. Recently the range of awards has extended from \$400 to \$1,200. These figures are not fixed but will vary according to the need demonstrated by each candidate. Applications should be made to the Director of Admissions before March 1 of each year. Candidates are notified of prematriculation awards

Above: Throughout the senior year, members of the graduating class participate in business and professional interviews arranged by the Director of Placement.

Below: The musical activities of the College are housed in the new Gibson Hall of Music which was dedicated in 1954. Here in the glee club rehearsal room, a distinguished concert pianist discusses his art with some undergraduate accompanists.

at the time they are notified of the decisions on their applications for admission, usually late in April of each year.

The general basis for the award of all prematriculation scholarships is the same although there are particular qualifications in several instances which are described below. For every award, however, each candidate is judged on the basis of his academic and personal promise, as well as on the degree of his financial need. In determining these, the College considers the evidence provided by the school record, the results of standardized aptitude tests, the recommendations of school authorities and others, the range and degree of the candidate's interest, and the statement of financial resources submitted on the College Scholarship Service form.

A freshman who holds a prematriculation scholarship up to and including full tuition may expect his award to be renewed annually provided that his need continues and he does satisfactory work. This is construed as work of a C minus or better average for the marks of freshman year and work of a C or better average thereafter. However, holders of scholarships above tuition level are expected to do work of at least a C plus average freshman year and B minus thereafter. If they fail to meet the higher average but do meet the minimum requirement, the amount of their scholarships would normally be reduced to tuition level.

GENERAL SCHOLARSHIPS: These awards, which comprise in both number and total amount the largest source of scholarship aid at Bowdoin, are granted to undergraduates on the basis of their academic records in college and the degree of their financial need. Normally these awards are made at the end of each academic year, but a deserving freshman may qualify for some aid at the end of his first college semester. It should be further noted that an undergraduate may apply at any time in the college year should special circumstances warrant it.

The amounts of General Scholarships vary from approximately \$100 to \$800 a year. In addition to financial need, the Faculty Committee has formulated the following conditions for award: for undergraduates who have completed three or more semesters of study, an average grade of C or better for the preceding semester is required. For undergraduates who have completed fewer than three semesters of study, an average of C minus or better for the preceding semester is required.

GRADUATE SCHOLARSHIPS: These awards are made to students who have completed their work at Bowdoin and are pursuing ad-

← Above: Brunswick borders on the Atlantic Ocean. Here, four miles from Bowdoin College, on a site where clipper ships were built a hundred years ago, a class in biology studies marine life.

Below: Even before the discovery of the North Pole by Admiral Robert Edwin Peary, of the Class of '77, Bowdoin shared scientific interest in the far north. Today the College is represented in polar exploration by Rear Admiral Donald Baxter MacMillan, of the Class of '98, and his famous schooner, BOWDOIN.

vanced study at other institutions. Descriptions of the awards from the Garcelon and Merritt Fund for the study of medicine, and the Everett, Longfellow, Moses, and O'Brien Scholarships for graduate study in Arts and Sciences are on pages 180-182 of this catalogue.

Prematriculation Scholarships

STATE OF MAINE SCHOLARSHIPS: These are the oldest of the pre-matriculation scholarships and are administered by a special committee of the faculty. Each year in the spring the College holds a competition for students who are residents of Maine and who are completing or have completed their secondary school training in the state. Students who have matriculated at other colleges are not eligible. Examinations are set by the College in English, in either Latin or mathematics, and in general information. Each year there are at least four awards in amounts up to \$1,200 each, according to individual need, and for their assignment the state is divided into four districts. Usually an award is made to a candidate from each district. All candidates who take State of Maine Scholarship examinations are also considered for all other prematriculation awards for which they may qualify.

Other awards specifically for candidates from Maine are: the Eaton Scholarship for a resident of Washington County, the Leighton Fund Scholarships for residents of Knox County, the Moore Scholarships preferably for residents of Hancock County, and the Stetson Scholarships for residents of Lincoln County.

BOWDOIN SCHOLARSHIPS: The College offers four scholarships, varying in amount up to \$1,200 according to demonstrated need to candidates who reside outside the State of Maine.

ALUMNI FUND SCHOLARSHIPS: Twenty-five thousand dollars from the receipts of the Alumni Fund usually are set aside annually to provide scholarships for entering freshmen. These awards are in amounts up to \$1,200 depending on the financial status of each candidate, and selections are made by the Faculty Committee on Student Aid.

JOHN JOHNSTON SCHOLARSHIPS: The John Johnston Fund was established to provide scholarship aid to an able and worthy candidate, preferably from rural Maine, for whom a college education would be impossible without very considerable financial assistance. Awards from this fund are made by a committee composed

of members of the Governing Boards of the College and the Director of Admissions.

BOWDOIN FATHERS ASSOCIATION SCHOLARSHIP: Two annual scholarships totalling \$1,600 are offered by the Bowdoin Fathers Association to deserving candidates from outside of New England. Selection is made by a committee composed of the Dean of the College, the Director of Admissions, and a member of the Faculty Committee on Secondary Schools.

ADRIEL ULMER BIRD SCHOLARSHIP: One award of \$1,000 is made each year to a resident of New England who is attending a New England school. The recipient is selected by the Dean of the College and the Director of Admissions.

THE MARY DECROW DANA SCHOLARSHIP: One member of the entering class each year will be the recipient of this scholarship in the amount of \$1,000. The selection is made by the Dean of the College and the Director of Admissions.

THE UNION CARBIDE SCHOLARSHIP: As part of its national scholarship plan, the Union Carbide and Carbon Corporation provides for a four-year award to a deserving freshman entering Bowdoin who intends to make his career in business or industry or as a teacher of mathematics or science. The amount of the award, presently set at \$900, covers the cost of tuition, fees, and books. The recipient is chosen by the Faculty Committee on Student Aid and is subject to the usual scholarship requirements of the College. Preference in making the award is given to candidates from the three northern New England states. The Union Carbide and Carbon Corporation makes an additional grant to the College to help meet some of the indirect expenses of its scholarship holder's education.

THE GENERAL MOTORS SCHOLARSHIP: This award is made by Bowdoin each year to one member of the entering class under the terms of the College Plan of the General Motors Scholarship Program. The amount of the award is not fixed but is designed to enable the student to meet his total expenses for the year. The grant may be renewed each year in accordance with the scholarship requirements of the College.

Students entering Bowdoin may also qualify for General Motors Scholarships under the National Plan, which provides annually one hundred awards for entering freshmen. Under this plan at

least one winner is chosen from each state, and the scholarship is used at the college of the recipient's choice. The national plan awards are made by a group of educators who are representative of the various parts of the country.

Under both programs the colleges receive from General Motors Corporation an additional grant for each scholarship recipient who is enrolled.

General Scholarships

The General Scholarships are derived from funds provided by many generous donors. These awards are made usually on an annual basis early in the summer by the Faculty Committee on Student Aid. Some awards, however, are made to freshmen at the end of their first semester. The scholarships with their terms of award are listed in alphabetical order; the dates of foundation are enclosed within parentheses.

TERMS OF FOUNDATION AND AWARD

CLARA RUNDLETT ACHORN SCHOLARSHIPS. A bequest of \$10,000 from Edgar Oakes Achorn, LL.D., of the Class of 1881, the income to be awarded preferably to students entering the College from Lincoln Academy, Newcastle. (1932)

FRED H. ALBEE SCHOLARSHIPS. A fund of \$24,445, a gift of Louella B. Albee, the income to be used to aid worthy students unable to pay for their own education. The fund is a memorial to Mrs. Albee's husband, Fred H. Albee of the Class of 1899, an internationally known orthopedic surgeon. (1956)

STANWOOD ALEXANDER SCHOLARSHIP. A fund of \$9,668 given by the Honorable DeAlva Stanwood Alexander, LL.D., of Buffalo, New York, of the Class of 1870, in memory of his father, Stanwood Alexander, of Richmond. (1902)

EVA D. H. BAKER SCHOLARSHIP. The sum of \$4,346 given by Guy Parkhurst Estes, of the Class of 1909. (1932)

DENNIS MILLIKEN BANGS SCHOLARSHIP. The sum of \$4,829 given by Mrs. Hadassah Bangs to establish a scholarship in memory of her son, Dennis Milliken Bangs, of the Class of 1891. (1917)

HENRY FRANCIS BARROWS SCHOLARSHIPS. Two scholarships of

\$500 each provided by a trust fund established by Fanny Barrows Reed in memory of her father. (1950)

FREEMAN E. BENNETT AND ELLA M. BENNETT FUND. The sum of \$33,180 bequeathed by Ella M. Bennett, the income to be used each year to assist worthy students. (1951)

BEVERLY SCHOLARSHIP. A fund of \$2,544 established by the Beverly Men's Singing Club in memory of the Reverend Joseph McKeen, D.D., of Beverly, Massachusetts, first President of the College. (1923)

WILLIAM BINGHAM, 2ND, SCHOLARSHIPS. A gift of \$1,000 given in memory of William Bingham, 2nd, of Bethel, to be awarded "to acceptable candidates (in the following order): from the town of Bethel, from other towns in Oxford County, or from elsewhere in the state of Maine." (1956)

THE ADRIEL ULMER BIRD SCHOLARSHIP. A sum of \$25,000 given by a friend of Adriel Ulmer Bird, of the Class of 1916, the income to be awarded annually to residents of New England who have graduated from New England schools, the candidates to be selected on the basis of their all-round ability, their character, and their scholastic attainments, characteristics which Mr. Bird admired. (1953)

BLAKE SCHOLARSHIP. A fund of \$3,885 bequeathed by Mrs. Noah Woods, of Bangor, in memory of her son, William Augustine Blake, of the Class of 1873. (1882)

GEORGE FRANKLIN BOURNE SCHOLARSHIP. A fund of \$970 given by Mrs. Narcissa Sewall Bourne, of Winthrop. (1887)

THE BRETT SCHOLARSHIP FUND. \$2,265 given the College by Mrs. Tedesco Brett in memory of her husband, John Hall Brett of the Class of 1905, and his brother, George Monroe Brett of the Class of 1897, the income to be used for a scholarship. (1957)

BROWN MEMORIAL SCHOLARSHIPS. A fund for the support of four scholarships in Bowdoin College given by the Honorable J. B. Brown, of Portland, in memory of his son, James Olcott Brown, A.M., of the Class of 1856. According to the provisions of this foundation, there will be paid annually the income of one thousand dollars to the best scholar in each undergraduate class who shall have graduated at the High School in Portland after having been a member thereof not less than one year. (1865)

WILLIAM BUCK SCHOLARSHIP. The sum of \$1,500 bequeathed by Miss Anna S. Buck to establish a scholarship in memory of her father, William Buck, M.D., of the Medical Class of 1859, the income to be awarded to a student in the premedical course preferably from Piscataquis County. (1947)

MOSES MORRILL BUTLER SCHOLARSHIPS. A fund of \$9,545 given by Mrs. Olive Storer Butler, of Portland, in memory of her husband, Moses Morrill Butler, of the Class of 1845, to establish four scholarships. (1902)

BUXTON SCHOLARSHIP. A fund of \$7,540 contributed by Cyrus Woodman, Esq., of Cambridge, Massachusetts, to aid deserving students, preference being given to natives and residents of Buxton. (1875)

FLORENCE MITCHELL CALL SCHOLARSHIP. A bequest of \$1,500 from Norman Call, A.M., M.D., of the Class of 1869, in memory of his wife. (1928)

SYLVESTER BENJAMIN CARTER SCHOLARSHIP. The sum of \$2,725 bequeathed by Sylvester Benjamin Carter, A.M., of the Class of 1866, the income of which is to be used to assist worthy and needy students whose residences are in the Commonwealth of Massachusetts. (1918)

JUSTUS CHARLES FUND. A fund of \$9,594 established by the will of Justus Charles, of Fryeburg, for such indigent students as, in the opinion of the President, are most meritorious, deserving, and needy. (1875)

HENRY THEODORE CHEEVER SCHOLARSHIP. A fund of \$486 given by the Reverend Henry Theodore Cheever, D.D., of the Class of 1834, to be administered by the President. (1897)

CHI PSI SCHOLARSHIP. A scholarship of \$200 given by the Chi Psi Fraternity, to be awarded by the College under the usual conditions to a member of that Fraternity. (1946)

HUGH J. CHISHOLM SCHOLARSHIP. The sum of \$15,102 given by Mrs. Hugh J. Chisholm in memory of her husband. (1914)

SAMUEL CLARK, JR., SCHOLARSHIP FUND. A bequest of \$12,500 from Samuel Clark, Jr., "the net income thereof annually to be disposed of in payment to deserving students of Bowdoin College for services rendered as assistants . . . , preference to be given to students whose homes are in Portland, and provisions to be made . . . such

that the award of the income from this fund shall be considered by the recipient and the other students as a special honor and distinction.” (1941)

CLASS OF 1872 SCHOLARSHIP. A fund of \$2,444 given by the Class of 1872. (1902)

CLASS OF 1881 SCHOLARSHIP. A fund of \$3,947 given by the Class of 1881. (1907)

CLASS OF 1892 SCHOLARSHIP FUND. The sum of \$1,447 given by the Class of 1892 at its twenty-fifth reunion, the income to be used for the benefit of deserving students, preference being given to sons of members of the Class of 1892. (1917)

CLASS OF 1896 MEMORIAL SCHOLARSHIP FUND. A fund of \$3,800 given by the Class of 1896 at its twentieth reunion. (1916)

CLASS OF 1903 SCHOLARSHIP. A fund of \$14,192 given by the Class of 1903 on its decennial reunion, the income to be given preferably to worthy and needy descendants of members of the Class. (1913)

CLASS OF 1916 SCHOLARSHIP FUND. A fund of \$5,510 given by the Class of 1916 at its twenty-fifth reunion. (1941)

CLASS OF 1920 SCHOLARSHIP. A fund of \$660 given by various members of the Class of 1920. (1937)

CLASS OF 1926 FUND. A fund of \$16,550 established by the Class of 1926 on the occasion of its twenty-fifth reunion, the income to be used for scholarship purposes. (1951)

CLASS OF 1929 SCHOLARSHIP FUND. A fund of \$18,055 established by the Class of 1929 at its twenty-fifth reunion, “the income to be used for one or more scholarships, with preference to descendants of the Class of 1929.” (1954)

CLASS OF 1930 SCHOLARSHIP. A fund of \$12,040 established by the Class of 1930 at its twenty-fifth reunion. (1955)

CLASS OF 1931 SCHOLARSHIP FUND. A fund of \$9,771 established by the Class of 1931 at its twenty-fifth reunion. (1956)

CLASS OF 1932 SCHOLARSHIP FUND. A fund of \$11,850 established by the Class of 1932 at its twenty-fifth reunion. (1957)

CLASS OF 1944 SCHOLARSHIP FUND. A fund of \$4,489 given by various members of the Class of 1944. (1943)

MARY CLEAVES SCHOLARSHIPS. Three scholarships from a fund of \$3,012 founded by the will of Miss Mary Cleaves. (1871)

SANFORD BURTON COMERY FUND. A fund of \$1,000 given by the Belmont High School and friends in memory of Sanford Burton Comery, of the Class of 1913, the income to be awarded annually to a worthy student, preferably from the Belmont, Massachusetts, High School, or from the Thomaston, Maine, High School. (1936)

CONNECTICUT ALUMNI SCHOLARSHIP FUND. A fund established by the Bowdoin Alumni Association of Connecticut, now amounting to \$2,853. No awards will be made until the principal of the fund reaches \$10,000. (1955)

EDMUND COGSWELL CONVERSE SCHOLARSHIP FUND. A fund of \$51,375 bequeathed by Edmund Cogswell Converse, the income to be distributed as scholarships not exceeding \$500 each. (1921)

ELSE H. COPELAND SCHOLARSHIP FUND. The sum of \$30,000 given by Melvin Thomas Copeland, Ph.D., Sc.D., of the Class of 1906, in memory of his wife. (1954)

CRAM MEMORIAL SCHOLARSHIP. A fund of \$973 founded by the Honorable Marshall Cram, of Brunswick, in memory of his son, Nelson Perley Cram, of the Class of 1861, who lost his life in the service of his country. (1872)

EPHRAIM CHAMBERLAIN CUMMINGS SCHOLARSHIPS. The sum of \$2,914 given by Mrs. Ephraim Cummings in memory of her husband, a member of the Class of 1853. (1914)

CHARLES McLAUGHLIN CUMSTON SCHOLARSHIP. A fund of \$24,175 given by Charles McLaughlin Cumston, LL.D., of the Class of 1843, the income to be given preferably to graduates of the English High School of Boston. (1903)

MURRAY SNELL DANFORTH FUND. A bequest of \$10,000 from Miss Agnes H. Danforth in memory of her brother, Dr. Murray Snell Danforth, of the Class of 1901, the income to be used for the benefit of legal residents of Maine who are preparing for the medical or related professions, or for the benefit of legal residents of Maine who are students in graduate work in medicine or allied subjects. (1956)

DEANE SCHOLARSHIP. A bequest of \$993 from Mrs. Sarah M. B. Deane, the income to be awarded to "some deserving student who shows particular ability in English Literature." (1923)

BENJAMIN DELANO SCHOLARSHIP. A fund of \$973 bequeathed by Captain Benjamin Delano, of Bath. (1877)

THE DELAWARE SCHOLARSHIP. A gift from an anonymous donor to provide a tuition scholarship for a qualifying student from the state of Delaware. (1953)

DELTA SIGMA SCHOLARSHIP. An annual award of \$200 established by the Delta Sigma Fraternity to provide financial aid to one of its members. (1954)

JOHN CALVIN DODGE SCHOLARSHIP. A fund of \$2,913 given by the Honorable John Calvin Dodge, LL.D., of the Class of 1834, and his sons. (1872)

JAMES LOUIS DOHERTY AND HARRIET I. DOHERTY SCHOLARSHIP FUND. A bequest of \$5,000 from Harriet I. Doherty to establish scholarships bearing the name of her husband, James Louis Doherty, of the Class of 1889, and herself. (1932)

FRANK NEWMAN DREW SCHOLARSHIP. A bequest of \$2,000 from Franklin Mellen Drew, of the Class of 1858, in memory of his son. (1926)

EDWARD A. DRUMMOND SCHOLARSHIPS. A bequest of \$5,050 from Edward A. Drummond, the income to be given preferably to students from Bristol. (1914)

CHARLES DUMMER SCHOLARSHIPS. A fund of \$6,166 given by Mrs. Almira C. Dummer in memory of her husband, Charles Dummer, of the Class of 1814. (1874)

JOSEPH WHITMAN SPAULDING SCHOLARSHIP FUND. A bequest of \$2,500 from Mary C. Spaulding in memory of her father, Joseph Whitman Spaulding, A.M., to assist some member of the freshman class. (1926)

ELLIS SPEAR SCHOLARSHIP. A fund of \$11,006 bequeathed by General Ellis Spear, LL.D., of the Class of 1858. (1918)

WILLIAM EDWARD SPEAR SCHOLARSHIP. A bequest of \$1,195 from Mrs. Lida Spear in memory of her husband, William Edward Spear, of the Class of 1870. (1924)

JOHN G. STETSON, of the Class of 1854, FUND. A bequest of \$58,750 from Marian Stetson of Newcastle. The income may be used for scholarships with preference to boys from Lincoln County. (1954)

WILLIAM LAW SYMONDS SCHOLARSHIP. A fund of \$3,367 founded by his family in memory of William Law Symonds, of the Class of

1854, "preference to be given to those showing tendency to excellence in Literature." (1902)

JANE TAPPAN SCHOLARSHIP. The income from \$7,000 bequeathed the College by Mrs. Margaret Tappan Shorey as a memorial to her mother. (1956)

WILLIAM WIDGERY THOMAS SCHOLARSHIPS. Six scholarships from a fund of \$5,828 founded by William Widgery Thomas, of Portland. (1875)

THE CHARLES IRWIN TRAVELLI AWARDS. Annual stipends from \$350 to \$500 are awarded by the Trustees of the Charles Irwin Travelli Fund, of Boston, Massachusetts, to students of high character and scholastic standing whose participation in extracurricular activities and whose "campus citizenship" have contributed significantly "to the interests of the College as a whole." (1948)

HIRAM TUELL SCHOLARSHIP. The sum of \$500 given by the Misses Harriet E. and Anne K. Tuell in memory of their father, Hiram Tuell, of the Class of 1869. (1945)

THE TWENTY-ONE APPLETON HALL SCHOLARSHIP. The sum of \$2,000 given by former occupants of Room 21, Appleton Hall. (1940)

UNION CARBIDE SCHOLARSHIPS. Annual scholarships amounting to \$900 were established by the Union Carbide and Carbon Corporation to be awarded preferably to graduates of public high schools in Maine, New Hampshire and Vermont. These grants are awarded annually to high school graduates of financial need and scholarly distinction by the trustees of the Union Carbide Educational Fund upon recommendation by the College. (1954)

WALKER SCHOLARSHIP FUND. A bequest of \$25,000 from Annetta O'Brien Walker, of Portland. (1935)

JOHN PRESCOTT WEBBER, JR., SCHOLARSHIP. The sum of \$2,654 given by John Prescott Webber, Esq., of Boston, in memory of his son, John Prescott Webber, Jr., of the Class of 1903. (1902)

GEORGE WEBSTER SCHOLARSHIP. The sum of \$3,000 bequeathed by Miss Mary L. Webster to establish a scholarship in memory of her father, George Webster, of the Class of 1859. (1948)

WENTWORTH SCHOLARSHIP FUND. The sum of \$1,000 given by Walter Vinton Wentworth, Sc.D., of the Class of 1886. (1936)

THE WESTINGHOUSE ACHIEVEMENT SCHOLARSHIP IN LIBERAL ARTS OR PHYSICAL SCIENCES. An annual scholarship, providing a stipend of \$500, was established by the Westinghouse Educational Foundation to be awarded to a junior in liberal arts or physical sciences on the basis of high achievement in his academic work and demonstrated qualities of leadership. (1954)

ELLEN J. WHITMORE SCHOLARSHIP. A scholarship of \$1,943 given by Miss Ellen J. Whitmore, of Brunswick. (1902)

HULDAH WHITMORE SCHOLARSHIPS. Two scholarships from a fund of \$4,856 given by the Honorable William Griswold Barrows, LL.D., of the Class of 1839, in memory of his wife. (1887)

NATHANIEL McLELLAN WHITMORE SCHOLARSHIP and GEORGE SIDNEY WHITMORE SCHOLARSHIP. Two scholarships from a fund of \$2,096 given by Mrs. Mary Whitmore in memory of her sons, Nathaniel McLellan Whitmore, of the Class of 1854, and George Sidney Whitmore, of the Class of 1856. (1887)

RICHARD WOODHULL SCHOLARSHIP. The sum of \$9,964 given by Mrs. Mary Elizabeth Woodhull Perry in memory of her father, the Reverend Richard Woodhull, of the Class of 1827, preference being given to his descendants. (1911)

CYRUS WOODMAN SCHOLARSHIPS. A fund of \$7,467 given by Miss Mary Woodman, of Cambridge, Massachusetts, in memory of her father. (1902)

CYRUS WOODMAN TRUST FUND. A fund of \$84,898 established by Cyrus Woodman, Esq., of the Class of 1836, one-half of the income of which is appropriated for the benefit of needy students. (1891)

In recent years the following foundations and corporations have made substantial cash grants which were used for scholarship aid: Bath Iron Works Corporation, Esso Education Foundation, First National Stores, Inc., International Business Machines Corporation, Oxford Charitable Trust, Keyes Fibre Company, Merrill Lynch, Pierce, Fenner and Beane Foundation, Portland Pipe Line Corporation, and United States Steel Foundation, Inc.

Graduate Scholarships: Medicine

GARCELON AND MERRITT FUND. About \$9,000 from the income of this fund, established in memory of Seward Garcelon, of the Med-

ical Class of 1830, and Samuel Merritt, of the Medical Class of 1843, is appropriated annually for medical scholarships. The larger part of the amount is awarded to students pursuing their studies in medical schools, and the remainder may be assigned to students in the College who are taking premedical courses; but, in the discretion of the Trustees, all of the income available may be assigned to students in medical schools.

Applications for medical scholarships must be made upon forms furnished by the President of the College, and must be received by the President before December 1.

Graduate Scholarships: Arts and Sciences

CHARLES CARROLL EVERETT SCHOLARSHIP. A fund of \$13,993 bequeathed by Miss Mildred Everett in memory of her father, Charles Carroll Everett, D.D., of the Class of 1850, the net income of which is given to that graduate of Bowdoin College whom the President and Faculty shall deem the best qualified to take a postgraduate course in either this or some other country. (1903)

HENRY W. LONGFELLOW GRADUATE SCHOLARSHIP. A fund of \$10,057 given by the daughters of Henry W. Longfellow, of the Class of 1825—Miss Alice M. Longfellow, Mrs. Edith L. Dana, and Mrs. Annie L. Thorpe—for a graduate scholarship “that would enable a student, after graduation, to pursue graduate work in some other college, or abroad if considered desirable; the work to be done in English, or general literature, and the field to be as large as possible—Belles Lettres in a wide sense. The student to be selected should be one not merely proficient in some specialty, or with high marks, but with real ability in the subject and capable of profiting by the advanced work, and developing in the best way.” (1907)

GALEN C. MOSES GRADUATE SCHOLARSHIP. A fund of \$5,010 bequeathed by Emma H. Moses, the income “to be awarded and paid to the student most proficient in any natural science during his undergraduate course, who shall actually pursue a postgraduate course in such science at any recognized college or university; said income to be paid to such student for a period not exceeding three years, unless he sooner completes or abandons said postgraduate course.” (1934)

O'BRIEN GRADUATE SCHOLARSHIP. A fund of \$20,000 given by Mrs. John Washburn, of Minneapolis, in memory of her uncles,

John, William, Jeremiah, and Joseph O'Brien, for a "scholarship, preferably a graduate scholarship, for a student, or students, to be selected annually by the Faculty, who shall be deemed most suitable to profit by travel or advanced study, either in this country or abroad." (1937)

Loan Funds

The following Loan Funds were established to assist students in unexpected circumstances to continue their college courses. Applications for loans should be addressed to the Assistant to the President.

THE CUMMINGS LOAN FUND. A fund of \$897 given by George Otis Cummings, M.D., of the Class of 1913, to be administered by the Dean. (1942)

GEORGE PATTEN DAVENPORT LOAN AND TRUST FUND. A fund of \$11,750 established by George Patten Davenport, A.M., of the Class of 1867, of Bath. (1908)

FUND TO AID WORTHY STUDENTS (ANONYMOUS LOAN FUND). A fund of \$15,788 to be administered by the President. (1941)

ALBION HOWE MEMORIAL LOAN FUND. A fund of \$3,762 established by Lucien Howe, M.D., Sc.D., of the Class of 1870, of Buffalo, New York, in memory of his brother, Albion Howe, of the Class of 1861. (1903)

EDWARD PRINCE HUTCHINSON LOAN FUND. A fund of \$455 given by Edward Prince Hutchinson, of the Class of 1927, to be administered by the Dean. (1939)

ARTHUR STEPHEN LIBBY MEMORIAL FUND. A fund of \$1,180 given by Mrs. Arthur S. Libby in memory of her husband, Arthur Stephen Libby, of the Class of 1899. (1949)

MEDDIEBEMPSTERS' LOAN FUND. A fund of \$472 given by "The Meddiebempsters," the double quartet singing group. (1950)

NEW ENGLAND SOCIETY LOAN FUND. A fund of \$1,350 given by The New England Society in the City of New York. (1946)

PRESIDENT'S LOAN FUND. Grants from a sum of \$14,891 received from various donors are made at the discretion of the President of the College. (1918)

The Bowdoin Scientific Station

THE College maintains a Scientific Station at Kent Island in the Bay of Fundy, New Brunswick, Canada, where qualified students in biology have an opportunity to conduct field work on biological problems. Kent Island, containing approximately one hundred and fifty acres and several buildings, was presented to the College in 1935 by Mr. John Sterling Rockefeller, of New York City. Charles Ellsworth Huntington, Ph.D., Assistant Professor of Biology, is the Director of the Station.

This valuable adjunct to the scientific resources of the College is an outpost island at the entrance to the Bay of Fundy, the home of thousands of sea birds, and is especially attractive to students of ornithology. The extensive tides in the Bay provide excellent conditions for the study of marine biology. A wide diversity of environmental conditions, ranging from marsh land to virgin spruce timber, makes the island equally attractive to students of ecology and other fields of biological investigation.

No formal courses are offered at the Station, but students are encouraged to select problems for investigation at Kent Island during the summer and to conduct field work on their own initiative with the advice and assistance of the Department of Biology. Approved field work at the Station is acceptable for credit in *Biology 7-8* (Special Laboratory and Field Investigations) and *Biology 200* and *Biology 300-303* (the Honors courses).

Scientific investigators from other institutions have frequently availed themselves of the opportunities afforded by the Station. Their presence has been a valuable stimulus to the undergraduate members of the Station in the conduct of their work.

A summary of the results accomplished by the students and a general report of the Station are issued in a Bulletin edited by the Director. In addition to the Bulletin, the contributions of the Station published in various scientific journals have been issued from time to time. Twenty-five papers, chiefly by visiting scientists, but also by a number of undergraduate investigators, have thus far been printed. A series of scientific papers, including numbers 1-15, have been bound as the first volume of the contributions of the Station and are distributed to libraries and scientific institutions.

Alumni Placement and Student Counseling and Employment

THE College offers assistance to students and graduates in solving the problem of employment, both during their undergraduate courses and afterward. Opportunities for undergraduates in part-time work at the College or in the community are usually available through the Placement Bureau. The Bureau assists undergraduates in establishing contacts for summer employment.

Students are encouraged to register early in their college career and to consult the Director and Guidance Counselor for vocational counsel and guidance if the work of the Bureau is to be most effective in placing men upon graduation in the positions for which they are best qualified.

The interviews are planned to broaden the student's vocational interest and to aid him in the choice of properly correlated courses best suited to furnish a foundation and background for his life's work. Each student should survey his abilities objectively and study the demands of business, the occupations and the professions in order to assist him in his planning. Students with a definite goal in mind usually approach their work with an earnestness of purpose. While the selection of a career must necessarily be left to the student it should not be deferred too long or left to chance. The Bureau has information available to help guide the applicant to an intelligent choice. Extensive literature, including occupational monographs, and recent books on business careers are at the disposal of the students. The candidate's complete undergraduate record—including classroom work, vocational aptitude tests and extracurricular activities—is used to determine his availability for positions after graduation.

The Bureau continually expands its contacts with employers, acting as an intermediary for the exchange of vocational information between employers and registrants. Representatives of industry are invited to the campus to confer with students and to discuss not only the qualifications necessary for success in their special fields but to explain the opportunities offered to college men. During the Fall a series of business conferences is usually held for the

benefit of registrants. The efforts of the Bureau are coördinated with the activities of the Alumni Placement Committees organized on a national basis in thirty-six strategic areas. These Committees greatly extend the range of opportunities for all registrants. The Bureau makes available to these Committees basic individual data for proper classification and placement of candidates referred to them.

Students planning to enter graduate school should consult with the Dean and the Chairman of their major Department. No charge is made for services rendered to candidates or employers.

The Director devotes the major portion of his time to the activities of the Bureau. He is a member of the Faculty as well as an administrative officer. All correspondence should be addressed to the Director of the Placement Bureau, Banister Hall, Bowdoin College, Brunswick, Maine.

STUDENT COUNSELING OFFICE

In order to identify and then to achieve desired and desirable educational goals, the student needs to know career opportunities and requirements, and he also needs information about himself—his personality, his interests, and his aptitudes—if he is to choose wisely an occupation which will bring him success and satisfaction.

The Director of Student Counseling tries in several ways to help the student to pursue appropriate goals and to function effectively while he is in college. A preliminary interview will usually point out the difficulties involved, outline a program of vocational guidance, testing, and interviews adapted to meet the needs of the student. The program is often useful in preparing an undergraduate to make a vocational or educational decision before he registers with the Placement Bureau. Actually, many students seeking vocational guidance need to have a greater understanding of their personal problems before more objective problems can be solved.

To these ends, the Student Counseling Office offers a coördinated service on vocational, educational, and personal problems by working closely with other college personnel. By frequent inter-consultation and cross-referral between the Student Counseling Director, the Faculty, the Administration, and the Placement Bureau, the Counseling Office aims to help students to realize their potentialities and to overcome the obstacles which sometimes prevent proper adjustment to college life. The Student Counseling Office, centrally located in the north wing of Banister Hall, is open from 1:30 P.M. to 5:00 P.M. Monday through Friday and from 9:00 A.M. to 12:00 noon on Saturday.

Prizes and Distinctions

THE BOWDOIN PRIZE

THE BOWDOIN PRIZE. A fund, now amounting to \$25,500, established as a memorial to William John Curtis, LL.D., of the Class of 1875, by Mrs. Curtis and children. The prize, four-fifths of the total income, is to be awarded "once in each five years to the graduate or former member of the College, or member of its Faculty at the time of the award, who shall have made during the period, the most distinctive contribution in any field of human endeavor. The prize shall only be awarded to one who shall, in the judgment of the committee of award, be recognized as having won national and not merely local distinction, or who, in the judgment of the committee, is fairly entitled to be so recognized." (1928)

The first award of this prize was made in 1933 to Fred Houdlett Albee, M.D., Sc.D., LL.D., of the Class of 1899. The second award was made in 1938 to Harvey Dow Gibson, LL.D., of the Class of 1902, and Paul Howard Douglas, Ph.D., LL.D., of the Class of 1913. The third award was made in 1948 to Kenneth Charles Morton Sills, L.H.D., LL.D., of the Class of 1901. In 1954, the fourth award was made to Rear Admiral Donald Baxter MacMillan, Sc.D., of the Class of 1898.

UNDERGRADUATE PRIZES*

PRIZES IN GENERAL SCHOLARSHIP

ALMON GOODWIN PRIZE FUND. This fund of \$1,190 was established by Mrs. Maud Wilder Goodwin in memory of her husband, Almon Goodwin, of the Class of 1862. The annual income, \$50, is awarded to a Phi Beta Kappa man chosen by vote of the Trustees of the College at the end of the recipient's Junior year. (1906)

GEORGE WOOD MCARTHUR PRIZE. A fund of \$2,000 bequeathed by Almira L. McArthur, of Saco, in memory of her husband, George Wood McArthur, of the Class of 1893. The annual income, \$90, is awarded as a prize to that member of the graduating class who, coming to Bowdoin as the recipient of a prematriculation scholarship, shall have attained the highest academic standing among such recipients within the class. (1950)

* The amount of the prizes depends upon the income of the funds; hence the figures given for awards are only approximate.

DEPARTMENTAL PRIZES

CLASS OF 1875 PRIZE IN AMERICAN HISTORY. A prize of \$200, the annual income of \$4,545, was established by William John Curtis, LL.D., of the Class of 1875, and is awarded to the student who writes the best essay and passes the best examination on some assigned subject in American History. (1901)

HANNIBAL HAMLIN EMERY LATIN PRIZE. A prize of \$50, the annual income of a fund of \$1,190, is awarded to a member of the Junior or Senior Class for proficiency in Latin. (1922)

GOODWIN FRENCH PRIZE. A prize of \$25, the annual income of a fund of \$650 given by the Reverend Daniel Raynes Goodwin, D.D., is awarded to the best scholar in French. (1890)

NATHAN GOOLD PRIZE. A prize of \$115, the annual income of \$2,577, was established by Abba Goold Woolson, of Portland, in memory of her grandfather. It is awarded to that member of the "Senior Class who has, throughout his college course, attained the highest standing in Greek and Latin studies." (1922)

EDWIN HERBERT HALL PHYSICS PRIZE. A prize named in honor of Edwin Herbert Hall of the Class of 1875, the discoverer of the Hall Effect, is awarded each year to the best freshman scholar in the field of Physics. (1953)

SUMNER INCREASE KIMBALL PRIZE. A prize of \$125, the annual income of \$2,799, was established by the Honorable Sumner Increase Kimball, Sc.D., of the Class of 1855. It is awarded to that member of the Senior Class who has "shown the most ability and originality in the field of the Natural Sciences." (1923)

PHILIP WESTON MESERVE FUND. A prize of \$25, established with a gift of \$605, in memory of Professor Philip Weston Meserve, of the Class of 1911, "the income to be used preferably to stimulate interest in Chemistry." (1941)

NOYES POLITICAL ECONOMY PRIZE. A prize of \$50, the annual income of a fund of \$1,190, established by Crosby Stuart Noyes, A.M., is awarded to the best scholar in Political Economy. (1897)

PRAY ENGLISH PRIZE. A prize of \$55, the annual income of a fund of \$1,288 given by Dr. Thomas Jefferson Worcester Pray, of the Class of 1844, is awarded to the best scholar in English Literature and original English Composition. (1889)

SEWALL GREEK PRIZE. A prize of \$35, the annual income of a fund of \$778 given by Professor Jotham Bradbury Sewall, D.D., of the Class of 1848, formerly Professor of Greek in the College, is awarded to the member of the Sophomore Class who sustains the best examination in Greek. (1879)

SEWALL LATIN PRIZE. A prize of \$35, the annual income of a fund of \$778, also given by Professor Sewall, is awarded to the member of the Sophomore Class who sustains the best examination in Latin. (1879)

BERTRAM LOUIS SMITH, JR., PRIZE SCHOLARSHIP. A bequest of \$4,059 from Bertram Louis Smith, in memory of his son, a member of the Class of 1903, to encourage excellence of work in English Literature. From this fund a premium of \$185 is awarded by the Faculty to a member of the Junior Class who has completed two years' work in English Literature. Ordinarily it is awarded to a student majoring in English and performance of major work as well as record in courses is taken into consideration. (1925)

SMYTH MATHEMATICAL PRIZE. A fund of \$6,952, the gift of Henry Jewett Furber, of the Class of 1861, named by him in honor of Professor William Smyth. Three hundred dollars, the income of the fund, is given to that student in each Sophomore Class who obtains the highest rank in the mathematical studies of the first two years. The rank is determined mainly by the daily recitations, but the Faculty may in its discretion order a special examination, the result of which will be combined with the recitation rank. The successful candidate receives one-third of the prize at the time the award is made. The remaining two-thirds is paid to him in installments at the close of each term during Junior and Senior years. If a vacancy occurs during those years, the next in rank secures the benefit of the prize for the remainder of the time. (1876)

PRIZES IN DEBATING AND DECLAMATION

EDGAR OAKES ACHORN PRIZE. This prize, consisting of the annual income of \$1,214 bequeathed by Edgar Oakes Achorn, of the Class of 1881, is awarded for excellence in debating between members of the Freshman and Sophomore Classes; or for an essay by a freshman or sophomore on "Chapel exercises, their place at Bowdoin," or on any other subject on the place of religion in a liberal arts college. First prize, \$25; Second prize, \$15; Third prize, \$10. (1932)

ALEXANDER PRIZE FUND. This fund amounting to \$1,488 was established by the Honorable DeAlva Stanwood Alexander, LL.D., of the Class of 1870, and furnishes two prizes, three-fifths and two-fifths of the annual income, for excellence in select declamation. Competition is open to freshmen, sophomores, and juniors. First prize, \$40; Second prize, \$25. (1905)

BRADBURY DEBATING PRIZE. The annual income of a fund of \$2,000, given by the Honorable James Ware Bradbury, LL.D., of the Class of 1825, is awarded for excellence in debating. First team, \$65; Second team, \$15. (1901)

CLASS OF 1868 PRIZE. A prize of \$50, the annual income of a fund of \$1,081, contributed by the Class of 1868, is given to that member of the Senior Class who shall write and deliver the best oration. (1868)

HILAND LOCKWOOD FAIRBANKS PRIZE FUND. This fund of \$2,385 was established by Captain Henry Nathaniel Fairbanks, of Bangor, in memory of his son, Hiland Lockwood Fairbanks, of the Class of 1895. Of the annual income, \$100, one-half is awarded for excellence in debating and advanced public speaking (*English* 6, 5); one-fourth is awarded as two prizes for excellence in declamation (*English* 3-4); and the remaining fourth is left at the disposal of the English Department for the promotion of interest in public speaking. (1909)

GOODWIN COMMENCEMENT PRIZE. A prize of \$50, the annual income of a fund of \$1,190 given by the Reverend Daniel Raynes Goodwin, D.D., of the Class of 1832, is awarded to the author of the best Commencement Part. (1882)

WILMOT BROOKINGS MITCHELL DEBATING TROPHY. This trophy, presented by an anonymous donor, is to be inscribed annually with the winner of the interfraternity debate competition and awarded to that fraternity which has won three annual competitions. (1953)

STANLEY PLUMMER PRIZE. A prize of \$45, the annual income of a fund of \$1,055, established by Stanley Plummer, of the Class of 1867, is awarded "for excellence in original and spoken composition in the English language on the part of the members of the Junior Class." (1919)

ESSAY PRIZES

EDGAR OAKES ACHORN PRIZE. This prize, consisting of the annual income of \$1,214 bequeathed by Edgar Oakes Achorn, of the Class

of 1881, is awarded for excellence in debating between members of the Freshman and Sophomore Classes; or for an essay by a freshman or sophomore on "Chapel exercises, their place at Bowdoin," or on any other subject on the place of religion in a liberal arts college. First prize, \$25; Second prize, \$15; Third prize, \$10.

(1932)

PHILO SHERMAN BENNETT PRIZE FUND. This fund amounting to \$602 was established by the Honorable William Jennings Bryan from trust funds of the estate of Philo Sherman Bennett, of New Haven, Connecticut. The proceeds are used for a prize of \$25 for the best essay discussing the principles of free government. Competition is open to juniors and seniors. Essays are due Friday, May 23.

(1905)

BROWN COMPOSITION PRIZES. Two prizes of \$40 and \$25, the annual income of a fund of \$1,431, established by Philip Greely Brown, of the Class of 1877, in memory of Philip Henry Brown, Esq., of the Class of 1851, are offered to members of the Senior Class for excellence in Extemporaneous English Composition. Competition will be held Friday, May 23, at 8:15 in 205 Sills.

(1874)

CLASS OF 1875 PRIZE IN AMERICAN HISTORY. A prize of \$200, the annual income of \$4,545, was established by William John Curtis, LL.D., of the Class of 1875, and is awarded to the student who writes the best essay and passes the best examination on some assigned subject in American History.

(1901)

CHARLES HAROLD LIVINGSTON HONORS PRIZE IN FRENCH. The annual income of a fund of \$1,000 is awarded to encourage independent scholarship in the form of honor theses in French. The fund was established by former students of Professor Charles Harold Livingston, Ph.D., Longfellow Professor of Romance Languages, Emeritus, upon the occasion of his retirement.

(1956)

HORACE LORD PIPER PRIZE. A prize of \$60, the annual income of \$1,373, was established by the Honorable Sumner Increase Kimball, Sc.D., of the Class of 1855, in memory of Major Horace Lord Piper, of the Class of 1863. It is awarded to that member of the Sophomore Class who presents the best "original paper on the subject calculated to promote the attainment and maintenance of peace throughout the world, or on some other subject devoted to the welfare of humanity." Papers are due Friday, May 23.

(1923)

DAVID SEWALL PREMIUM. A prize of \$55, the annual income of a fund of \$1,238, is awarded to a member of the Freshman Class for excellence in English composition. Entries are due at the last meeting of *English 2*. (1795)

PRIZES IN CREATIVE ARTS

BOWDOIN ORIENT PRIZES. Six cash prizes are offered by the Bowdoin Publishing Company to be awarded each Spring to those junior members of the *Orient* Staff who have made the most significant contribution to the various departments of the *Orient* in the preceding volume. (1948)

HAWTHORNE PRIZE. A prize of \$40 given in memory of Professor Robert Peter Tristram Coffin, B.Litt., (Oxon.), Litt.D., of the Class of 1915, and in memory of the original founders of the Hawthorne Prize, Nora Archibald Smith and Mrs. George C. Riggs (Kate Douglas Wiggin), Litt.D. It is awarded each year to the author of the best short story. The competition is open to members of the Sophomore, Junior, and Senior Classes. Entries are due Saturday, May 24, in 203 Sills. (1903)

MASQUE AND GOWN FIGURINE. A figurine, "The Prologue," carved by Gregory Wiggin, is presented annually to the author of the prize-winning play in the One-Act Play Contest, and held by him until the following contest. (1937)

MASQUE AND GOWN ONE-ACT PLAY PRIZES. Cash prizes of \$25 and \$15 are awarded annually for the best and second-best plays written and produced by undergraduates. (1934)

ALICE MERRILL MITCHELL PRIZE. A prize of \$20, the income of \$500 given by Professor Wilmot Brookings Mitchell, L.H.D., Litt.D., of the Class of 1890, in memory of his wife, Alice Merrill Mitchell, is awarded annually to that member of the Senior Class who, in the opinion of a Faculty committee of which the Director of Dramatics is chairman, has shown, in plays presented at the College during the two years preceding the date of award, the most skill in the art of acting. (1951)

POETRY PRIZE. A prize of \$5, one-half the annual income of \$284, is given each semester for the best poem on Bowdoin written by an undergraduate. (1926)

FORBES RICKARD, JR. POETRY PRIZE. A prize of \$20, the annual income of a fund of \$555 given by a group of alumni of his frater-

nity in memory of Forbes Rickard, Jr., of the Class of 1917, who lost his life in the service of his country, is awarded to the undergraduate writing the best poem. Entries are due Saturday, May 24, in 203 Sills. (1919)

AWARDS FOR CHARACTER AND LEADERSHIP

ANDREW ALLISON HALDANE CUP. A cup given by fellow officers in the Pacific in memory of Captain Andrew Allison Haldane, USMCR, of the Class of 1941, awarded to a member of the Senior Class who has outstanding qualities of leadership and character. (1945)

LUCIEN HOWE PRIZE SCHOLARSHIP. A fund of \$5,074 given by Lucien Howe, M.D., Sc.D., of the Class of 1870. Fifty dollars from the income is "awarded by the Faculty to that member of the Senior Class, who, during his college course, by example and influence has shown the highest qualities of conduct and character, the award to be either in cash or in the form of a medal, according to the wish of the recipient." The remainder is expended by the President to improve the social life of the undergraduates. (1920)

ELMER LONGLEY HUTCHINSON CUP. A cup, given by the Chi Psi fraternity at the College in memory of Elmer Longley Hutchinson, of the Class of 1935, is awarded annually to a member of the varsity track squad for high conduct both on and off the field of sport. (1939)

COL. WILLIAM HENRY OWEN PREMIUM. An award of \$30, the income of a fund of \$663 established by Frederick Wooster Owen, M.D., in memory of his brother, Col. William Henry Owen, A.M., of the Class of 1851, is awarded at Commencement "to some graduating student recognized by his fellows as a humble, earnest, and active Christian." (1916)

FRANKLIN DELANO ROOSEVELT CUP. A cup, furnished by the Alpha Delta Phi fraternity at the College, to be inscribed annually with the name of that member of the three lower classes whose vision, humanity, and courage most contribute to making Bowdoin a better college. (1945)

PRIZES IN ATHLETICS AND SCHOLARSHIP

JAMES BOWDOIN CUP. This cup, given by the Alpha Rho Upsilon fraternity, is awarded annually on James Bowdoin Day to the student who in his previous college year has won a varsity letter in ac-

tive competition and has made the highest scholastic average among the students receiving varsity letters. In case two or more students should have equal records, the award shall go to the one having the best scholastic record during his college course. The name of the recipient is to be engraved on the cup and the cup retained for the following year by that college group (fraternity or non-fraternity) of which the recipient is a member. (1947)

ORREN CHALMER HORMELL AWARD. A trophy, given by the Sigma Nu fraternity at the College, in honor of Orren Chalmer Hormell, Ph.D., D.C.L., DeAlva Stanwood Alexander Professor of Government, Emeritus, is awarded annually to a member of the Freshman Class for high scholastic honors and skill in athletic competition. The name of the winner is inscribed upon a plaque kept in the chapter house. (1949)

MILITARY PRIZES

THE GENERAL PHILOON TROPHY. A cup given by Wallace Cope-land Philoon, M.S., Major General, U.S.A. (Retired), of the Class of 1905, is awarded each autumn to that member of the Senior Class who has made the best record at the summer camp of the R.O.T.C. (1951)

THE PERSHING-PRESNELL SWORD. A sword presented in honor of General John J. Pershing to Major John Finzer Presnell, Jr., '36, as the First Captain of the Class of 1940 at the United States Military Academy. Following the death of Major Presnell in the Second World War, his parents gave the sword to Bowdoin College. The Pershing-Presnell Sword is assigned and the shield bearing the sword is inscribed with the name of the Cadet Colonel commanding the Bowdoin College Regiment, Reserve Officers' Training Corps. (1951)

MISCELLANEOUS PRIZES

ABRAXAS AWARD. A plaque is awarded to the school sending three or more graduates to the College, whose representatives maintain the highest standing in the first semester of Freshman year. This award, established in 1915 by the Abraxas Society, is now given by the Student Council. (1915)

PHI BETA KAPPA

The Phi Beta Kappa Society, national honorary fraternity for the recognition and promotion of scholarship, was founded at the

College of William and Mary in 1776. The Bowdoin Chapter (Alpha of Maine), the sixth in order of establishment, was founded in 1825. In addition to the nine charter members, 1,693 men have been elected to membership, of whom 632 are living.

Election to the society is on the basis of scholarly achievement, in estimating which, consideration is given primarily to grades in courses, secondarily (at graduation) to departmental honors. Elections may be held two times a year—in February and June. Candidates must have completed twenty-six semester units for college credit.

The officers of the Chapter for 1957-1958 are:

President, George William Burpee, 1904.

Vice-President, Richard Leigh Chittim, 1941.

Secretary-Treasurer, Nathan Dane, II, 1937.

Literary Committee: Roscoe Henderson Hupper, 1907, *Chairman*; Noel Charlton Little, 1917; Carroll Sherburne Towle, 1922; Richard Kenneth Barksdale, 1937; Arthur Sherbo, 1947.

JAMES BOWDOIN DAY

Named in honor of the earliest patron of the College, James Bowdoin Day was instituted in 1941 to accord recognition to those undergraduates who distinguish themselves in scholarship. At a convocation of the entire College, the exercises consist of the announcement of awards, the presentation of books, a response by an undergraduate, and an address.

The James Bowdoin Scholarships, carrying no stipend, are awarded to undergraduates who have completed two semesters' work, in recognition of a high average in their courses to date or of superior work in their major departments.

A book, bearing the plate of the Honorable James Bowdoin (1752-1811), is presented to every undergraduate who has maintained an "A" record throughout two consecutive semesters.

ALUMNI RECORD

It is desired to keep as full a record as possible of the residences, occupations, and public services of the Alumni. Information is solicited in regard to these points, and also in regard to matters appropriate to the *Bowdoin Alumnus*, published six times a year at the College.

Communications should be addressed to the Alumni Secretary, Getchell House, Brunswick, Maine.
